New York, April 06, 2018 -- Moody's Investors Service has assigned Aa2 ratings to the City of New York's (NY) $850 million General Obligation Bonds, Fiscal 2018 Series F, Subseries F-1; $133.5 million General Obligation Bonds, Fiscal 2018 Series F, Subseries F-2; and $116.5 million General Obligation Bonds, Fiscal 2018 Series F, Subseries F-3. We also maintain an Aa2 rating on $64 million of existing General Obligation Bonds, Fiscal Series 2004, Sub Series A-2, currently outstanding as variable rate demand bonds, that will be reoffered as fixed rate bonds. All of the bonds are scheduled to price April 11. The outlook is stable.

**RATINGS RATIONALE**

The ratings reflect the city's large and resilient economy, its extraordinarily large tax base, its institutionalized budgetary and financial management controls, growing reserves, its proactive responses to budget strain during economic downturns, the key but diminishing role of the volatile financial services sector, and moderate but growing costs for the combination of debt service, pension, and employee and retiree healthcare.

**RATING OUTLOOK**

The outlook for New York City's general obligation bonds is stable. The city's institutionalized budgetary controls and early recognition of future budget pressure help it maintain a balanced financial position and weather economic downturns. The city's economy is reliant on a volatile financial services sector, but it continues to diversify, and its finances will benefit. Even with strong budgetary controls, growth in costs for debt service, pensions and retiree health care will continue to be a challenge for the city.

**FACTORS THAT COULD LEAD TO AN UPGRADE**

- Sustained reduction in the growth of the city's debt burden and other fixed costs, and establishment of formal policy for managing debt within prescribed constraints

- Establishment of significant formal budget reserves to buffer the inherent volatility of the financial services sector

- Improved and continuing growth in city employment and the property tax base

**FACTORS THAT COULD LEAD TO A DOWNGRADE**

- Inability to manage rapidly rising costs in non-discretionary spending such as debt service, personnel costs, or pensions

- Divergence from well-established fiscal practices

- Emergence of significant liquidity strain and the need for large cash-flow borrowing

**LEGAL SECURITY**

The bonds are general obligation, full faith and credit obligations of the city, secured by a real property tax levied without limitation as to rate or amount. All of the city's property tax is deposited into the general debt service fund, which is administered and maintained by the state comptroller.

**USE OF PROCEEDS**

Proceeds of the bonds will be used to help finance the city's capital plan.

**PROFILE**

New York City is large and diverse, with a population of 8.6 million people and personal income per capita that is 130% of the US level. The city itself is five counties and the nation's largest public school system.
