INTRODUCTORY SECTION

Part I

Fiscal Year Ended June 30, 2015

THE CITY OF NEW YORK
OFFICE OF THE COMPTROLLER

SCOTT M. STRINGER
COMPTROLLER

October 29, 2015

TO THE PEOPLE OF THE CITY OF NEW YORK

I am pleased to present The City of New York's Comprehensive Annual Financial Report (CAFR) for Fiscal Year 2015. This report, the second issued under my administration, shows that The City of New York (City) completed its fiscal year with a General Fund surplus, as determined by Generally Accepted Accounting Principles (GAAP), for the 35th consecutive year.

The General Fund remains a primary indicator of the financial activity and legal compliance for the City within the financial reporting model promulgated by the Governmental Accounting Standards Board (GASB). The General Fund had revenues and other financing sources in Fiscal Year 2015 of \$78.035 billion and expenditures and other financing uses of \$78.030 billion, resulting in a surplus of \$5 million. These expenditures and other financing uses include transfers and subsidy payments of \$3.601 billion to help eliminate the projected budget gap for Fiscal Year 2016. Fiscal year expenditures and other financing uses were \$5.155 billion more than in Fiscal Year 2014, an increase of 7%. Excluding the transfers and subsidy payments to eliminate future fiscal year projected gaps, expenditures and other financing uses increased by \$3.462 million or 5%. A detailed analysis of the City's fund and government-wide financial statements is provided in Management's Discussion and Analysis (MD&A), which immediately precedes the basic financial statements contained in this report.

ECONOMIC CONDITIONS IN FISCAL YEAR 2015 AND OUTLOOK FOR FISCAL YEAR 2016

The City's Economy in Fiscal Year 2015

The City's economy continued its satisfactory performance in Fiscal Year 2015. Real Gross City Product increased by 3.0%, an acceleration from Fiscal Year 2014's 2.1% growth. Private sector job creation remained strong although not quite at the record pace of the prior year, and the unemployment rate fell to its lowest level since 2008. The average weekly earnings of private sector employees increased at the fastest rate in seven years but was still a disappointing 2.5% (on a year-over-year basis).

New York City added 114,600 private sector jobs from June 2014 through June 2015, fewer than in the previous twelve months but still the second-highest number in the past 25 years. The Health Care sector was the largest contributor of new jobs, adding 26,600 from June 2014 through June 2015. In the first full fiscal year of the Affordable Care Act, the Ambulatory Health Care industry added 21,900 jobs, its largest gain on record, of which 15,200 were in Home Health Care. The Professional and Business Services sector added 25,300 employees during the year, spread among component industries such as Advertising (+3,400), Accounting (+3,300), Computer Systems and Design (+3,000), and Architecture and Engineering (+2,400). Finance and Insurance continued its slow recovery from the 2008 financial crisis, adding 8,100 employees. The Food Service (+11,500) and Retail Trade industries (+9,000) also continued to add employment.

Overall, the composition of job creation deteriorated somewhat compared to the previous year, with the three largest low-wage industries—retail sales, food service, and home health care—accounting for 31% of the net job gain in Fiscal Year 2015 compared to 28% in Fiscal 2014. Middle-tier wage sectors also contributed more to net job creation, while the high wage sectors of Financial Activities, Business and Professional Services, and Information contributed less to the overall job increase. The disproportionate increase in low-wage employment contributed to another year of disappointing wage growth. Although better than in previous years, the 2.5% increase in the average weekly earnings of private-sector workers did little to allow workers to catch up after more than six years of negligible real wage growth.

The City's unemployment rate fell steadily, from 7.2% in June 2014 to 5.7% in June 2015. By the end of the fiscal year, the City's seasonally-adjusted unemployment rate was at its lowest level since September 2008. With a decrease of 1.7 percentage points in its unemployment rate, the Bronx saw the greatest improvement, but its unemployment rate remains the highest of the boroughs. Nevertheless, the economic recovery continued to broaden, with every borough ending the fiscal year with its lowest unemployment rate since 2008. The City's unemployment rate declined despite the biggest increase in the labor force since 2012. The City's labor force participation rate reached 61.5% by the end of the fiscal year, its highest on record.

Manhattan's office market continued to strengthen in Fiscal Year 2015, with the borough's overall office vacancy rate dropping from 10.3% in 2Q14 to 8.8% in 2Q15. Total leasing activity for the year topped 31 million square feet, a 4.3% increase over the previous fiscal year. Leasing activity was led by finance firms recommitting to their Manhattan locations and tech firms expanding their operations in the City. The average asking rent for direct office rentals in Manhattan reached \$70/ft² for the first time since before the financial crisis and recession.

The Outlook for the City's Economy in Fiscal Year 2016

Despite the recent financial turmoil in China and the worldwide stock market volatility, the City's economic outlook for Fiscal Year 2016 remains moderately positive. Both the national and local economies continue to create jobs at a brisk pace, which should continue to increase aggregate spending power and create some upward pressure on wages. Inflation remains negligible so the Federal Reserve (Fed) has little reason to push interest rates to levels that might constrain economic growth. Also, households and businesses have not increased their indebtedness to the degree they did in the previous economic expansion, so a collapse of asset prices and spending seems less likely.

The first quarter of Fiscal Year 2016 was marked by global financial instability originating with an economic slowdown in China, a plunge in China's stock market and a devaluation of its currency. Concerns about China's economic stability spread to other developing economies, especially those whose principal exports are commodities, of which China is the biggest purchaser. While there are channels through which instability in China and other developing economies could adversely affect economic growth in the U.S., direct growth lapses in emerging markets have not historically been transmitted to the United States. Direct U.S. business exposure to China, in particular, is limited. In 2014, only 1.3% of U.S. businesses' direct investment abroad was in China, and China was the source of only 0.3% of foreign direct investment in the U.S.

The appreciation of the dollar over the past year represents a more direct risk to U.S. economic growth. Although the U.S. economy continued to expand during previous periods of dollar appreciation, the stronger dollar creates "headwinds" that can temper the economic growth rate. Such considerations played a role in the Federal Reserve Bank's September decision to once again postpone its "normalization" of U.S. interest rates and it is likely to encourage the Fed to pursue a cautious path in Fiscal Year 2016.

Fiscal austerity has been a major cause of the lackluster U.S. growth in recent years. The looming negotiations between the President and Congress over the FY 2016 budget and debt ceiling are likely to extend budget stringency into the next Presidential administration, and, in the worst case, result in another disruptive government shutdown and debt crisis.

International conditions and domestic fiscal politics suggest that U.S. economic growth in Fiscal Year 2016 will be similar to that of the previous five years. That will provide a basis for continued moderate growth in the local economy, continued job creation and a further reduction in the City's unemployment rate.

Among the most auspicious indicators of the City's economic prospects in Fiscal Year 2016 is the solid absorption of office space in the past fiscal year. Companies usually do not renew and expand existing leases, or lease new space, unless they have specific plans for hiring and expansion. The prominence of technology and media firms in the City's office space market in recent years also indicates that the nebulous tech sector is expanding at a rapid rate and regenerating some of the City's core industries.

REPORTS FROM THE DIVISIONS AND BUREAUS OF THE COMPTROLLER'S OFFICE

BUREAU OF BUDGET

Division of Fiscal and Budget Studies

The Division of Fiscal and Budget Studies in the Comptroller's Bureau of Budget monitors the City's finances, capital spending, and economy. In analyzing the City's budget and financial plan, the division focuses on the City's debt capacity and economic outlook. After each budget modification, the division conducts an in-depth analysis of the Mayor's budget proposal and shortly thereafter releases a report to the general public that highlights the major findings. The report reviews the main components of the City's budget, analyzing the soundness of the City's budgetary and economic assumptions, changes in expense and capital budget priorities, and financial and economic conditions and developments affecting the City's fiscal outlook and budget totals.

Modification of the City's current year budget and four-year financial plan occurs quarterly during the fiscal year. Coinciding with the release of quarterly modifications, the budget review and preparation generally adheres to the following cycle: (1) the Mayor's submission of a preliminary budget for the ensuing fiscal year in January, (2) the Mayor's presentation of the Executive Budget to the City Council in April, (3) budget adoption prior to July 1, the beginning of the new fiscal year, and (4) the first quarterly modification to the Adopted Budget which is typically released in November. As part of the budget process, the division prepares a number of reports and letter statements as mandated by the New York City Charter:

- An annual report to the City Council on the state of the City's economy and finances by December 15, including an evaluation of the City's updated financial plan.
- An annual report on the City's capital debt and obligations including the maximum amount of debt the City may soundly incur in subsequent fiscal years and the indebtedness against the General Obligation debt limit in the current and subsequent three fiscal years as stipulated by the New York State Constitution.
- A certified statement of debt service submitted by the Comptroller to the Mayor and the City Council by March 1. The statement, which is published in The City Record, contains a schedule of the appropriations for debt service for the subsequent fiscal year.
- A letter statement certifying the Adopted Budget Resolutions and filed with the City Clerk.

FY 2015 Analysis

The City adopted a Fiscal Year 2015 (July 1-June 30) budget totaling \$74.494 billion (less Interfund Agreements) on June 26, 2014. Actual Fiscal Year 2015 tax revenues were \$3.324 billion more than projected in the Fiscal Year 2015 Adopted Budget due to the ongoing economic recovery and to conservative forecasting. Similarly, non-tax revenues were \$217 million more than projected in the Fiscal Year 2015 Adopted Budget. A reduction of \$750 million to the General Reserve, debt service savings of \$622 million along with the aforementioned revenue increases provided the City with additional resources above the Adopted Budget projections.

The additional resources cited above allowed the City to deposit an additional \$955 million into the Retiree Health Benefits Trust Fund. The remaining resources were used to fund a net increase of \$399 million in all other expenditures and a Budget Stabilization Account (BSA) of \$3.554 billion. The BSA was used to prepay \$1.578 billion of Fiscal Year 2016 New York City Transitional Finance Authority debt service and \$1.976 billion of Fiscal Year 2016 General Obligation debt service.

Division of Financial Analysis

The Division of Financial Analysis (DFA) within the Bureau of Budget monitors the daily cash balance in the City's Central Treasury to ensure adequate levels of cash-on-hand throughout the fiscal year. DFA forecasts daily cash balances to determine the potential need and timing for seasonal borrowing. The Comptroller issues a Cash Letter with these projections and regularly updates it throughout the year. DFA also prepares the Quarterly Cash Report, which provides an overview of the City's cash position and highlights major changes during the quarter. The City's Central Treasury carried an average daily unrestricted cash balance of \$9.46 billion during Fiscal Year 2015, with a fiscal year-end balance of \$9.50 billion. For the eleventh consecutive year, the City did not need to issue short-term notes.

Office of the General Counsel

The Office of the General Counsel (OGC) serves as the advisor to the Comptroller on all matters that have legal implications affecting the mission and operations of the Comptroller's Office.

OGC works closely with all Comptroller's Office divisions and bureaus and with the legal staff of many City agencies, most notably, the Law Department, the Office of Management and Budget, and the Mayor's Office of Labor Relations. OGC also works closely with its counterparts at various public pension funds throughout the United States, with the State Comptroller's Office, and with various federal, state, and local government agencies.

OGC's core responsibilities include:

- Interpreting the Comptroller's City Charter-mandated authority and other powers and providing legal support to the Comptroller's Office's in its exercise of these functions, including audits of City agencies and entities under contract with the City and resolution of claims;
- Advising and providing legal support on a broad variety of complex investment transactions and contracts in both public and private markets, proxy solicitation matters, shareholder initiatives, securities litigation, contract, commercial, and matters in connection with the Comptroller's role as Chief Investment Advisor to all of the City pension funds and trustee on four of the five City pension funds;

- Assisting the Comptroller’s Bureau of Public Finance in structuring and negotiating City bond and note sales;
- Advising on Comptroller’s Directives and Memoranda—accounting and internal controls, policies, procedures, and standards applicable to all City agencies—and assisting with responses to questions and comments concerning the scope and implementation of directives from City agencies and contractors;
- Providing legal advice on City contract registration issues;
- Reviewing and approving the Comptroller’s Office’s own contracts and providing intra-agency advice on procurement issues, including RFPs and bid documents, and contract negotiations.

In addition, OGC supervises the Comptroller’s Bureau of Law and Adjustment to settle and adjust all claims for and against the City, including personal injury and property damage claims, contract disputes filed against the City, and referral of fraudulent claims to the appropriate law enforcement agencies for prosecution.

OGC also oversees the Comptroller’s Bureau of Labor Law in its enforcement of, and other responsibilities relating to, New York State and City prevailing and living wage requirements.

OGC also coordinates responses to all Freedom of Information Law requests from the public, addresses Comptroller’s Office employee disciplinary issues, and ensures that the Comptroller’s office complies with all applicable workplace laws.

BUREAU OF LAW AND ADJUSTMENT

The Bureau of Law & Adjustment (BLA) is responsible for carrying out the Comptroller’s Charter-mandated responsibility of adjusting claims for and against the City.

Claims against the City arise out of the vast undertakings of City agencies and the Health and Hospitals Corporation. The City is uninsured with respect to risks, including, but not limited to, property damage and personal injury claims. Generally, the cost of claims is paid out of the City’s General Fund.

The City spent \$680 million on judgments and claims in Fiscal Year 2015, a decrease of \$53 million from the prior year. The Comptroller’s Office also approved approximately \$17.6 million in affirmative settlements—that is monies paid to the City based on its claims against others—in Fiscal Year 2015.

In July 2014, the Comptroller launched ClaimStat, a data-driven tool designed to drive down the cost of judgments and settlements by empowering City agencies to reduce claims through changes in training or resource delivery. During the first year of this initiative, ClaimStat identified several claim patterns within agencies including the Police Department, the Department of Parks and Recreation, the New York City Health and Hospitals Corporation, the Department of Environmental Protection, and the Department of Sanitation.

To address costly claims related to Police Department operations, the Comptroller’s Office and the Police Department have established a joint working group of senior managers who meet regularly to address issues and trends regarding claims involving law enforcement. The historic initiative, intended to lower claim risks and payouts, has allowed for the sharing of information and unprecedented communications between the two agencies.

In Fiscal Year 2015, the Comptroller’s Office collected \$7.5 million from claimants who received settlements from the City and who had outstanding obligations to the City for public assistance and child support. This achievement was made possible by partnering with other City agencies, particularly with the Human Resources Administration/Department of Social Services, to improve the automated City systems.

The Comptroller’s Office continues to expand efforts to collect compensation from those who have damaged City property. In Fiscal Year 2015, the Comptroller’s Office collected \$1.3 million in property damage affirmative claims.

The Comptroller’s Office has been successfully working with the New York State Office of Victims Services and the New York State Attorney General’s Office to identify settlements made to convicted persons from where victims can recover money (Son of Sam Law—New York State Executive Law § 632-a). BLA has collected a total of \$240,660 in settlements for victims of crime in Fiscal Year 2015. As of the end of the fiscal year, the Comptroller was withholding \$596,590 pending the outcome of crime victims’ civil actions against the convicted persons’ settlements.

BUREAU OF LABOR LAW

The Bureau of Labor Law (BLL) determines prevailing wage rates and enforces the prevailing wage laws on New York City public works projects and building service contracts. BLL’s statutory authority is contained in Sections 220 and 230 of the New York State Labor Law, which provides that the City’s chief fiscal officer, the Comptroller of The City of New York, shall be the

enforcer of these laws. BLL also determines prevailing wage rates and prosecutes prevailing wage and living wage cases under Section 6-109 of the New York City Administrative Code, and investigates alleged violations of Sections 6-130 and 6-134 of the New York City Administrative Code.

In Fiscal Year 2015, BLL assessed over \$5.5 million in back pay and interest against private contractors that violated the above sections of New York's Labor Law. In addition, BLL assessed \$487,000 in penalty money against those contractors. During the same fiscal year, BLL opened up 89 new cases and resolved 109 cases. In that same time period, BLL debarred nine contractors from New York State and City public works for egregious conduct.

Notable cases settled in Fiscal Year 2015 include:

- BLL recovered over \$1.3 million in unpaid prevailing wages and benefits with interest for 143 armed security guards employed by Allied-Barton Security Services LLC on a New York City Transit Authority contract. Allied-Barton had paid the correct prevailing wage and benefit rates in the first year of its multi-year contract, but failed to incorporate the required increases in the Comptroller's annual prevailing wage schedules. In addition, Allied-Barton paid over \$26,000 to the City treasury on account of the violation.
- BLL recovered over \$325,000 in prevailing wages and benefits for 135 movers employed by Traffic Moving Systems, Inc. in a case that BLL investigated jointly with the Kings County District Attorney's Office. Traffic Moving was charged with overbilling the New York City Department of Citywide Administrative Services on a contract by billing for its employees on an hourly basis at prevailing wage rates, but paying them much less. Traffic Moving and its owner pled guilty to Grand Larceny in the Second Degree and Scheme to Defraud in the First Degree, among other charges, and were barred from bidding on City and State contracts for five years.
- BLL recovered over \$925,000 in unpaid prevailing wages and benefits with interest for 33 ironworkers employed by North American Iron Works, Inc. and over \$46,000 in civil penalties payable to the City treasury. North American performed ironwork at eleven new schools being constructed by the New York City School Construction Authority and on renovations to the Queens Museum for the New York City Department of Design and Construction. North American was a union company that underpaid thirty-three of its non-union employees and left them off of payroll records submitted to the agencies. As part of the settlement, North American Iron Works and its owner were barred from bidding on City and State contracts for five years due to falsification of payroll records.

BLL continues to work on a number of initiatives including: expanded educational outreach to immigrant workers, contractors and City agency officials; the incorporation of new technologies into its operations; streamlined procedures for investigating wage violations and determining prevailing wage and benefit rates, and new procedures for finding workers with unclaimed prevailing wage awards. These initiatives have resulted in more efficient and effective processing of wage claims.

BUREAU OF PUBLIC FINANCE

The Comptroller's Bureau of Public Finance, in conjunction with the Mayor's Office of Management and Budget, is charged with issuing debt to finance the City's capital program and managing the City's portfolio of outstanding bonds. The City borrows for capital projects in accordance with the Office of the Comptroller's Directive 10, which allows for borrowing on projects with a useful life of five years or longer and costing \$35,000 or more. In Fiscal Year 2015, the City and its blended component units New York City Transitional Finance Authority and Sales Tax Asset Receivable Corporation issued \$10.04 billion of long-term bonds to finance the City's capital needs and to refinance outstanding bonds for interest savings; the New York City Tax Lien Trust, NYCTLT 2014-A, sold \$95.48 million bonds to monetize delinquent taxes and other liens. The New York City Municipal Water Finance Authority (Water Authority), a discretely presented component unit, issued \$2.92 billion of long-term bonds to finance the Water Authority's capital plan and to refinance outstanding bonds for interest savings.

With the uncertainty in European markets contributing to an ongoing environment of relatively low interest rates, the City was able to both finance its new money capital needs at attractive rates and refinance outstanding high-coupon bonds to provide economic savings to taxpayers and water and sewer ratepayers. The City issued a total of \$6.59 billion of refunding bonds through the General Obligation (GO), New York City Transitional Finance Authority (TFA), Sales Tax Asset Receivable Corporation (STAR) and Water Authority credits. This accounted for 51% of the total issuance for these credits and generated a total of \$1.54 billion in budgetary savings over the life of the bonds.

The City and its related issuers file required Continuing Disclosure relevant to their respective bondholders with the Municipal Securities Rulemaking Board (MSRB) Electronic Municipal Market Access (EMMA). These disclosures are available at emma.msrb.org.

General Obligation (GO)

New York City GO bonds have been issued for over 200 years and are backed by the City’s faith and credit. All real property subject to taxation by the City is subject to the levy of *ad valorem* taxes, without limitation as to rate or amount, to pay the principal of and interest on GO bonds.

- As of June 30, 2015, the City’s outstanding GO debt totaled \$40.46 billion, consisting of \$33.49 billion of fixed rate bonds and \$6.97 billion of variable rate bonds.
- Of the \$2.83 billion in GO bonds issued by the City in Fiscal Year 2015, a total of \$1.05 billion was issued for new money capital purposes and \$1.78 billion was issued to refund certain outstanding bonds at lower interest rates. In Fiscal Year 2015, the City also converted \$719.85 million of outstanding bonds between interest rate modes.
- The proceeds of the refunding issues were placed in irrevocable escrow accounts to pay, when due, principal, interest, and applicable redemption premium, if any, on the refunded bonds. The refundings produced budgetary savings of \$35.29 million in Fiscal Year 2015 and budgetary savings of \$134.66 million and \$29.17 million in Fiscal Years 2016 and 2017 respectively. The refundings will generate \$278.36 million in budgetary savings over the life of the bonds and approximately \$241.97 million on a net present value basis.
- During Fiscal Year 2015, rating agencies Standard & Poor’s and Fitch Ratings maintained the GO rating at AA. Moody’s Investors Service continued to rate GO bonds Aa2.
- During Fiscal Year 2015, New York City General Obligation variable rate debt traded at the following average interest rates:

	<u>Tax-Exempt</u>	<u>Taxable</u>
Dailies ⁽¹⁾	0.05%	—
Weeklies ⁽¹⁾	0.05%	0.38%
Auction Rate Securities — 7 Day	0.68%	—
Index Floaters	0.71%	0.95%
2-Day Mode ⁽¹⁾	0.05%	—

⁽¹⁾ Remarketed with bank credit and/or liquidity support; rates do not include bank fees.

New York City Transitional Finance Authority (TFA)

Future Tax Secured Bonds

The New York State Legislature created the Transitional Finance Authority in 1997 so the City could continue to fund its capital commitments in the face of an approaching General Obligation debt limit. The TFA, a bankruptcy-remote separate legal entity, was authorized to issue debt secured by the City’s collections of personal income tax and, if necessary, sales tax. TFA is authorized to have \$13.50 billion of Future Tax Secured debt outstanding without limitation. In addition, the law provides that further Future Tax Secured Bonds issued over the \$13.50 billion limit, together with the amount of indebtedness contracted by the City, will not exceed the debt limit of the City. As of July 1, 2015, the debt incurring margin within the debt limit of the City was \$27.76 billion on a combined basis for General Obligation and TFA Future Tax Secured Bonds.

In September 2001, the New York State Legislature approved a special TFA authorization of \$2.5 billion to fund capital and operating costs relating to or arising from the events of September 11, 2001 (Recovery Bonds). The legislature also authorized the TFA to issue debt without limit as to principal amount that would be secured solely by state or federal aid received as a result of the disaster. The TFA has issued \$2 billion in Recovery Bonds. TFA Recovery Bonds do not count against the debt limits described above.

- As of June 30, 2015, the total debt outstanding of TFA Future Tax Secured Bonds was \$26.42 billion, consisting of \$1.29 billion of Senior Bonds and \$25.14 billion Subordinate Bonds, which includes \$936.11 million of Recovery Bonds.
- Of the \$3.68 billion TFA bonds issued in Fiscal Year 2015, a total of \$2.89 billion was issued for new money capital purposes and \$785.80 million was issued to refund certain outstanding bonds at lower interest rates. In Fiscal Year 2015, the TFA also converted \$68.90 million outstanding bonds between interest rate modes. The proceeds of the refundings were placed in irrevocable escrow accounts to pay, when due, principal, interest, and applicable redemption premium, if any, on the refunded bonds. The refundings will generate \$102.91 million in budgetary savings over the life of the bonds and approximately \$96.03 million on a net present value basis.
- As of June 30, 2015, the TFA’s outstanding variable rate debt totaled \$3.95 billion, consisting of \$1.01 billion of Senior Bonds and \$2.94 billion of Subordinate Bonds, which includes \$732.80 million of Recovery Bonds. During Fiscal Year 2015, TFA’s variable rate debt traded at the following average interest rates:

	<u>Tax-Exempt</u>
Dailies ⁽¹⁾	0.07%
Weeklies ⁽¹⁾	0.08%
Auction Rate Securities — 7 Day	0.43%
Index Floaters	0.79%
2-Day Mode ⁽¹⁾	0.05%

- In Fiscal Year 2015, Standard & Poor's and Fitch Ratings maintained AAA ratings on both Senior Lien and Subordinate Lien TFA Bonds. Moody's Investors Service maintained its rating of Aaa on Senior Lien and Aa1 on Subordinate Lien Bonds.

⁽¹⁾ Remarketed with bank credit and/or liquidity support; rates do not include bank fees.

Transitional Finance Authority Building Aid Revenue Bonds (TFA BARBs)

In Fiscal Year 2006, the New York State Legislature authorized the TFA to issue bonds and notes or other obligations in an amount outstanding of up to \$9.40 billion to finance a portion of the City's educational facilities capital plan. The legislation further authorized the City to assign to the TFA all or any portion of the state aid payable to the City or the Department of Education pursuant to Section 3602.6 of the New York State Education Law (State Building Aid) as security for the obligations. Pursuant to this authority, the TFA BARBs credit was created. TFA BARBs are not secured by personal income tax or sales tax revenues and do not count against the TFA Future Tax Secured Bond debt limits.

- TFA had two BARB financings in Fiscal Year 2015, totaling \$1.5 billion. Both were new money issues to fund capital needs. As of June 30, 2015, the TFA BARBs outstanding totaled \$7.4 billion, all of which is fixed rate.
- After being upgraded in Fiscal Year 2014, both Fitch Ratings and Moody's Investor Services maintained their ratings of AA and Aa2 respectively throughout Fiscal Year 2015. Standard & Poor's also maintained its long term AA- rating of BARBs.

TSASC, Inc.

TSASC, Inc. is a special purpose, bankruptcy-remote local development corporation created under the Not-for-Profit Corporation Law of the State of New York. TSASC was created as a financing entity whose purpose is to issue and sell bonds and notes to fund a portion of the City's capital program. TSASC issued debt secured by tobacco settlement revenues (TSRs), which are paid by cigarette companies as part of a Master Settlement Agreement (MSA) with 46 states, including the State of New York, and other U.S. Territories.

- TSASC had no financing activity in Fiscal Year 2015. As of June 30, 2015, TSASC had approximately \$1.22 billion of bonds outstanding.
- TSASC bond ratings vary by maturity. As of June 30, 2015, Standard and Poor's rated TSASC bonds maturing June 1, 2022 at BBB-; June 1, 2026 at BB-; June 1, 2034 at B and June 1, 2042 at B-. Fitch rated TSASC bonds maturing on June 1, 2022 at BBB-; June 1, 2026 at BB-. Fitch rated bonds maturing on June 1, 2034 and 2042 at B.

Sales Tax Asset Receivable Corporation (STAR)

STAR is a local development corporation that was created in 2004 by the City to issue bonds for the payment of the outstanding bonds of the Municipal Assistance Corporation of the City of New York ("MAC") and the outstanding bonds of the City held by MAC. STAR bonds are secured by \$170 million paid annually through June 30, 2034 to the Corporation from the New York State Local Government Assistance Corporation. The Corporation issued \$2.5 billion of bonds on November 4, 2004.

- In Fiscal Year 2015 STAR refinanced the remaining \$2.04 billion of bonds from the original 2004 bond sale. As of June 30, 2015, STAR had \$2.04 billion of debt outstanding. The refinancing will provide over \$649 million in budget savings over the life of the bonds.
- After being upgraded in Fiscal Year 2014, STAR maintained its Aa1 rating from Moody's Investor Services and AA+ from Fitch Ratings throughout Fiscal 2015. Standard & Poor's also maintained its longstanding AAA rating.

Fiscal Year 2005 Securitization Corporation (FSC)

FSC is a local development corporation created by the City to issue bonds in order to facilitate the restructuring of an escrow account used to pay debt service on refunded City bonds. In Fiscal Year 2005, \$498.85 million of taxable bonds were issued and are secured by a portfolio of securities previously funded with General Obligation bond proceeds.

- FSC had no financing activity in Fiscal Year 2015. As of June 30, 2015, FSC had \$197.38 million of debt outstanding.
- As of June 30, 2015, the bonds were rated AA+ by Standard and Poor's, Aaa by Moody's Investor Services and AAA by Fitch Ratings.

Hudson Yards Infrastructure Corporation (HYIC)

HYIC is a local development corporation established by the City in 2005 to provide financing for infrastructure improvements to promote economic development and growth on Manhattan's far West Side, including the extension of the No. 7 subway line. The Hudson Yards Financing District is an approximately 45 square block area generally bounded by Seventh and Eighth Avenues on the east, West 43rd Street on the north, Eleventh and Twelfth Avenues on the west, and West 29th and 30th Streets on the south. Principal on HYIC bonds is payable from revenues generated by the new development in the Hudson Yards District. To the extent that such revenues are not sufficient to cover interest payments, the City has agreed, subject to appropriation, to make interest support payments to HYIC. The interest support payments do not cover principal repayment of the bonds.

- HYIC had no financings in Fiscal Year 2015. As of June 30, 2015, HYIC had \$3 billion bonds outstanding.
- The bonds are rated A by Standard & Poor's, A2 by Moody's Investors Service, and A by Fitch.

New York City Educational Construction Fund (ECF)

ECF is a public benefit corporation established to facilitate the construction of new school facilities and improvements to existing City elementary and secondary school buildings, thereby increasing the number of seats for the New York City Department of Education. ECF also encourages comprehensive neighborhood development by enabling mixed-use real estate projects which feature new school facilities. The City is required to make rental payments on the school portions of the ECF projects sufficient to make debt service payments as they come due on ECF Bonds, less the revenue received by the ECF from the non-school portions of the ECF projects.

- ECF had no financings in Fiscal Year 2015. As of June 30, 2015, ECF had \$264.19 million bonds outstanding.
- The bonds are rated AA- by Standard & Poor's and Aa3 by Moody's Investors Service.

New York City Tax Lien Trusts

The New York City Tax Lien Trusts (NYCTLTs) are Delaware statutory trusts which were created to acquire certain liens securing unpaid real estate taxes, water rents, sewer surcharges, and other payables to the City and the New York City Water Board in exchange for the proceeds from bonds issued by the NYCTLTs, net of reserves funded by the bond proceeds and bond issuance costs. The City is the sole beneficiary of the NYCTLTs and is entitled to receive distributions from the NYCTLTs after payments to the bondholders and certain reserve requirements have been satisfied.

- In Fiscal Year 2015, the New York City Tax Lien Trust, NYCTLT 2014-A, sold \$95.48 million bonds.
- As of June 30, 2015, the New York City Tax Lien Trusts had \$34.23 million in bonds outstanding.
- The bonds are rated AAA by Standard & Poor's and Aaa by Moody's Investors Service.

New York City Municipal Water Finance Authority

The New York City Municipal Water Finance Authority (Water Authority), a bankruptcy-remote separate legal entity established in Fiscal Year 1986, has the power to issue bonds to finance the renovation and improvement of the City's water and sewer facilities. The Water Authority, together with the New York City Water Board (Water Board) and the New York City Department of Environmental Protection (DEP), administers the City's water and wastewater system. DEP operates and maintains the system, while the Water Board has the primary responsibility to levy and collect water and wastewater rates and charges, and the Water Authority finances the systems' capital needs.

- As of June 30, 2015, the amount of long-term, fixed rate Water Authority debt outstanding was \$24.30 billion including \$2.50 billion of First Resolution and \$21.80 billion Second Resolution bonds.
- During Fiscal Year 2015, the Water Authority issued \$2.92 billion in revenue bonds. Of this total, \$936.14 million was issued for new money capital purposes and \$1.99 billion was issued to refund outstanding bonds for interest savings. Additionally, the Water Authority issued \$256.22 million in bond anticipation notes.
- The proceeds of the refunding issues were placed in irrevocable escrow accounts to pay, when due, principal, interest, and applicable redemption premium, if any, on the refunded bonds. The refundings will generate \$512.59 million of savings for rate payers over the life of the bonds and \$344.66 million in net present value savings.

- Of the total FY 2015 issuance, approximately \$2.52 billion Water Authority bonds were issued as fixed rate debt and \$400 million were issued as variable rate debt. The Water Authority issued all its debt as Second Resolution bonds.
- As of June 30, 2015, the amount of outstanding Water Authority variable rate debt outstanding was \$4.69 billion of which \$1.55 billion was First Resolution and \$3.14 billion Second Resolution. This does not include commercial paper. During Fiscal Year 2015, interest on the Water Authority's variable rate debt traded at the following average interest rates:

	<u>Tax-Exempt</u>
Dailies ⁽¹⁾	0.04%
Weeklies ⁽¹⁾	0.04%

- The Water Authority also maintained its tax-exempt commercial paper program, enabling it to access the short-term market at advantageous interest rates. The Water Authority's commercial paper authorization remained at \$600 million in Fiscal Year 2015. At the end of Fiscal Year 2015, the Water Authority had \$600 million of commercial paper outstanding.
- During Fiscal Year 2015, Standard & Poor's, Fitch, and Moody's Investors Service maintained their ratings for the Water Authority's First Resolution bonds at AAA, AA+ and Aa1 respectively. Bonds issued under the Water Authority's Second Resolution were rated AA+ by Standard & Poor's and Fitch, and Aa2 by Moody's Investors Service.

⁽¹⁾ Remarketed with bank credit and/or liquidity support; rates do not include bank fees.

Interest Rate Exchange Agreements

To lower borrowing costs over the life of its bonds and to diversify its existing portfolio, the City has from time to time entered into interest rate exchange agreements (swaps) and sold options to enter into swaps at future dates. The City received specific authorization to enter into such agreements under Section 54.90 of the New York State Local Finance Law. No new swaps were initiated in Fiscal Year 2015. As of June 30, 2015, the outstanding notional amount on the City's swap agreements in connection with General Obligation debt and City-related debt of the Dormitory Authority of the State of New York was \$1.76 billion.

The Water Authority has also entered into interest rate exchange agreements. In Fiscal Year 2015, the Authority did not initiate or alter any swaps. As of June 30, 2015, the outstanding notional amount on the Water Authority's various swap agreements was \$401 million.

BUREAU OF ASSET MANAGEMENT

Investment Policy

City Treasury

The Comptroller's Office invests the City's cash reserves subject to conservative investment guidelines. City Treasury and fiduciary funds assets were invested in obligations of the U.S. Treasury, various federal agencies, high grade commercial paper, and medium term notes. The maturities of the investments range from one day to five years with an average of 335 days. Despite the Federal Reserve Bank maintaining a very low interest rate environment, the City earned an average of 0.45%, which compares with the average return of 0.01% on three month Treasury bills, and 0.18% for a representative institutional money market fund index. The City earned \$78 million in its short-term accounts during Fiscal Year 2015.

Pension Funds

The Comptroller's Office serves as the financial advisor to the City's pension funds. The City's primary pension funds are New York City Employees' Retirement System (NYCERS), Teachers' Retirement System of The City of New York (TRS), New York City Police Pension Fund, New York City Fire Pension Fund, and the New York City Board of Education Retirement System (BERS). The City pension funds paid benefits totaling \$13.4 billion during Fiscal Year 2015. Employer and employee contributions to the City pension funds were \$10.0 billion and \$1.8 billion, respectively. As of June 30, 2015, the City pension funds had aggregate investment assets, excluding cash from the settlement of pending purchases and sales, of \$162.9 billion representing an increase of \$2.4 billion from the June 30, 2014 value of \$160.6 billion. During the fiscal year, the market value of the assets ranged from a low of \$158.7 billion to a high of \$165.5 billion. These assets include funds invested by certain employee investment plans.

Assets are managed in accordance with investment policy statements adopted periodically by each of the City pension funds' Board of Trustees in consultation with the Comptroller's Office and the City pension funds' independent consultants. The allocation to each asset class is based in part on an analytical study indicating the expected rates of return and levels of risk and correlations for various asset allocations. The policy mix ranges from 63% equity to 70% equity among funds, and each fund permits the mix to float within a narrow range to limit portfolio turnover and to accommodate tactical shifts.

Collectively as of June 2015, the City pension funds utilize 28 domestic equity managers, 15 international equity managers, 14 hedge funds managers, 38 fixed income managers, 13 opportunistic fixed income managers, 117 private equity managers, 45 private real estate managers, 4 infrastructure managers and 6 real estate equity securities managers. The City pension funds’ assets are invested for the benefit of the plan participants and their beneficiaries. With the exception of certain private equity, real estate, infrastructure and opportunistic fixed income investments where registration is not required, all Fund assets are managed by registered investment advisors pursuant to guidelines issued by the Comptroller’s Office.

The chart below summarizes the City’s pension funds’ asset allocation (in millions) as of June 30, 2015.

U.S. Equity

For the Fiscal Year 2015, the broad U.S. equity market, as measured by the Russell 3000 Index, returned 7.29% as compared to 25.22% for Fiscal Year 2014. The total U.S. equity return for the City’s pension funds for Fiscal Year 2015 was 6.80% as compared to 25.28% for Fiscal Year 2014. Overall, approximately 15.7% of the City pension funds invested in U.S. equity are actively managed versus 84.3% passively managed by index managers, which compares to 17.75% and 82.25%, respectively during Fiscal Year 2014. The returns of the U.S. Equity market during Fiscal Year 2015 occurred as the U.S. economy continued to grow with low interest rates. In the broader economy the continued uptrend in the leading economic indicators, low unemployment rates, and subdued inflation supported the market.

Two of the five New York City pension funds have allocations to Real Estate Investment Trusts (REITs) and another invests in REITs to temporarily invest a portion of its Real Assets’ unfunded commitments. The City pension funds’ REITs returned 6.0% for Fiscal Year 2015 compared to 14.8% for Fiscal Year 2014. The one year returns for the program benchmark, DJ US Select Real Estate Securities Index, for Fiscal Years 2015 and 2014 were 5.3% and 13.3%, respectively.

International Equity

The City’s pension funds’ total international equity returned -5.44% for Fiscal Year 2015 as compared to 20.36% for Fiscal Year 2014. For Fiscal Year 2015, the Morgan Stanley Capital International Europe/Asia/Far East (MSCI EAFE) Index returned -4.22% as compared to 23.57% for Fiscal Year 2014. The City’s developed markets managers returned -3.10% for Fiscal Year 2015 as compared to 23.09% for Fiscal Year 2014. At the end of Fiscal Year 2015, EAFE and emerging markets assets as a percent of total fund assets were 10.05% and 7.0%, respectively, versus 10.2% and 7.0% in Fiscal Year 2014.

For the Fiscal Year 2015, the MSCI Emerging Markets Index returned -5.12% as compared to 14.31% for Fiscal Year 2014. The City’s emerging markets managers returned -9.11% for Fiscal Year 2015 as compared to 16.62% for Fiscal Year 2014.

International markets had negative returns because of a combination of factors, including the strong dollar, weak commodities markets and concern about Greece.

Fixed Income

As of June 30, 2015, the Fixed Income program represented 28.8% of the City pension funds' assets with a market value of \$46.96 billion across the systems. The Citigroup Core+5 Investment Grade Index returned 2.08% for Fiscal Year 2015 while the Barclays Aggregate Index returned 1.86%. The total overall U.S. fixed income return for Fiscal Year 2015 was 1.45% as compared to 7.79% in Fiscal Year 2014. Investment grade bonds saw positive returns for the fiscal year: 1.04% for the Citigroup Investment Grade Credit Index, 2.35% for the Citigroup Mortgage Index, and 4.13% for the Citigroup Treasury/Agency +5 Index. Treasury Inflation-Protected Securities (TIPS) saw negative returns, returning -1.73% for the fiscal year as measured by the Barclays Capital U.S. TIPS Index. For Fiscal Year 2015, the high yield sector as measured by the Citigroup BB/B Index returned 0.28% and convertible bonds sector returned 3.37% as measured by the Bank of America All U.S. Convertibles ex-Mandatory Index. The Bank Loan sector returned 2.15% as measured by the Credit Suisse US Leveraged Loan Index.

Opportunistic Fixed Income

As of June 30, 2015, the Opportunistic Fixed Income program comprised \$3.8 billion in assets under management, with total commitments of \$5.1 billion. In FY 2015, New York City's pension funds committed \$250 million to new Opportunistic Fixed Income mandates. These flexible mandates seek to profit from investing in long-biased, alternative credit-oriented strategies, such as distressed debt, non-performing loans, direct lending, commercial real estate debt, commercial mortgage-backed securities (CMBS), residential mortgage-backed securities (RMBS), collateralized loan obligations (CLOs) and other private and public credit-related exposures in domestic and global markets. Opportunistic Fixed Income partnerships are generally structured to give investment managers the flexibility to take advantage of opportunities as they arise across the aforementioned strategies.

Net of fees, the program returned 0.01% in FY 2015, compared to its primary benchmark, (net) 10%, and its secondary benchmark, the JPMorgan Global High Yield Index plus 3%, which produced 2.19%. Since its inception, the program returned (net) 9.34 percent.

Private Equity

As of June 30, 2015, the private equity program (the Program) represented 6.1% of the City pension funds' assets with a market value of \$10.0 billion (cash flow adjusted) and unfunded capital commitments of \$6.3 billion, resulting in a total exposure of \$16.3 billion across 202 funds/117 managers. The Program generated a 6.7% Internal Rate of Return (IRR) for Fiscal Year 2015, and a 9.5% IRR for the 10 years ending June 30, 2015. This compares to IRRs of 15.1% and 10.3% for the fiscal year and 10-year period ending June 30, 2014, respectively. The private equity portfolio remains diversified, based on total exposure (cash flow adjusted), with 57% allocated to buyouts, 12% growth equity, 10% secondaries, 7% special situations, 3% co-investment, 3% energy, and 8% other, which includes venture capital, mezzanine, and funds-of-funds. The City pension funds received distributions of \$2.4 billion and funded \$1.9 billion for new and existing investments during Fiscal Year 2015 as compared to \$2.0 billion and \$1.7 billion in Fiscal Year 2014, respectively.

During Fiscal Year 2015, City pension funds made \$1.5 billion of new commitments to 13 funds across 12 managers versus \$1.2 billion to 7 funds across 5 managers during the prior fiscal year. This includes the City pension funds' \$425 million in-house Private Equity Emerging Manager Program (EM 2012) which committed \$184 million to six funds during Fiscal Year 2015. Overall, the Program continues to strategically seek investment opportunities across most sub-asset classes with an aim to increase investment pacing.

The private equity industry today is characterized by significant liquidity amidst a robust fundraising environment. Although deal activity is slowing, as managers facing increased competition seek to avoid overpriced deals, exit activity continues to be strong, fueled by rising public and private company valuations. Top performing managers are experiencing high demand for their funds as investors recycle their distributions and largely maintain or increase their allocations to private equity.

Real Estate

As of June 30, 2015, the Real Estate Program (RE Program) had approximately \$9.5 billion in commitments to 68 investments and 45 managers. This compares to \$8.7 billion in commitments at the end of Fiscal Year 2014. During Fiscal Year 2015, the City's pension funds made \$1.2 billion of new commitments (including co-investments) to seven funds versus \$1.4 billion to six funds in the prior fiscal year.

The City's pension funds invest in real estate primarily through commingled funds and these new additions enhance the diversification of this global portfolio by geography, property type, investment strategy, vintage and manager. Four of the seven investments represent an additional deployment of capital to proven investment partners which enable the City to expand its relationships with managers that deliver solid performance over cycles. Two of the new investments are with talented, small and emerging firms that demonstrate best-in-class capabilities.

As of June 30, 2015, the RE Program represents 5.0% of the City's pension funds' assets. The City's pension funds \$3.7 billion of net invested capital in real estate programs had a market value of \$6.0 billion based on general partner estimates at June 30, 2015 and unfunded capital commitments of \$2.1 billion. The portfolio is well diversified by geographic region and property type with allocations to all the major sectors including residential (23.8%), office (27.2%), industrial (9.8%), retail (15.5%), hotel (9.2%), and other (14.6%).

Bolstered by liquid markets, the low cost of capital and increasing demand for space, the U.S. real estate recovery has reached an expansionary stage in prime markets. Abroad, well capitalized real estate investors take advantage of deep distress caused by macroeconomic, regulatory and capital market pressures. The portfolio generated a one-year net return of 14.1% time weighted return compared to its benchmark (NFI-ODCE +100 basis points) of 14.5%. Since inception, the net IRR increased from 6.7% to 7.8% year over year from June 30, 2014 to June 30, 2015. Mindful of vintage risk and pockets of peak pricing surfacing in certain gateway real estate markets, the RE Program will continue to selectively identify opportunities that will complement the existing portfolio.

Hedge Funds

Three of the five New York City pension funds invest in hedge funds, and they continued to build out their hedge fund portfolio in Fiscal Year 2015. The City pension funds continue to increase their investments in direct hedge funds which are now 90% of the portfolio. The remainder of the portfolio is held in a fund of funds structure.

The total hedge fund return for the City pension funds for the fiscal year ended June 30, 2015 was 3.89% net of all fees. The return for the two hedge fund benchmarks, 1 Year T-Bills +4% and Hedge Fund Research Inc+1% (HFRI) Fund of Hedge funds index, were 4.32% and 4.95% respectively.

Infrastructure

As of June 30, 2015, the Infrastructure Program had \$1.0 billion in commitments to four funds and managers. The Infrastructure Program seeks to gain exposure to capital-intensive assets that underpin the global economy. These assets typically have a low volatility return profile with a high percentage of returns coming in the form of current yield. Targeted investments within the Infrastructure Program seek to lower correlation with public equities and fixed income and to hedge against inflation.

Proxy Voting

During Fiscal Year 2015, the Comptroller's Office voted on 31,005 individual ballot items at 3,721 annual and special meetings for portfolio companies. Of all votes cast, 78.7% were for the management-recommended vote. Major proxy voting issues included: (a) the election of directors, (b) management proposals to ratify auditors, approve executive compensation, and approve mergers and acquisitions, and (c) shareowner proposals on a wide range of environmental, social and governance (ESG) policies and practices.

In accordance with proxy voting guidelines adopted by the City pension funds, the Comptroller's Office generally votes in favor of proposals to strengthen board of director independence and accountability, align executive pay with long-term performance, and promote sustainable and responsible business practices. During Fiscal Year 2015, these included, but were not limited to, shareowner proposals calling on companies to name an independent board chairman, eliminate accelerated vesting of equity awards for departing executives, adopt a board diversity policy, adopt and disclose greenhouse gas emissions goals, conduct a human rights risk assessment, prepare a sustainability report, and disclose corporate political and lobbying spending.

Shareowner Initiatives

In addition to proxy voting, the City pension funds also seek to protect and create long-term shareowner value by proactively advancing reforms to strengthen corporate governance, align executive pay with long-term performance and promote sustainable business practices at portfolio companies. The City pension funds are among the most active institutional investors in the nation in terms of filing shareowner proposals and also engage with portfolio companies through letters and dialogue, often in collaboration with other institutional investors.

During Fiscal Year 2015, the Comptroller's Office, on behalf of the City pension funds, submitted 90 shareowner proposals to a total of 86 portfolio companies, nearly double the number of proposals submitted the prior fiscal year. Seven of the 90 proposals remained pending at fiscal year-end because the companies had neither agreed to adopt the requested reform nor held their annual shareowner meeting at which investors vote. In addition, four proposals went to a vote during Fiscal Year 2015 that had been submitted by the City pension funds during Fiscal Year 2014.

The dramatic increase in proposal volume in Fiscal Year 2015 reflected the launch of the Boardroom Accountability Project, an ambitious initiative led by the City pension funds to make boards of directors at U.S. public companies more diverse, independent, and accountable by promoting a fundamental governance reform called “proxy access.” Proxy access would give investors a meaningful voice in director elections by requiring companies to include shareowner-nominated director candidates in the company proxy materials, and on the company ballot, that is furnished to all shareowners. At present, only director candidates nominated by the incumbent board are permitted on the company ballot at virtually all U.S. public companies.

As a major first step, in October 2014 the Comptroller’s Office, on behalf of the City pension funds, submitted shareowner proposals to 75 companies requesting a proxy access bylaw permitting shareowners that have collectively held 3% of the company for three years to nominate up to 25% of the board using the company’s proxy materials. These terms are based on the Securities and Exchange Commission rule adopted in 2010 that established proxy access at all U.S. public companies, but that was later vacated by a federal court on procedural grounds.

The 75 companies were selected based on three fundamental investment concerns: excessive CEO pay, inadequate board diversity, and climate change. Specifically, they included companies that failed to align executive compensation with business performance, companies with little or no apparent gender or racial diversity on their board, and carbon-intensive energy companies that are among the most vulnerable to long-term business risks related to climate change.

The Comptroller’s Office worked closely with other institutional investors, some of whom also filed proxy access proposals, to build investor support for proxy access and to develop a coordinated response to companies that attempted to exclude the proposals from their proxy statements. The California Public Employees’ Retirement System in particular provided substantial support, conducting joint solicitations with the Comptroller’s Office in support of the proposals and attending company annual meetings to present the City pension funds’ proposals.

The Boardroom Accountability Project achieved considerable success and had far reaching impact in its first year:

- Six of the 75 companies responded by agreeing to adopt a meaningful proxy access bylaw, prompting withdrawal of the shareowner proposal. The companies included Abercrombie & Fitch Co., Big Lots, Inc., Splunk, Inc., Staples, Inc., United Therapeutics Corporation, and Whiting Petroleum.
- Sixty-three of the 75 proposals went to a vote during Fiscal Year 2015, receiving very strong investor support averaging 55%. About two-thirds of the resolutions, or 41 of the total 63 voted as of June 30, 2015, garnered over 50% support from shareowners and passed.
- The average vote among winning proposals was 63%. The highest votes were at Apache Corp. (92.7%), where the board recommended in favor of the proposal, and Republic Services (89.9%), where the board did not take a position.
- More than half of the 41 companies at which the proposal passed are energy firms, including Anadarko Petroleum Corporation, Chevron Corporation, ConocoPhillips, Duke Energy Corporation, Freeport-McMoRan Copper & Gold Inc., Hess Corporation, Marathon Oil Corporation and Occidental Petroleum Corporation, among others.
- The proposal also received majority support at Alliance Data Systems Corporation, AvalonBay Communities Inc., Avon Products Inc., eBay Inc., Equity Residential, Hasbro Inc., Netflix Inc. and Priceline Group, among others.
- An additional 11 proposals garnered near-majority support, including a 49.9% vote at Chipotle Mexican Grill, Inc. and 49.4% votes at both Exxon Mobil Corporation and Pioneer Natural Resources Co.
- The Comptroller’s Office expects most of the companies at which the proposal passed, and some of the companies at which it received near-majority support despite management’s opposition, to enact proxy access bylaws consistent with the terms of the proposal. The companies are not required to enact the requested bylaw, however, as the proposals are not legally binding.
- In July 2015, economic researchers at the SEC released a study that looked at the Boardroom Accountability Project and found a 0.5% increase in shareowner value at the targeted firms. The findings, which are consistent with a 2014 CFA Institute study that found that proxy access on a market-wide basis has the potential to raise U.S. market capitalization by as much as 1%, underscore the importance of the Project for investors in general, and for the City pension funds in particular.
- The Boardroom Accountability Project has been recognized as an extraordinary success by investors, companies and their respective advisors, and is generally credited with shifting the landscape on a fundamental shareowner right that investors have been seeking since the collapse of Enron in 2002.

In addition to proxy access, the City pension funds also submitted shareowner proposals for Fiscal Year 2015 annual meetings requesting that companies adopt or strengthen “clawback” policies that authorize the board to recover compensation from

executives whose improper conduct causes financial or reputational harm to the company; eliminate dual class stock; disclose corporate political spending; and disclose data on the race and gender of their workforce across major job categories, including senior management.

- Among the more significant outcomes, a first-time proposal requesting that JPMorgan Chase & Co. disclose annually whether it clawed back any incentive compensation from any senior executive during the prior year received a 44% vote and a proposal seeking disclosure of corporate political spending received 45% support at both Cabot Oil & Gas Corporation and PPL Corporation.

Additional information on the City pension funds' shareowner initiatives, including a comprehensive list of Fiscal Year 2015 shareowner proposals, is included in the Postseason Report available on the Comptroller's website.

BUREAU OF CONTRACT ADMINISTRATION

The Bureau of Contract Administration (BCA) fulfills the Comptroller's Charter-mandated role of registering all contracts and agreements for goods, services and construction executed pursuant to the Charter, including all agreements memorializing the terms of franchises, revocable consents or concessions that are paid out of the City Treasury or paid out of money under the control of the City. The New York City Charter requires registration of all applicable contract actions before they are legally implemented and the Comptroller has 30 calendar days from the date a contract action is fully submitted by the respective agency to register or object to the registration of the contract. The process is designed to ensure that sufficient funds exist to make payments for that contract, that all appropriate certifications and documentation have been obtained and collected, that the contractor is not debarred or involved in corrupt activity, and that there was no corruption in the letting of the contract. Contracts for the provision of goods, services or construction that are not to be paid for out of the City Treasury or out of moneys under the control of the City do not have to be registered by the Comptroller, and emergency procurements may be registered after the contract commences, rather than before.

Contracts are reviewed by BCA through the Comptroller's optical image and workflow application known as the Omnibus Automated Image Storage and Information System ("OAISIS"). In Fiscal Year 2015, BCA received over 20,600 contract actions for registration. Of those, approximately 91% were ultimately registered while around 9% were returned to or withdrawn by the submitting agency.

In addition to its Charter-mandated registration function, the Bureau also satisfies the Comptroller's obligation under the New York City Administrative Code to publish a summary report no later than January 30th following the close of each fiscal year. This report includes certain data for registered franchises, concessions and contracts for goods or services including, but not limited to, contract type, award method and aggregate dollar values of registered contract actions. The data that forms the basis of this report is generated from a computerized database jointly maintained by the Comptroller and the Mayor and contains detailed information on contracts, agreements, franchises and concessions reflecting the City's financial commitment assumed through registered agreements. The Annual Report on Contracts for Fiscal Year 2015 will be released by January 30, 2016.

While most of the work performed by the Bureau is with parties outside of the Comptroller's Office, the Bureau also works closely with other divisions within the Office on a host of intra-agency initiatives as well as on ways to identify, leverage and successfully implement new technologies and methods to ensure continued efficiency within BCA.

BUREAU OF ECONOMIC DEVELOPMENT

The Bureau of Economic Development leverages the authority and responsibilities of the Office of the Comptroller to create new and sustainable opportunities for the economic growth and development of The City of New York and its people. The Bureau's mission includes diligently executing the Comptroller's statutory obligation to oversee City agencies and related entities that are responsible for economic development, conducting rigorous economic research that will form the basis of future economic development policy, and actively managing and making investment recommendations to the New York City Retirement Systems (NYCRS) for its Economically Targeted Investment (ETI) program.

Economically Targeted Investments are prudent investments that provide risk-adjusted market rates-of-return to NYCRS. ETIs seek to fill capital gaps and provide collateral benefits, such as affordable housing and job creation, to the geographic target area. The geographic target area includes the five boroughs of the City and the six New York State counties in close proximity to New York City where City employees are permitted to live (Nassau, Orange, Putnam, Rockland, Suffolk and Westchester counties). NYCRS have successfully invested in ETIs since 1981. ETIs have an allocation of 2% of the total assets of NYCRS. The market value of the ETI Program at the end of Fiscal Year 2015 is \$1.55 billion (1.0% of total assets) with an additional \$429.4 million committed to specific ETI investments. In addition, the Real Assets ETI investments have a market value of \$368.6 million, and together with the other ETI investments and commitments constitute 1.5% of total assets.

As of June 30, 2015, the ten-year overall performance of ETIs was 5.88% net of fees as compared to the benchmark performance of 4.44% (Barclays Capital U.S. Aggregate Bond Index).

During Fiscal Year 2015, the ETI program made cumulative investments of \$153.9 million in individual multifamily projects through its Public/Private Apartment Rehabilitation (PPAR) program. These investments financed the rehabilitation or new construction of 2,454 units of affordable housing. The PPAR program also issued additional commitments for \$153.3 million for new loans financing 2,764 units during Fiscal Year 2015. NYCERS's commitments to provide permanent financing insures that construction will go forward on these projects. Since the inception of the PPAR program in 1982, more than \$1 billion has been invested.

NYCERS maintained their investment in the AFL-CIO Housing Investment Trust (HIT). The June 30, 2015 cumulative market value of HIT investments is \$629 million. Since 2002, the HIT has invested over \$997 million to preserve over 31,200 units of the geographic target area's affordable housing stock, which generated jobs and provided for the long-term affordability of the units.

Access Capital Strategies (Access), a division of the Royal Bank of Canada, invests in mortgage-backed securities comprised of loans issued to single family homeowners making up to 200% of the Area Medium Income. All loans are screened for compliance with anti-predatory lending practices. Access Investments can also include securities backed by first mortgage loans issued to developers of multifamily rental housing, and other types of community development loans in New York City. As of June 30, 2015, Access invested \$536 million for 1,765 single family units, 33,390 multifamily units, including Mitchell-Lama buildings, and 17 small business loans.

NYCERS committed a combined \$155 million in a separate account managed by Emmes Asset Management Company LLC (Emmes). The Emmes ETI Real Estate equity fund invests in a variety of real property sectors including revitalized multifamily housing and commercial retail and office space in low- and moderate- income neighborhoods in the five boroughs. As of June 30, 2015, Emmes invested \$112.2 million creating or preserving over 276,000 square feet of commercial space and 63 units of affordable housing. On July 1, 2015, Emmes was reorganized and renamed to Vanborton Group LLC (Vanborton). In addition to the Vanborton investment, NYCERS has committed \$500 million to rehabilitating and creating work-force housing as part of the City's response to Superstorm Sandy.

In Fiscal Year 2014, NYCERS successfully exited from the \$75 million Community Preservation Corporation Term Loan (Term Loan) investment. The Term Loan included short-term construction loans originated by the Community Preservation Corporation through their construction loan facility. The construction loans were for housing and commercial spaces in low- and moderate-income City neighborhoods, generating jobs and promoting neighborhood revitalization. NYCERS announced in August 2014 that they committed to a \$40 investment in the new facility. As of the end of the fiscal year, CPC has \$14.8 million outstanding from the facility.

NYCERS continually seek proposals for new ETI investments. The ETI Request for Proposal (RFP) is available on the Comptroller's website and investment proposals may be submitted for any approved asset class, including real estate and private equity.

BUREAU OF AUDIT

The City Charter requires that the Comptroller's Office perform an audit of some aspect of every City agency at least once every four years. The City Charter also requires that these audits be conducted in accordance with generally accepted government auditing standards (GAGAS) promulgated by the Comptroller General of the United States.

In Fiscal Year 2015, the Bureau of Audit issued 80 audits and special reports. Many of these audits focused on the effectiveness and service quality of City programs. Others focused on financial issues, identifying approximately \$363.5 million in actual and potential revenue and savings. However, actual and potential revenue and savings could reach \$616.5 million if all recommendations are implemented and the Federal government offers the City the same or similar incentives and subsidies offered during the time under audit review. Reviews of claims filed against the City identified another \$203,000 in potential cost avoidance.

Below is a brief synopsis of some of the audits that had a significant impact on City finances and quality of service delivery.

Revenue and Cost Savings

- The Bureau performed an audit on efforts by the New York City Housing Authority (NYCHA) to maximize Federal funding, enhance revenue, and achieve cost savings. The audit found that NYCHA failed to meet its goals to obtain much needed funding and implement cost savings and revenue enhancement initiatives. As a result, it repeatedly failed to achieve the revenue projections and cost savings it presented to the public, the City, and the U.S. Department of Housing and Urban Development (HUD). NYCHA's failure to meet its funding and savings goals and the consequent inaccuracies in its budget estimates have hindered its ability to operate and to effectively budget and plan for its operations. In total, the audit estimated that NYCHA has forgone incentives and subsidies totaling \$692 million (Energy Performance Contracting funding of \$353 million, Section 8 funding of \$263.1 million, and operating subsidy

of \$75.9 million). Additionally, NYCHA did not document and track whether joint NYCHA/Boston Consulting Group (BCG)-identified cost savings and revenues of \$106 million were realized. Therefore, the audit could not assess the extent to which any of the BCG report recommendations were implemented or the extent to which there were any resulting cost savings and revenues.

- An audit was conducted on the Department of Housing Preservation and Development's (HPD) procedures for the verification of Section 8 Housing Choice Voucher Program Participant-Reported Information. Through Section 8, HPD subsidizes the rent for qualified low-income families. During Fiscal Year 2013, HPD received approximately \$423 million in Section 8 subsidies from the federal government through HUD. The audit determined whether procedures were sufficient during the annual recertification process to meet HUD's program requirements. Auditors looked at additional sources of asset, income and family composition data and matched it against all HPD Section 8 participants as of July 1, 2013, to determine if there were participants who may have omitted information during recertification. Based on data matches, the audit identified discrepancies in records potentially related to 829 Section 8 participants. The information related to participants' assets and income was not in HPD's database and may have affected the participants' entitlement to benefits. To maintain program integrity, HPD should consider implementing procedures to ensure that it considers all available information related to Section 8 eligibility during recertification. Using this technique, the auditors identified \$26 million in rental assistance that should not have been paid to the residents.

The auditors conducted a similar audit of NYCHA's Section 8 verification procedures. During Calendar Year 2013, NYCHA received \$1.037 billion in subsidies from the Federal government through HUD for the operation of the Section 8 program in its housing. Through annual recertification, NYCHA is required to determine that participants continue to be eligible and recalculate the current amounts of the subsidies to which they are entitled. The audit looked at additional sources of assets, income and family composition data and matched it against all NYCHA Section 8 participants to determine if there were participants who may have omitted information during recertification. Based on data matches, the audit identified discrepancies in records potentially related to 2,041 participants. The information was not considered during recertification, and may have affected the participants' entitlement to benefits. To maintain program integrity, NYCHA should consider implementing procedures to ensure it considers all available information related to Section 8 eligibility during recertification. Using this technique, the auditors identified as much as \$42 million in rental assistance that should not have been paid to the residents.

- The New York City Department of Environmental Protection (DEP) is responsible for the management and conservation of the City's water supply, transmission, and distribution systems and wastewater collection and treatment, and for overseeing capital construction programs for such systems. DEP distributes more than one billion gallons of clean drinking water each day to nine million residents and collects and treats wastewater to protect the City's environment and harbor. DEP's capital construction program, one of the City's largest, includes complex multi-billion dollar projects, such as the Croton Water Filtration Plant, City Water Tunnel No. 3, and the upgrade of the Newtown Creek Wastewater Treatment Plant.

An audit was conducted to determine whether DEP made accurate and appropriate payments to professional service contractors, ensured compliance with the terms of its contracts and applicable City payment requirements, and complied with City requirements for procurement including the Procurement Policy Board Rules (PPB Rules) and applicable Comptroller's Directives. The audit concluded that DEP did not have adequate controls over its contract payment process. Specifically, the audit found that DEP did not effectively review contractors' invoices to ensure that requested payments were accurate, appropriate, and adequately documented. As a result, among the contracts sampled, DEP processed questionable payments of \$7.9 million and processed excess payments of \$364,834. The audit also found that DEP did not adequately document certain aspects of its procurements. Some contract files were missing the conflict of interest statements signed by contract proposal evaluators, Notices of Vendor Selection, and other required paperwork. Further, DEP did not follow the approval procedures for awarding or registering emergency contracts as required by PPB rules.

- The Mayor's Office of Film, Theatre and Broadcasting (MOFTB) provides film production companies with the necessary permits to film at locations throughout the City, including permits for parking, street and sidewalk closures, and police assistance. This audit focused on the extent to which the fees charged for permits by MOFTB enable the City to recoup costs incurred for filming activities. In Fiscal Year 2013, the direct costs incurred by the City to provide services to film production companies were at least \$3.9 million. However, MOFTB only collected \$1 million from the \$300 per project fees charged, resulting in a deficit of \$2.9 million, which was absorbed by the City. Had MOFTB charged a fee of \$593, the cost associated with each project that was identified in a cost analysis conducted by MOFTB and approved by New York City Office of Management and Budget (OMB), it would have generated another \$1 million in revenue to the City. In addition, MOFTB did not bill \$1.9 million to the film production companies for police assistance costs incurred during filming. The audit also noted that in addition to providing lower permit fees to film companies and absorbing a significant portion of the film services cost, the City provided

over \$3 million in free advertising, but only required the production companies to donate approximately \$98,000 to cultural institutions.

Asset Management and Internal Controls

- The Bureau audited the New York City Department of Education (DOE) to determine whether computer hardware it purchased for use by students, teachers and administrative staff through contracts with Apple, Inc. (Apple) and Lenovo, Inc. (Lenovo) was properly accounted for. The agency entered into a contract with Apple on September 1, 2009, and one with Lenovo on July 1, 2011. As of September 2014, DOE had spent approximately \$197.1 million, which included \$96.8 million on the Apple contract and \$100.3 million on the Lenovo contract.

The audit found that DOE's controls and management over its computer hardware were not sufficient to ensure that it could properly account for the computers it had purchased. DOE did not maintain a centralized inventory of computer hardware purchased from Apple and Lenovo. Further, DOE did not reconcile the individual DOE sites' inventory records with its Asset Management System (AMS), the database used by DOE to record computer hardware delivered to DOE. Consequently, auditors could not rely on information in AMS, and the system could not properly identify where all of the computers paid for by DOE were located. In an initial reconciliation of two AMS lists of computers supposedly delivered to a single location, 1,044 items were listed in AMS as "Asset Location Unknown." An additional 46 items were unaccounted for entirely. Further, inventory counts at nine other sampled locations (eight schools and the administrative office at 52 Chambers Street) found that an additional 727 pieces of computer hardware were missing entirely from the locations in which AMS stated they were to be found. Finally, in inspections of the eight schools sampled, 394 pieces of computer hardware were still packed and unused.

- An audit examined whether NYCHA had adequate controls in place to accurately monitor and track vacant apartments in its public housing developments throughout the five boroughs. According to NYCHA records, as of September 19, 2014, NYCHA's inventory of more than 178,000 apartments included 2,342 vacant apartments, both off and on the rent roll. This constitutes a vacancy rate of one percent. Also, according to information provided by NYCHA, as of December 22, 2014, there was a wait list of 273,391 households vying for apartments. Notwithstanding NYCHA's low vacancy rate, the audit found that NYCHA had inadequate controls over the monitoring and tracking of its vacant apartments. NYCHA did not ensure that vacant apartments were repopulated with new tenants in a timely manner. The audit found that apartments removed from the rent roll because they needed major repairs or renovations remained off-roll an average of 2,605 days and that apartments removed because of relocations for elevator rehabilitation remained off the rent roll an average of 689 days. The audit sample found that NYCHA took an average of 116 days to fill vacant on-roll apartments with new tenants, significantly longer than its stated goal of 40 days.
- On October 29, 2012, Superstorm Sandy displaced thousands of individuals and families throughout New York City, destroying their homes or leaving them uninhabitable. The Department of Homeless Services (DHS) is responsible for providing short-term, emergency shelter for individuals and families who have no other housing options available and for assisting those residing in shelters to transition into permanent housing. DHS entered into 20 emergency contracts, totaling \$19.9 million, with various human service organizations to provide shelter and other services on an emergency basis. This audit determined whether DHS established and maintained adequate internal controls to ensure that contracted services were provided and that contractors complied with applicable laws and regulations. Such controls ensure that the City is eligible to receive Federal Emergency Management Agency (FEMA) disaster relief funds for expenses incurred in the wake of the hurricane.

The audit disclosed weaknesses in DHS' oversight and controls over its emergency contracts. DHS did not have formal monitoring procedures, nor did it have sufficient evidence that oversight and monitoring activities for the contracts that were the subject of the audit took place. In addition, DHS personnel did not adequately review or check invoices and supporting documentation for accuracy prior to payment. Finally, emergency contract managers did not perform satisfaction assessments of shelter clients as required by the City's PPB Rules Chapter 4, §4-01(e).

- The New York City Department of Citywide Administrative Services (DCAS) is responsible for providing City agencies with the resources and support they need to provide the best possible services to the public. An audit determined whether DCAS adequately accounted for and managed its inventory of City office space. City government offices occupy over 19 million square feet of space. Pursuant to City Charter Chapter 35, §824(b), DCAS is authorized to assign and reallocate space and real property to City agencies that is owned and leased by the City. This includes 12.5 million square feet of space leased at a cost of roughly \$365 million annually and 6.5 million square feet of City-owned space which costs the City approximately \$70 million annually to operate and maintain. DCAS manages 51 City-owned buildings and two privately owned buildings located in the five boroughs which contain over 11.9 million square feet. The audit focused on this DCAS-managed office space only.

The audit found that DCAS does not adequately account for and manage its inventory of City office space. The agency does not have a reliable computer system or an effective tracking tool to assist in processing moves and renovations, or with maintaining an inventory of all City office space. The audit found that DCAS does not have an accurate inventory listing of available office space and did not consistently follow its protocols for evaluating space requests. As a result, DCAS is hindered in its ability to track vacancies and is unable to maximize the efficient use of City resources, which could result in unnecessary and increased costs to the City.

- The Mayor's Office of Housing Recovery Operations (HRO) was audited to determine whether it had proper controls in place to ensure the appropriate, prompt and efficient delivery of services to applicants for benefits under the New York City Build it Back (BIB) Single Family Program from June 1, 2013 to August 1, 2014. After Superstorm Sandy, the City launched the BIB program to carry out long-term residential reconstruction as part of HUD's Community Development Block Grant-Disaster Recovery initial Action Plan. Pursuant to the plan, the City proposed using more than one billion dollars in Federal funds to pay for reconstruction initiatives, including the Single Family Program, which was specifically designed to assist owner-occupants of properties with one to four units affected by Superstorm Sandy. HRO received approximately 19,500 registrations for the BIB Single Family Program during its open enrollment period.

The audit determined that HRO failed to implement proper controls to ensure the appropriate, prompt and efficient delivery of services to applicants for benefits under the BIB Single Family Program. Specifically, HRO failed to effectively monitor the work of the multiple consultant companies hired to carry out the program. In addition, as HRO repeatedly changed program procedures and policies, it failed to adequately memorialize these changes in contract amendments or other documents that would ensure the changes were adhered to and enforceable. Further, HRO failed to ensure that consultants effectively notified and trained their staffs about program changes, failed to provide quality control over their implementation, and did not track the effects of the changes on the efficiency of the BIB program over time.

As a result, by December 31, 2013, seven months after the program began accepting applications and over a year after the storm devastated homes along the coast of New York City, only 960 of the roughly 20,000 program applicants had met with HRO to discuss the options available to them through the BIB program and zero applicants had actually received any program benefits. As of August 1, 2014, nearly two years after the storm hit New York and fifteen months after the BIB program began accepting registrations, only 686 applicants had received any type of benefits.

- NYCHA's inventory is stored in its main warehouse located in Long Island City (LIC) and in storerooms and skilled trades' shops located at its 334 developments throughout New York City. The Bureau audited NYCHA to examine whether it had adequate controls in place to manage its inventory of equipment and supplies. All items maintained at the LIC warehouse are inventoried on arrival and expensed in NYCHA's financial records at the time they are distributed to the developments. The inventory maintained at the developments also includes fixed assets. During the audit's scope period, the supplies stored at the LIC warehouse were valued at \$5.3 million, the total dollar amount of the orders from LIC for 173 developments was approximately \$9.4 million, and the total dollar amount of drop shipment purchases was approximately \$49.5 million (covering 221 developments). The total reported value of the inventory at six satellites warehouses was \$20.5 million. For the same period, the reported value of fixed assets at the developments was close to \$33 million.

The audit found significant deficiencies in NYCHA's internal procedures that resulted from management's failure to institute adequate controls over inventory operations. Consequently, there is limited assurance that the inventory at the satellite warehouses and the development storerooms is adequately protected against misappropriation or theft. The audit specifically found that NYCHA staff failed to maintain accurate inventory records, properly safeguard inventory items, and submit reports to NYCHA management in a timely manner, if at all. The audit found that NYCHA's senior management has not established an adequate monitoring structure to enable them to determine the extent to which applicable policies and procedures are being followed. NYCHA's deficient controls place well over \$100 million of reported inventory at risk.

Service Delivery and Program Performance

- The New York City Commission on Human Rights (CCHR) is responsible for enforcing the City's Human Rights Law, which prohibits discrimination in employment, housing and public accommodations based on race, color, creed, age, national origin, alienage, citizenship status, gender, sexual orientation, disability, marital status and partnership status. CCHR is directly responsible for the intake, investigation and prosecution of complaints alleging violations of the Human Rights Law and this audit evaluated CCHR's processes and timeliness in handling those complaints. The audit found that while CCHR had established an informal system of internal practices and protocols for handling complaints, it failed to meet its internally established benchmark for the time in which it investigates complaints. Of the 593 cases that CCHR closed between January 1, 2012 and June 14, 2013, less than half (291) were closed within

the agency's one-year benchmark. For the remaining 302 cases, CCHR took an average of 427 days to complete investigations and close the cases. CCHR had not analyzed its case files to identify the key factors that affected its case processing and caused delays, nor developed any additional strategies to improve case timeliness.

- The Bureau audited the Metropolitan Transportation Authority (MTA) to determine whether it adequately monitored the performance of its express buses with respect to on-time performance. Based on MTA data for Calendar Year 2013, MTA Bus operated a fleet of 509 express buses with annual ridership of 9,023,396 and NYCT operated a fleet of 508 express buses with annual ridership of 11,544,719.

The MTA does not have on-time performance targets for the percentage of buses that it expects should be on time. However, it does have criteria by which it measures timeliness for a scheduled pick-up. The audit found that 31% of sampled express buses were not on time, based on the MTA's criteria for timeliness. Additionally, the MTA does not publicly report progress towards meeting its targets for reliable express bus service. The MTA has developed two bus performance indicators—*percent of bus trips completed* and *mean distance between failures*—to measure how well it is attaining its goal of service reliability. When reporting bus performance, however, it combines the results for express buses with those of the much larger population of local buses. Consequently, the riding public has no means of assessing express bus service performance.

- The Bureau performed an audit to determine whether NYCT is meeting its internal goals for performing track cleaning and painting in subway stations. The New York City subway system (subways and rapid transit) is composed of 659 passenger track miles on which it operates 6,311 subway cars on 21 subway lines and 3 shuttle lines that pick up and discharge passengers at 467 stations within four of the five City boroughs. In 2013, total annual subway ridership was approximately 1.708 billion people, an increase of 3.2% from 2012 to 2013. In 2013, NYCT spent \$240 million of its operating budget for the maintenance and cleaning of subway stations, using 2,485 hourly salaried employees to perform the maintenance and cleanings. In addition, another 278 operations supervisors ensure that subway stations are properly maintained in a clean, safe and sanitary condition. The audit found that NYCT's station painting and track cleaning efforts were insufficient to meet agency goals and as a result, the physical appearance of stations, with regard to their track cleanliness and their painting, remains poor.
- The Bureau audited NYCT to determine whether it had adequate processes and procedures to ensure the prompt handling of customer MetroCard claims received by the MetroCard Customers Claims (MCC) unit. The audit also determined whether NYCT sufficiently monitors and measures its performance in responding to such claims to identify and correct potential weaknesses and enhance customer service. In Calendar Year 2013, NYCT received 405,521 MetroCard claims. As of December 31, 2013, the MCC unit had processed 382,239 (94%) of them, resulting in customer reimbursements totaling approximately \$6.8 million. The audit found that NYCT's MCC unit had strong controls in place throughout all phases of its processing of MetroCard claims. In addition, the MCC unit closely monitored and measured its performance in responding to MCC claims. However, the thoroughness of these controls slowed NYCT's processing time, making it difficult for NYCT to expedite claims. In Calendar Year 2013, 94% of the MetroCard customer claims that NYCT received were processed and closed. However, on average, NYCT took more than two months (or 67.6 days) to process more than 80% of those claims, despite the unit's stated goal of 14 days. The MCC unit requested that additional personnel temporarily assigned by NYCT to the MCC unit be permanently assigned to address this issue.
- New York City's housing code requires that residential building owners ensure that their buildings are safe, clean, and well-maintained, both in the common areas and in the apartments. HPD, which enforces the housing code, was audited to determine whether it effectively handles the housing maintenance complaints it receives. Each complaint is assigned a priority level that is used to determine how soon the complaint should be addressed by HPD. A complaint can be prioritized as being dire, an emergency, or a non-emergency.

HPD attempts to inform the last validly registered building owner of the complaint via telephone or email. In addition, HPD attempts to call the tenant to determine whether the conditions have been corrected. If the tenant cannot be reached or if he or she states that the condition still exists, HPD's Division of Code Enforcement sends an inspector to conduct an inspection. If an inspector finds violations, an owner will be issued a Notice of Violation (NOV). According to the Mayor's Management Report, HPD received more than 540,000 housing maintenance complaints, conducted more than 660,000 inspections, issued more than 385,000 violations, and closed more than 540,000 complaints each year during Fiscal Years 2012, 2013, and 2014.

The audit found weaknesses in HPD's handling of housing maintenance complaints. HPD has established informal timeliness benchmarks for addressing housing maintenance complaints, however they were not consistently addressed in a timely manner. In addition, certified lead paint violations were not consistently re-inspected within 14 days, "no access" and "not reached" inspection results were not monitored effectively, there were inadequate controls for the

follow-up of tenant challenges to owners' claims of having corrected the violations, controls over owner certifications need to be strengthened, there was no goal for the re-inspection of certified non-lead-paint violations, and there were inadequate procedures for supervising inspectors.

BUREAU OF INFORMATION SYSTEMS & TECHNOLOGY

The Bureau of Information Systems & Technology (BIST) develops and implements technology solutions and maintains over 120 application software products that provide a full range of technology support services for all key business functions and Charter mandated responsibilities of the New York City Comptroller's Office.

BIST services include: technology strategic planning, website development and administration, graphic design, disaster recovery, business continuity, systems development, communications and network administration, business process re-engineering, change management, program management, security administration, help desk, training, application architecture, computer operations, telecommunications, document management, geographic information systems, check production and distribution, webcasting and video services, social media support, technology procurement, and vendor management.

During the past year, BIST worked closely with all bureaus in the Comptroller's Office to re-engineer and automate critical business processes within their operations and enable access to and analysis of critical data stores, providing a wealth of information central to the core objectives of the Comptroller's Office. Examples include:

Enhancements to Checkbook NYC

Checkbook NYC represents a comprehensive suite of transparency applications residing on the Comptroller's website that provide unparalleled access to detail information on the City's spending, contracts, payroll, budget, revenue, pension investments and administration, and business operations with Minority & Women Owned Business Enterprises (M/WBE). These applications were recognized by the U.S. Public Interest Research Group as the #1 website application of all major U.S. cities for displaying online government information.

Specific enhancements include:

- Subvendors have been added to the application for all prime vendors with a contract value greater than \$250,000. This provides a more in depth view of vendor utilization by City agencies, including specific M/WBE firms.
- All 25 financial and statistical trends within the Checkbook application were updated with data from the City's 2014 Comprehensive Annual Financial Report (CAFR).

Take It To The Bank: A New Yorkers Guide to Affordable Checking Options

Take it to the Bank is a new initiative designed to help New Yorkers find and compare affordable checking accounts. The Take it to the Bank website at www.takeittothebank.nyc includes a report on checking accounts; the "Find a Bank" tool that compares 74 checking accounts across 34 different services, fees and features; and an "affordability ranking" to help New Yorkers determine the potential cost of each account.

ClaimStat

The ClaimStat initiative originated last year with a policy report on claims filed against the New York City Police Department, Health & Hospitals Corporation, Department of Parks and Recreation, Department of Sanitation and Department of Environmental Protection. In Fiscal Year 2015, a report on pothole claims processed by the City was developed. Claimstat reports include interactive geographic maps displaying thousands of claims that are reported to the Comptroller's Office. ClaimStat assists in identifying patterns and practices that lead to lawsuits against the City and potentially assists the City in risk management.

Enhancements to the OASIS system

OASIS is an imaging/document management/automated work flow system that supports the City's claims processing (approximately \$600 million in annual settlements), contracts registration (over 20,000 contracts annually), and Labor Law enforcement (over 100 new cases annually). Enhancements were implemented to leverage the automated work flow and document imaging technology for specific business functions of the Office.

Specific enhancements include:

- NYPD Access to Police claims—over 5,000 police related claims were filed against the City last year. Providing online access to these claims in the Comptroller’s OASIS system for specific NYPD personnel supports more efficient settlement efforts and risk management objectives.
- New Labor Law Module Functionality—This module supports labor law enforcement, payment processing, and tracking, including unclaimed funds that must be tracked for six years before a case can be closed. New functionality included: wage schedule updates, case notes history, mail merge, employee lists, and an online tool to search for unclaimed funds with displays that adjust for easy viewing on smartphones and tablets.

Bureau of Asset Management Database Warehouse

The Bureau of Asset Management (BAM) manages the City’s Pension fund assets for all City workers. The portfolio represents approximately \$163 billion and includes relationships with over 120 global investment managers. Core data from investment transactions is compiled with the funds custody bank, State Street Bank. BIST developed a data warehouse to receive automated interfaces of key investment information data files. The warehouse establishes a repository to support key information analysis for the entire portfolio including: risk management, performance, manager payments, data holdings, and account attributes, among others.

New eDiscovery Platform

The Clearwell eDiscovery platform from Symantec was implemented by BIST to support the Office’s entire electronic discovery lifecycle. This includes: executing legal hold obligations; collecting data from initial electronic sources; and filtering, reviewing, and analyzing collected data. This new platform will streamline the activities associated with the requests to the Office under the Freedom of Information Law (FOIL).

New Service Management Platform

The Remedy Service Management platform from BMC software was implemented by BIST to support state-of-the-art technology service management requests for the Comptroller’s Office. Remedy is used by all operating units of the Office to submit service requests to the Bureau of Information Systems & Technology HELP DESK. The platform includes a self-service module which enables users to view all requests and their status in a dashboard visual.

The Comptroller’s Website

BIST maintains the official website for the New York City Comptroller’s Office: comptroller.nyc.gov. The website can be viewed in 90 different languages and averages approximately 44,000 visits each month. The website contains critical information about City government including: the City’s annual financial statements, audits of agencies, reports on the budget and economy, data on bond and note sales, and policy reports issued by the Comptroller’s Office. The public can also instantly contact the Comptroller’s Community Action Center via the website to obtain assistance on a variety of issues. Individuals may also report City-related fraud, find job openings at the Comptroller’s Office, obtain certificates of residency, review prevailing wage schedules, or obtain forms to file claims against the City. Claims can also be filed online using the eClaims application on the website. The site also includes Vendor Roadmap: a guide for how vendors can do business with the City, a report card showing utilization by city agencies of minority- and women-owned business enterprises, and the status of all city contracts. To ensure that communications from the Comptroller’s Office are optimized, website content will be migrating to a “responsive design” model which will accommodate easy viewing on a variety of devices including smartphones and tablets.

Continuity of Business Operations

BIST developed and maintains the Comptroller’s agency-wide disaster recovery and business continuity plan which ensures that the Office’s mission critical and mandated functions are restored with minimal interruption in the event of a major incident or disaster. The plan addresses incident management, technology restoration, and business process continuity for all critical office functions. It also includes the real time replication of critical transactions to a remote computer processing location. This remote location provides key personnel with onsite systems access and an emergency operations center in addition to housing the required technology and infrastructure components.

Communications are critical to disaster and incident management, and the Comptroller’s Office utilizes several tools to ensure communication capability is maintained for critical personnel. Testing and maintenance of the plan are critical components to its success. Maintenance is performed on a continual basis to reflect updates to the recovery environment, and changes to business functions, the organization, and technology within the agency. Testing of the plan is performed every six months.

Effecting “Greener” Technology Operations

Conservation of power resources and caring for the environment continue to be critical global issues for all technology operations. This past year, the Comptroller’s Office continued technology infrastructure upgrades and in doing so implemented best practices for a “greener” technology operation. This included the procurement and installation of energy-efficient hardware, configuring data center racks in a “hot-aisle” “cold-aisle” model, implementing server virtualization models, employing power-management on all hardware devices, and complying with e-waste disposal standards.

Technology Infrastructure

BIST supports the technology infrastructure for the Comptroller’s Office which includes 17 bureaus located on 10 floors in the Municipal Building. A central data center, maintained by BIST, supports all technology operations. BIST also maintains the Comptroller’s Central Imaging Facility (CIF) which performs front end document preparation, scanning, and indexing for all City contracts, claims, and Labor Law transactions. Additionally, a technology training center is maintained which is used for equipment and application testing. BIST also maintains the Comptroller’s remote disaster recovery site where critical transactions are replicated on a real time basis. BIST administers electronic access security and video surveillance to all premises occupied by the Comptroller at 1 Centre Street.

The Comptroller’s Office continually evaluates and upgrades its technology infrastructure in an effort to maintain state-of-the-art technology and ensure applications compatibility. Recent upgrades associated with the completion of a five-year capital refresh on all of the Office’s computer equipment include: replacing data center servers and storage hardware; deploying new PCs, laptops, smartphones, and other peripheral devices; upgrading mail and desktop environments to Exchange Server 2013, Office 2013, and Windows 8.0; and expanding the wireless network with new access points throughout the office.

Security Infrastructure and the Cyber Threat Landscape

Cybersecurity has become a critical global issue in both the public and private sectors. With the proliferation of digital communications and the increased presence of cyber threats, infrastructure must be positioned to prevent and detect such threats. The Comptroller’s Office’s security infrastructure for cyber threats includes Edge security; servers, storage, and appliances; switches; and endpoints (PCs, laptops, and tablets). Various vendor partners provide security hardware and software to support this infrastructure and are constantly introducing new products to deal with the latest threats. These products are continually evaluated and recent implementations include:

- Cisco IronPort – to assist with email security.
- Cisco Advanced Malware Protection (AMP) – to assist in protecting endpoint devices.
- Cisco SourceFire – to monitor and block advanced malware attacks, viruses, and provide intrusion prevention.
- Qualys Guard – to scan network elements to detect security vulnerabilities.

Infrastructure upgrades will allow the Comptroller’s Office to prevent system outages, ensure appropriate up-to-date security features are installed, and ensure that the office remains compatible with other City agencies and businesses so that appropriate data and documents can be easily shared and exchanged. Upgrades will also allow the Office to remain current with industry trends and best practices, be environmentally compliant, be vigilant relative to the cyber security threat landscape, and dovetail with the upgrades occurring in other business applications.

THE COMPTROLLER’S COMPREHENSIVE ANNUAL FINANCIAL REPORT

The Comprehensive Annual Financial Report is required by Section 93(1) of the New York City Charter, and is presented in three sections. This transmittal letter serves as an introduction and summary. The financial section includes the basic financial statements, combining fund financial statements and schedules and other required supplementary information. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The City is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of the Comptroller’s Office’s leadership’s knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the City and its various funds. All disclosures necessary to enable the reader to gain an understanding of the City’s financial activities have been included.

The City is required to undergo an annual Single Audit in conformity with the provisions of the Single Audit Amendments Act of 1996 and the United States Office of Management and Budget’s (OMB) *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, which superseded *OMB Circular A-133* and other related documents. Information

related to the Single Audit, including the Schedule of Expenditures of Federal Awards, findings and recommendations, and auditors' reports on internal controls and compliance with applicable laws and regulations, are issued as a separate report.

Budgetary and Financial Controls

The City is responsible for establishing and maintaining internal controls designed to ensure that municipal assets are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management. These internal controls are subject to continuous evaluation by the City.

Budgetary Controls

The City maintains budgetary controls to ensure compliance with legal provisions embodied in the Annual Appropriated Budget approved by the City's governing body. Activities of the General Fund are included in the Annual Appropriated Budget. The City also makes appropriations in the Capital Budget to authorize the expenditure of funds for various capital projects. A level of budgetary control, i.e., the level at which expenditures cannot legally exceed the appropriated amount, is established within each individual fund. As reported in the schedules to the financial statements, several agencies have expended more than legally appropriated amounts. The City also maintains an encumbrance accounting system as another technique of accomplishing budgetary control. Encumbrances lapse at the end of each fiscal year.

Financial Controls

The City maintains financial controls through the use of an integrated accounting and budgeting system, referred to as the Financial Management System (FMS). FMS maintains the City's centralized accounting and budgetary controls. FMS is also used by the City to maintain information on City contracts as well as capital projects. FMS provides the ability for the Comptroller's, Mayor's, and individual agencies' financial managers to access, analyze, and utilize the City's financial data. These capabilities are continuously improved to meet new information needs.

Section 93 of the New York City Charter grants the Comptroller broad powers for establishing accounting and internal control policies and procedures for the City. To ensure the adequacy of the City's internal controls, directives and memoranda that outline appropriate policies and procedures for all City agencies and component units are issued and periodically updated. These directives and memoranda establish internal controls and accountability, which safeguard City assets. The Comptroller's Office and agency auditors periodically check City agencies' and component units' adherence to internal control policies and procedures.

Each year, in accordance with the "Principles of Internal Control," Comptroller's Directive 1, every City agency is required to prepare a report on its internal controls. Each agency's report must include an "Agency Financial Integrity Compliance Statement" signed by the agency head. The statement must include the agency head's opinion as to whether the agency's internal controls provide reasonable assurance that internal control objectives were achieved during the fiscal year and can continue to be achieved in the future.

The Comptroller's Office Audit Bureau administers the "Agency Financial Integrity Compliance Statement" program that is part of the "Principles of Internal Control" Directive and collects agency responses. In addition, the auditors collate these responses and use the results as part of a risk assessment to identify future audits. This approach helps to ensure that agencies genuinely assess their internal controls, rather than just examine them perfunctorily. The Comptroller's Office also asks agencies to assess the adequacy of their internal audit functions.

Should a control weakness prevent any significant control objective from being achieved, the agency head must describe management's plans for correcting it. Agencies must also explain and describe planned corrective action for any outstanding weakness described in audit reports prepared by the City Comptroller's Office auditors, the City's independent auditors, the State Comptroller, or other oversight or audit bodies.

The Comptroller issued two new memoranda in Fiscal Year 2015, providing City Agencies with guidance and uniform procedures to follow regarding Agency purchases and contract changes.

Comptroller Memorandum (CM) #2015-1, *Update to Comptroller's Directive # 24 – Agency Purchasing Procedures and Controls*, clarifies the limited circumstances under which the FMS Purchase Order – Non-Commodity Document (PON1) and the FMS Payment Request – Miscellaneous Document (PRM1) should be used. The CM was issued to reinforce the limitations contained in the current Directive # 24 regarding the permissible uses of the two FMS documents.

CM #2015-2, *Advisory on Comptroller's Directive # 7 – Audit Requests for Payment Received Under Contracts for Construction, Equipment, and Construction-Related Services*, in accordance with the New York City Procurement Policy Board Rules, and in compliance with Directive #7, clarifies that all changes to contracts for construction, equipment, and construction-related services must be reflected in a change order. This applies to all contracts procured pursuant to the PPB Rules as well as contracts entered into between a City agency and other governments, agencies, public authorities, or public benefit corporations, where registration is required under the PPB Rules, the Office of Management and Budget construction standards, or both.

All Comptroller directives and memoranda may be found on the Comptroller's Office website.

Independent Audit

The City Charter (Section 95) requires an annual audit by an independent certified public accounting firm. In addition to meeting the requirements set forth in the City Charter, the audit also is designed to meet the requirements of the Federal Single Audit Amendments Act of 1996 and related OMB guidelines, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. The auditors' report on the financial statements and on other financial information is included in the financial section of this report. The auditors' report, which relates specifically to the single audit, is included in a separately issued report.

AWARDS

For the 35th consecutive year, The City of New York was awarded the prestigious Certificate of Achievement for Excellence in Financial Reporting by the Government Finance Officers Association (GFOA). The Certificate signifies that the City's CAFR meets the highest standards of governmental financial reporting. Only 3,107 of some 39,044 governmental counties, municipalities, and townships received the Certificate thus far, and New York City is one of a very select group of 168 to have received the award for 35 or more consecutive years. To be awarded a Certificate of Achievement for Excellence in Financial Reporting, a government must publish an easily readable and efficiently organized CAFR. The CAFR for Fiscal Year 2014 again satisfied these requirements.

ACKNOWLEDGEMENTS

I want to thank the hundreds of accounting and financial professionals whose efforts on behalf of the people of The City of New York are the foundation of financial accountability. Your hard work and cooperation with my staff made the preparation of this report possible. I also want to thank my staff who have worked so diligently in the preparation of these financial statements. I offer special thanks to Deputy Comptroller/Chief Accountant Michele Mark Levine and Bureau Chief Jacqueline Thompson and the staff of the Bureau of Accountancy. I am also grateful for the assistance of the Office of the Actuary, the Mayor's Office of Management and Budget and the Financial Information Services Agency. Finally, I want to thank the City's outgoing independent auditors, Deloitte & Touche LLP, for their efforts throughout this year's audit which caps a fourteen year tenure of excellent audit services.

FINANCIAL SECTION

Part II

Fiscal Year Ended June 30, 2015

INDEPENDENT AUDITOR'S REPORT

The People of The City of New York:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major governmental fund, the aggregate remaining fund information, each major component unit, and the aggregate nonmajor component units of The City of New York ("The City") as of and for the years ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise The City's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of The City's nonmajor governmental and fiduciary funds and each nonmajor component unit presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the years ended June 30, 2015 and 2014, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial statements of those entities disclosed in Note E.1 which represent 22 percent and 23 percent and 17 percent and 18 percent, as of and for the years ended June 30, 2015 and 2014, respectively, of the assets and revenues of the government-wide financial statements, 6 percent and 7 percent and 4 percent and 4 percent, as of and for the years ended June 30, 2015 and 2014, respectively, of the assets and revenues of the fund financial statements, 7 percent and 6 percent and 8 percent and 8 percent, as of and for the years ended June 30, 2015 and 2014, respectively, of the assets and net position of the fiduciary fund financial statements, and 50 percent and 50 percent and 76 percent and 77 percent, as of and for the years ended June 30, 2015 and 2014, respectively, of the assets and revenues of the component unit financial statements of The City. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities disclosed in Note E.1, are based solely on the reports of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to The City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of The City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major governmental fund, the aggregate remaining fund information, each major component unit, and the aggregate nonmajor component units of The City, as of June 30, 2015 and 2014, and the respective changes in financial position and the respective budgetary comparison for the General Fund thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental and fiduciary funds of The City and each nonmajor component unit, as of June 30, 2015 and 2014, and the respective changes in financial position, where applicable, thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

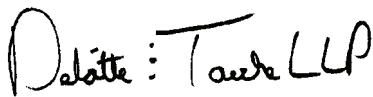

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 7 through 32, Schedule of Changes in the City's Net Pension Liability and Related Ratios for Single-Employer Pension Plans at June 30 on page 129, Schedule of the City's Proportionate Share of the Net Pension Liabilities for Cost-Sharing Multiple-Employer Pension Plans at June 30 on page 130, Schedule of City Contributions for all Pension Plans for Fiscal Years Ended June 30 on page 131, and Schedule of Funding Progress for the New York City Other Postemployment Benefits Plan on page 135 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We, and the other auditors as it relates to Management's Discussion and Analysis only, have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise The City's basic financial statements. The Introductory Section, Other Supplementary Information, and Statistical Section, as listed in the foregoing table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Other Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion the Other Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

A handwritten signature in black ink that reads "Deloitte : Touche LLP". The signature is stylized, with the "D" being large and the "Touche" written in a cursive-like script.

MANAGEMENT’S DISCUSSION AND ANALYSIS

[This page intentionally left blank]

MANAGEMENT'S DISCUSSION AND ANALYSIS

Overview of the Financial Statements

The following is a narrative overview and analysis of the financial activities of The City of New York (City or primary government) for the Fiscal Years ended June 30, 2015 and 2014. This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which have the following components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the City's assets, liabilities, and deferred outflows and inflows of resources. *Net position (deficit)* is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Over time, increases or decreases in *net position* may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, including the New York State Financial Emergency Act for The City of New York (Act). The Act requires the City to operate under a "rolling" Four-Year Financial Plan (Plan). Revenues and expenditures, including operating transfers, of each year of the Plan are required to be balanced on a basis consistent with Generally Accepted Accounting Principles (GAAP). The Plan is broader in scope than the expense budget; it comprises General Fund revenues and expenditures, Capital Projects Fund revenues and expenditures, and all short and long-term financing.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The principal role of funds in the financial reporting model is to demonstrate fiscal accountability. Governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of a fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds *Statement of Revenues, Expenditures, and Changes in Fund Balances* provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

Fiduciary Funds

The fiduciary funds are used to account for assets and activities when a governmental unit is functioning either as a trustee or an agent for another party. The City's fiduciary funds fall into two categories:

The **Pension and Other Employee Benefit Trust Funds** account for the operations of:

- Pension Trusts
 - New York City Employees’ Retirement System (NYCERS)
 - Teachers’ Retirement System of The City of New York (TRS)
 - New York City Board of Education Retirement System (BERS)
 - New York City Police Pension Funds (POLICE)
 - New York City Fire Pension Funds (FIRE)
- Deferred Compensation Plans (DCP)
- The New York City Other Postemployment Benefits Plan (the OPEB Plan)

Each of the pension trusts report all jointly administered plans including primary pension (QPPs), and variable supplements funds (VSFs) and/or tax deferred annuity plans (TDAs), as appropriate. Before Fiscal Year 2014, the City’s financial statements grouped the pension trusts by type (primary pensions, VSFs) rather than as systems. The new presentation is preferable because it more clearly illustrates the relationships between the plans within a pension system, and between the systems and the City. While the VSFs are included with QPPs for financial reporting purposes, in accordance with the Administrative Code of The City of New York (ACNY), VSFs are not pension funds or retirement systems. Instead, they provide scheduled supplemental payments, in accordance with applicable statutory provisions. While a portion of these payments are guaranteed by the City, the State has the right and power to amend, modify, or repeal VSFs and the payments they provide. However, any assets transferred to the VSFs are held in trust solely for the benefit of its members. More information is available in Note E.5.

The Deferred Compensation Plans report the various jointly administered Deferred Compensation Plans of The City of New York and related agencies and Instrumentalities and the New York City Employee Individual Retirement Account (NYCEIRA).

Note: These fiduciary funds publish separate annual financial statements, which are available at: Office of the Comptroller, Bureau of Accountancy—Room 200 South, 1 Centre Street, New York, New York 10007, or at www.comptroller.nyc.gov.

These funds use the accrual basis of accounting and a measurement focus on the periodic determination of additions, deductions, and net position restricted for benefits.

The New York City Other Postemployment Benefits Plan (the OPEB Plan) is composed of The New York City Retiree Health Benefits Trust (the Trust) and postemployment benefits other than pensions (OPEB) paid for directly by the City out of its general resources rather than through the Trust. The Trust is used to accumulate assets to pay for some of the OPEB provided by the City to its retired employees. The OPEB Plan is reported in the City’s financial statements as an Other Employee Benefit Trust Fund. The OPEB Plan was established for the exclusive benefit of the City’s retired employees and their dependents in providing the following current postemployment benefits: a health insurance program, Medicare Part B premium reimbursements, and welfare fund contributions. The City is not required to provide funding for the OPEB Plan other than the “pay-as-you-go” amounts necessary to provide current benefits to eligible retirees and their dependents. During Fiscal Year 2015, the City contributed approximately \$3.1 billion to the OPEB Plan.

The **Agency Funds** account for miscellaneous assets held by the City for other funds, governmental units, and individuals. School fundraiser monies for scholarships, federal asset forfeiture for investigative purposes, cash bail for use by the surety/assignee, are the major miscellaneous assets accounted for in these funds. The Agency Funds are custodial in nature and do not involve measurement of results of operations.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential for a full understanding of the information provided in the government-wide and fund financial statements.

Financial Reporting Entity

The financial reporting entity consists of the City government and its component units, which are legally separate organizations for which the City is financially accountable.

The City is financially accountable for the organizations that make up its legal entity. The City is also financially accountable for a legally separate organization (component units) if City officials appoint a voting majority of that organization's governing body and the City is able to either impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on the City. The City may also be financially accountable for organizations that are fiscally dependent on the City if there is a potential for the organizations to provide specific financial benefits to the City, or impose specific financial burdens on the City, regardless of whether the organizations have separate elected governing boards, governing boards appointed by higher levels of government, or jointly appointed boards.

Blended Component Units

Certain component units, despite being legally separate from the City, are reported as if they were part of the City because, in addition to the City being financially accountable for them, they provide services exclusively to the City. The blended component units, which are all reported as Nonmajor Governmental Funds, comprise the following:

- New York City School Construction Authority (SCA)
- New York City Transitional Finance Authority (TFA)
- TSASC, Inc. (TSASC)
- New York City Educational Construction Fund (ECF)
- Fiscal Year 2005 Securitization Corporation (FSC)
- Sales Tax Asset Receivable Corporation (STAR)
- Hudson Yards Development Corporation (HYDC)
- Hudson Yards Infrastructure Corporation (HYIC)
- New York City Tax Lien Trusts (NYCTLTs):
 - NYCTLT 1998-2
 - NYCTLT 2011-A
 - NYCTLT 2012-A
 - NYCTLT 2013-A
 - NYCTLT 2014-A
 - NYCTLT 2015-A
- New York City Technology Development Corporation (TDC)

Discretely Presented Component Units

Certain component units are discretely presented because, while the City is financially accountable for them, they do not provide services exclusively to the government itself.

The following entities are presented discretely in the City's financial statements as major component units:

- Water and Sewer System (the System):
 - New York City Water Board (Water Board)
 - New York City Municipal Water Finance Authority (Water Authority)
- New York City Housing Authority (HA)
- New York City Housing Development Corporation (HDC)
- New York City Health and Hospitals Corporation (HHC)
- New York City Economic Development Corporation (EDC)

The following entities are presented discretely in the City's financial statements as nonmajor component units:

- WTC Captive Insurance Company, Inc. (WTC Captive)
- Brooklyn Navy Yard Development Corporation (BNYDC)
- New York City Industrial Development Agency (IDA)
- The Trust for Governors Island (TGI)
- Brooklyn Bridge Park Corporation (BBPC)
- Business Relocation Assistance Corporation (BRAC)
- Build NYC Resource Corporation (Build NYC)
- New York City Land Development Corporation (LDC)
- New York City Neighborhood Capital Corporation (NYCNCC)

In the government-wide financial statements, all of the activities of the City, aside from its discretely presented component units, are reported as governmental activities. Governmental activities increased the City's net position by \$9.3 billion during Fiscal Year 2015. The net position was increased by governmental activities during Fiscal Year 2014 by \$3.6 billion and decreased during Fiscal Year 2013 by \$4.1 billion.

As mentioned previously, the basic financial statements include a reconciliation between the Fiscal Year 2015 governmental funds *Statement of Revenues, Expenditures, and Changes in Fund Balances*, which reports an increase of \$2.1 billion for all governmental funds balances and an increase in the net position reported in the government-wide *Statement of Activities* of \$9.3 billion. A similar reconciliation is provided for Fiscal Year 2014 amounts.

Key elements of the reconciliation of these two sets of statements are that the government-wide statements of activities report the incurrence and issuance of debt as a liability, the purchases of capital assets as assets. The cost of assets are then charged to expense over their useful lives (depreciated/amortized), and changes in long-term liabilities as adjustments of expenses and/or deferred items. Conversely, the governmental funds statements report the issuance of debt as another financing source, the repayment of debt as an expenditure, the purchase of capital assets as an expenditure, and do not reflect changes in long-term liabilities or capital assets.

Key elements of these changes are as follows:

Governmental Activities for the Fiscal Years ended June 30,

 HG Housing
 H Health, including payments to HHC
 L Libraries
 DSI Debt service interest

In Fiscal Year 2015, the government-wide revenues increased from Fiscal Year 2014 by approximately \$6.8 billion and government-wide expenses increased by approximately \$1.1 billion.

The major components of the government-wide revenue increases were:

- Grants increased due to more reimbursements for costs associated with Superstorm Sandy which impacted New York City in October 2012.
- Tax revenues, net of refunds, increased overall, as a result of the following:
 - The increase in real estate taxes results from growth in billable assessed value during the fiscal year.
 - The overall increase in sales and use taxes is driven primarily by large growth in mortgage financing activity for the commercial real estate market and stable financial activity for the residential market. Additionally, there was an increase in the collection of general sales tax which demonstrates an increase in taxable consumption resulting from growth in wages and visitor spending.
 - The increase in personal income taxes reflects the strong withholding growth and large gains in non-wage income.
 - The increase in other income taxes (which includes general corporation, financial corporation, unincorporated business income, non-resident personal income taxes, and utility tax) is primarily attributable to an increase in financial corporation taxes which reflects increases in consumer and corporate lending, deposit taking, and reduced settlements related to mortgage securities and unfair banking practices. Additionally, growth in hedge fund asset management and employment, and growth in personal income payments from non-resident City employees increased unincorporated business income and personal income taxes, respectively.
 - For all other taxes, the increase in taxes associated with the conveyance of real property reflects a continued recovery in the average sale price for both commercial and residential properties. Also increasing was payment in lieu of taxes ("PILOT"), which reflects higher payments for World Trade Center and Battery Park City Authority, offset by the forgiveness of New York City Housing Authority (NYCHA) payments. Additionally, hotel room occupancy taxes grew due to continued growth in the tourism sector.
 - The decrease in penalties and interest on delinquent taxes is primarily attributable to a decrease in penalties and interest on real estate taxes, which reflects a smaller percentage of delinquent properties paying penalties and interest. Additionally, refunds increased as a result of overpayments by taxpayers.
- The major components of the changes in government-wide expenses were:
 - General government expense increases are attributable to increases in CDBG-DR-funded work, collective bargaining increases, and various Mayoral initiatives.
 - Education expenses increased due to the expansion of Universal Pre-Kindergarten and after-school programming, new investments in low-performing schools, growth in mandated costs for special education pupils, and collective bargaining increases.
 - Expenses in housing increased due to greater spending on initiatives associated with Sandy housing recovery and resiliency efforts in Housing Preservation Development (HPD). Department of Buildings expenses increased due to collective bargaining settlements and technology upgrades to improve service delivery. Expenses related to NYCHA increased due to unit rehabilitations, extended hours at community centers, and collective bargaining increases.
 - Parks, Recreation, Cultural Activities, and Health expenses decreased as a result of a reclassification of Capital work-in-progress that occurred during the fiscal year.
 - Environmental protection expenses decreased primarily due to lower accruals for collective bargaining payments in Department of Environmental and Preservation in Fiscal Year 2015. Expenses in Sanitation increased due to landfill closure costs at Freshkills, start of operations at the North Shore Marine Transfer Station, and increase in collective bargaining expenses.
 - Libraries expenses increased primarily due to budget increases to cover collective bargaining settlement payments made in Fiscal Year 2015.

In Fiscal Year 2014, the government-wide revenues increased from Fiscal Year 2013 by approximately \$1.9 billion and government-wide expenses decreased by approximately \$5.9 billion.

The major components of the government-wide revenue increases were:

- Grants decreased slightly due to fewer reimbursements for costs associated with Superstorm Sandy, which impacted New York City in October 2012.
- Tax revenues, net of refunds, increased overall as a result of the following:
 - The increase in real estate taxes results from growth in billable assessed value during the fiscal year.
 - The overall increase in sales and use taxes is driven primarily by large growth in mortgage financing activity for the local commercial real estate market and stable financial activity for the local residential market. Additionally, there was an increase in the collection of general sales tax, which demonstrates an increase in taxable consumption resulting from growth in wages and in tourist spending.
 - The increase in personal income taxes reflects the growth in wage earnings.
 - The decrease in other income taxes (which include general corporation, financial corporation, unincorporated business income, non-resident personal income taxes, and utility tax) is attributable to a decrease in financial corporation taxes, which reflects declines in national mortgage loan originations, refinancing activity, and settlements related to prior year mortgage securities and unfair banking practices.
 - For all other taxes, the increase in taxes associated with the conveyance of real property reflects a continued recovery in both the volume and average sale price for commercial properties and an improvement in the average sale price for residential properties. Also increasing was commercial rent tax, which shows improvements in commercial office vacancy rates and asking rents in Manhattan. Additionally, hotel room occupancy taxes grew due to continued growth in the tourism sector.
- The major components of the changes in government-wide expenses were:
 - Public Safety costs decreased as a result of a decrease in personal service costs from the prior year in the District Attorney of Manhattan due to additional grant funding received during that fiscal year. Additionally, costs in the Office of Emergency Management decreased from the prior fiscal year as a result of fewer emergency services necessary in Fiscal Year 2014 in response to Superstorm Sandy, which occurred in Fiscal Year 2013.
 - Education expenses decreased resulting from a large write-off of prior year payables, which was partly offset by spending growth in special education, health, and collective bargaining expenses.
 - Expenses in Housing increased due to greater spending on various initiatives associated with Superstorm Sandy housing recovery in HPD and additionally as a result of aid provided to NYCHA from the City to help mitigate the effects of the Federal sequestration that occurred in 2013.
 - Health expenses declined in HHC due to receipt of reimbursements of Superstorm Sandy costs in the prior year that did not occur at the same level in the current year, in addition there was a large payment in Fiscal Year 2014 from the City to HHC for retroactive collective bargaining liabilities. In DOHMH, the decline in spending is related to the NYS Department of Health's takeover of the responsibility for fiscal claims in the Early Intervention Program. As of April 2013, claims which are to be reimbursed by Medicaid or commercial insurance companies will be paid directly to the provider by the State, instead of coming through DOHMH's budget.
 - Parks, recreation and cultural increased as a result of budget restorations from the previous year. In addition, there was an increase in certain OTPS payments for Cultural Institutions in Fiscal Year 2014.

The following charts compare the amounts of expenses and program revenues for Fiscal Years 2015 and 2014:

**Revenues by Source — Governmental Activities
for the Fiscal Year ended June 30, 2014**

As noted earlier, increases and decreases of net position may over time serve as a useful indicator of changes in a government's financial position. In the case of the City, liabilities and deferred inflows of resources exceed assets and deferred outflows of resources by \$181.8 billion at the close of the most recent fiscal year, a decrease in the excess of liabilities and deferred inflows of resources over assets and deferred outflows of resources of \$9.3 billion from June 30, 2014, which in turn compares with the net position decrease of \$3.6 billion over the prior Fiscal Year 2013.

	Governmental Activities		
	2015	2014 (in thousands)	2013 (restated)
Current and other assets	\$ 40,367,330	\$ 36,647,566	\$ 35,504,503
Capital assets (net of depreciation) . .	53,122,237	51,662,105	50,510,064
Total assets	93,489,567	88,309,671	86,014,567
Deferred outflows of resources	5,498,864	544,247	635,161
Long-term liabilities outstanding	239,663,638	235,859,487	249,392,410
Other liabilities	22,860,910	22,339,115	20,503,400
Total liabilities	262,524,548	258,198,602	269,895,810
Deferred inflows of resources	18,259,396	21,758,503	11,498,552
Net position:			
Net investment in capital assets	(6,181,406)	(7,495,896)	(9,343,601)
Restricted	5,277,387	4,420,127	7,265,917
Unrestricted (deficit)	(180,891,494)	(188,027,418)	(192,666,950)
Total net position (deficit)	<u><u>\$ (181,795,513)</u></u>	<u><u>\$ (191,103,187)</u></u>	<u><u>\$ (194,744,634)</u></u>

As noted earlier, the adoption of Statement No. 68 for Fiscal Year 2013 resulted in the City's reporting of net pension liabilities and deferred inflows of resources and deferred outflows of resources for each of its qualified pension plans and the recognition of pension expense in accordance with the provisions of the Statement. The increase in the City's net pension liability (NPL) to \$52.0 billion at June 30, 2015 from \$46.6 billion at June 30, 2014 is due to lower than assumed return on pension funds.

The excess of liabilities over assets reported on the government-wide statement of net position (deficit) is a result of several factors. The largest components of the net position (deficit) are the result of the City having long-term debt with no corresponding capital assets and the City's OPEB liability. The following summarizes the main components of the net deficit as of June 30, 2015 and 2014:

	Components of Net Deficit	
	2015	2014
	(in billions)	
Net Position Invested in Capital Assets		
Some City-owned assets have a depreciable life used for financial reporting that is different from the period over which the related debt principal is being repaid. Schools and related education assets depreciate more quickly than their related debt is paid, and they comprise one of the largest components of this difference	\$ (6.2)	\$(7.5)
Net Position Restricted for:		
Debt Service	4.1	2.6
Capital Projects	1.2	1.8
Total restricted net position	<u>5.3</u>	<u>4.4</u>
Unrestricted Net Position		
TFA issued debt to finance costs related to the recovery from the September 11, 2001 World Trade Center disaster, which are operating expenses of the City ...	(1.0)	(1.0)
STAR issued debt related to the defeasance of the MAC issued debt	(2.0)	(2.0)
The City has issued debt for the acquisition and construction of public purpose capital assets which are not reported as City-owned assets on the Statement of Net Position. This includes assets of the TA, the System, HHC, and certain public libraries and cultural institutions. This is the debt outstanding for non-City owned assets at year end. ...	(25.0)	(24.0)
Certain long-term obligations do not require current funding:		
OPEB liability	(85.5)	(89.5)
Judgments and claims	(6.8)	(6.9)
Vacation and sick leave	(3.9)	(3.9)
Pension liability	(52.0)	(46.6)
Landfill closure and postclosure costs	(1.5)	(1.5)
Other:	(3.2)	(12.7)
Total unrestricted net position	<u>(180.9)</u>	<u>(188.0)</u>
Total net position (deficit)	<u>\$(181.8)</u>	<u>\$(191.1)</u>

More information about pensions is available in Note E.5.

Financial Analysis of the Governmental Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The table below summarizes the changes in the fund balances of the City's governmental funds.

	Governmental Funds					
	General Fund	Capital Projects Fund	General Debt Service Fund	Nonmajor Governmental Funds	Adjustments/ Eliminations	Total
	(in thousands)					
Fund Balances (deficit), June 30, 2013	\$ 457,467	\$(3,035,756)	\$ 2,766,707	\$ 4,259,246	\$ —	\$ 4,447,664
Revenues	72,259,770	2,240,805	127,522	4,674,329	(3,831,660)	75,470,766
Expenditures	(67,705,878)	(7,902,711)	(3,742,518)	(5,565,135)	2,190,349	(82,725,893)
Other financing sources (uses)	(4,548,840)	5,661,781	1,487,141	1,497,562	1,641,311	5,738,955
Fund Balances (deficit), June 30, 2014	462,519	(3,035,881)	638,852	4,866,002	—	2,931,492
Revenues	77,482,450	2,359,933	126,223	4,907,069	(3,230,345)	81,645,330
Expenditures	(70,196,875)	(7,836,311)	(3,781,824)	(8,965,577)	2,674,141	(88,106,446)
Other financing sources (uses)	(7,280,473)	6,732,668	4,986,969	3,570,692	556,204	8,566,060
Fund Balances (deficit), June 30, 2015	<u>\$ 467,621</u>	<u>\$(1,779,591)</u>	<u>\$ 1,970,220</u>	<u>\$ 4,378,186</u>	<u>\$ —</u>	<u>\$ 5,036,436</u>

The City's General Fund is required to adopt an annual budget prepared on a basis generally consistent with Generally Accepted Accounting Principles (GAAP). Surpluses from any fiscal year cannot be appropriated in future fiscal years.

If the City anticipates that the General Fund will have an operating surplus, the City will make discretionary transfers to the General Debt Service Fund and other payments that reduce the amount of the General Fund surplus for financial reporting purposes and reduce the need for expenditures in the succeeding fiscal year or years. As detailed later, the General Fund had an operating surplus of \$3.70 billion and \$2.01 billion before these expenditures and transfers (discretionary and other) for Fiscal Years 2015 and 2014, respectively. After these certain expenditures and transfers, the General Fund reported an operating surplus of \$5 million in both Fiscal Years 2015 and 2014, which resulted in an increase in fund balance by this amount.

The General Debt Service Fund receives transfers (discretionary and other) from the General Fund from which it pays the City's debt service requirements. Its fund balance at June 30, 2015, can be attributed principally to transfers (discretionary transfer and other) from the General Fund totaling \$2.02 billion in Fiscal Year 2015 for Fiscal Year 2016 debt service. Similar transfers in Fiscal Year 2014 of \$644 million for Fiscal Year 2015 debt service also primarily account for the General Debt Service Fund balance at June 30, 2014.

The Capital Projects Fund accounts for the financing of the City's capital program. The primary source of funding is the issuance of City and TFA debt. Capital-related expenditures are first paid from the General Fund, which is reimbursed for these expenditures by the Capital Projects Fund. To the extent that capital expenditures exceed proceeds from bond issuances, and other revenues and financing sources, the Capital Projects Fund will have a deficit. The deficit fund balances at June 30, 2015 and 2014 represent the amounts expected to be financed from future bond issues or intergovernmental reimbursements. To the extent the deficits will not be financed or reimbursed, transfers from the General Fund will be required.

GAAP requires recognition of pollution remediation obligations, and generally preclude costs incurred for pollution remediation from being reported as capital expenditures. Thus, the City's Fiscal Year 2015 General Fund expenditures include approximately \$254.6 million of pollution remediation expenditures associated with projects which were originally included in the City's capital program. The City also reported \$241.1 million of City bond proceeds and \$13.5 million of other revenues (New York City Municipal Water Finance Authority bond proceeds transferred to the City) supporting the \$254.6 million of pollution remediation expenditures in the General Fund for Fiscal Year 2015. In Fiscal Year 2014, \$293.6 million of City bond proceeds and \$20.1 million of other revenues supported the \$313.7 million of pollution remediation expenditures reported in the General Fund. Although amounts were not established in the Adopted Budget, a modification to the budget was made to accommodate the amount of pollution remediation expenditure charge in the General Fund. These pollution remediation expenditures were incurred by various agencies, as follows:

**General Fund
Budgetary Highlights**

Total expenditures	<u>\$69,381</u>	<u>\$75,164</u>	<u>\$72,875</u>

General Fund Surplus

The City had General Fund surpluses of \$3.70 billion, \$2.01 billion and \$2.81 billion before certain expenditures and transfers (discretionary and other) for Fiscal Years 2015, 2014 and 2013, respectively. For the Fiscal Years 2015, 2014 and 2013, the General Fund surplus was \$5 million after expenditures and transfers (discretionary and other).

The expenditures and transfers (discretionary and other) made by the City after the adoption of its Fiscal Years 2015, 2014 and 2013 budgets follow:

	Governmental Activities		
	2015	2014	2013
	(in millions)		
Transfer, as required by law, to the General Debt Service Fund of real estate taxes collected in excess of the amount needed to finance debt service	\$ 428	\$ 481	\$ 587
Discretionary transfers to the General Debt Service Fund	1,548	140	2,140
Net equity contribution in bond refunding that accrued to future years debt service savings	47	23	16
Grant to TFA	1,578	1,362	—
Advance cash subsidies to the Public Library system . .	—	—	64
Total expenditures and transfers (discretionary and other)	3,601	2,006	2,807
Reported surplus	5	5	5
Total surplus	<u>\$3,606</u>	<u>\$2,011</u>	<u>\$2,812</u>

Final results for any given fiscal year may differ greatly from that year's Adopted Budget. The following table shows the variance between actuals and amounts for the Fiscal Year ended 2015 Adopted Budget:

	2015
	(in millions)
Additional Resources:	
Greater than expected personal income tax collections	\$ 1,423
Reallocation of the general reserve	750
Lower than expected debt service costs for amounts due in current fiscal year . . .	622

Total	<u>7,705</u>
Reported Surplus	<u>\$ 5</u>

Capital Assets

The City's investment in capital assets (net of accumulated depreciation/amortization), is detailed as follows:

	Governmental Activities		
	2015	2014 (in millions)	2013
Land*	\$ 1,907	\$ 1,771	\$ 1,700
Buildings	33,081	30,785	29,381
Equipment (including software)	2,602	2,571	2,505
Infrastructure**	12,552	12,275	12,219
Construction work-in-progress	2,980	4,260	4,705
Total	<u>\$53,122</u>	<u>\$51,662</u>	<u>\$50,510</u>

* Not depreciable/amortizable

** Infrastructure elements include the roads, bridges, curbs and gutters, streets and sidewalks, park land and improvements, piers, bulkheads and tunnels.

The net increase in the City's capital assets during Fiscal Year 2015 was \$1.46 billion, a 3% increase. Capital assets additions in Fiscal Year 2015 were \$9.90 billion, an increase of \$1.38 billion from Fiscal Year 2014.

In 2015 construction work-in-progress was \$2.98 billion, representing a 30% net decrease. The decrease was the result of \$4.37 billion in building additions and the reclassification of \$485 million of construction costs as being for non-city-owned assets and other accounting adjustments. The total reclassification write down accounted for 11% of the 2015 construction work-in-progress opening balance.

The net increase in the City's capital assets during Fiscal Year 2014 was \$1.15 billion, a 2% increase. Capital assets additions in Fiscal Year 2014 were \$8.52 billion, an increase of \$136 million from Fiscal Year 2013.

Additional information on the City's capital assets can be found in Note D.2 of the Basic Financial Statements and in schedule CA1 thru CA3 of other supplementary information.

Debt Administration

The City, through the Comptroller's Office of Public Finance, in conjunction with the Mayor's Office of Management and Budget, is charged with issuing debt to finance the City's capital program. The following table summarizes the debt outstanding for the City and certain City-related issuing entities at the end of Fiscal Years 2015, 2014 and 2013.

	New York City and City-Related Debt		
	2015	2014 (in millions)	2013
General Obligation Bonds ^(a)	\$40,460	\$41,665	\$41,592
TFA Bonds	25,488	24,013	21,816

Tax Lien Collateralized Bonds	34	46	34
Total bonds and notes outstanding	81,150	79,539	77,680
Plus premiums / less discounts (net)	3,825	3,162	2,956
Total bonds and notes payable	<u>\$84,975</u>	<u>\$82,701</u>	<u>\$80,636</u>

(a) Does not include capital contract liabilities.

General Obligation

On July 1, 2015, the City’s outstanding General Obligation (GO) debt, including capital contract liabilities, totaled \$57.43 billion (compared with \$55.91 and 54.3 billion as of July 1, 2014 and 2013, respectively). The State Constitution provides that, with certain exceptions, the City may not contract indebtedness in an amount greater than 10% of the average full value of taxable real estate in the City for the most recent five years (Debt Limit). As of July 1, 2015, the City’s 10% Debt Limit was \$85.18 billion (compared with \$81.35 and \$79.10 billion as of July 1, 2014 and 2013 respectively). The City and TFA’s combined debt incurring power as of July 1, 2015, after providing for capital contract liabilities, totaled \$27.76 billion.

As of June 30, 2015, the City’s outstanding GO debt is \$40.46 billion; consisting of \$6.97 billion of variable rate bonds and \$33.49 billion of fixed rate bonds. Of the \$2.83 billion in GO bonds issued by the City in Fiscal Year 2015, a total of \$1.78 billion was issued to refund certain outstanding bonds at lower interest rates and a total of \$1.05 billion was issued for new money capital purposes. The proceeds of the refunding issues were placed in irrevocable escrow accounts in amounts sufficient to pay, when due, all principal, interest, and applicable redemption premium, if any, on the refunded bonds. These refundings produce a budgetary saving of \$35.29 million in Fiscal Year 2015 and budgetary savings of \$134.66 million and \$29.17 million in Fiscal Years 2016 and 2017, respectively. The refundings will generate \$278.36 million in budgetary savings over the life of the bonds and approximately \$241.97 million on a net present value basis.

In Fiscal Year 2015, the City issued \$400 million of traditional taxable fixed rate bonds. The traditional taxable bonds were sold on a competitive basis.

In addition, the City converted \$719.85 million of bonds between different interest rate modes.

During Fiscal Year 2015, GO variable rate debt traded at the following average interest rates:

	<u>Tax-Exempt</u>	<u>Taxable</u>
Dailies	0.05%	—
2-Day Mode	0.05%	—
Weeklies	0.05%	0.38%
Auction Rate Securities—7 Day	0.68%	—
Index Floaters	0.71%	0.95%

During Fiscal Year 2015, Standard & Poor’s Ratings Services (S&P) and Fitch Ratings (Fitch) maintained the GO rating at AA. Moody’s Investors Service (Moody’s) continued to rate GO bonds at Aa2.

Short-Term Financing

In Fiscal Year 2015, the City had no short-term borrowings.

Transitional Finance Authority

The New York State Legislature created the New York City Transitional Finance Authority (TFA or the Authority), a bankruptcy-remote separate legal entity, and, through various state legislative measures, authorized the Authority to issue debt to fund a portion of the capital program of the City.

TFA Future Tax Secured Bonds (FTSBs) are secured by the City’s collections of personal income tax and, if necessary, sales tax. FTSBs outstanding over a \$13.5 billion limit, together with the amount of indebtedness contracted by the City, cannot exceed the City’s Debt Limit.

TFA Recovery Bonds have been issued to fund capital and operating costs related to, or arising from, the events of September 11, 2001. TFA is authorized to have outstanding up to \$2.5 billion of Recovery Bonds secured by personal income tax, as well as debt without limit as to principal amount, secured solely by state or federal aid received as a result of the events of September 11, 2001. Recovery Bonds are not subject to the City’s Debt Limit.

During Fiscal Year 2015, TFA issued \$3.68 billion TFA FTSB debt. This total included \$2.89 billion issued for new money capital purposes and \$786 million issued to refund certain

outstanding bonds at lower interest rates. The refundings will generate \$103 million in budgetary savings over the life of the bonds and approximately \$96 million on a net present value basis. In Fiscal Year 2015, the TFA also converted \$68.9 million outstanding bonds between interest rate modes.

As of June 30, 2015, the total outstanding FTSB and Recovery Bond debt was approximately \$26.42 billion. Of the amount outstanding, variable rate debt totaled \$3.95 billion, including \$732.8 million of variable rate Recovery Bonds. During Fiscal Year 2015, TFA's variable rate debt traded at the following average interest rates:

	<u>Tax-Exempt</u>
Dailies	0.07%
Weeklies	0.08%
Auction Rate Securities — 7 Day	0.43%
Index Floaters	0.79%
2-Day Mode	0.05%

In Fiscal Year 2015, Standard & Poor's and Fitch Ratings maintained AAA ratings on both Senior Lien and Subordinate Lien TFA Bonds. Moody's Investors Service maintained its rating of Aaa on Senior Lien and Aa1 on Subordinate Lien Bonds.

The Authority is authorized to issue bonds and notes or other obligations in an amount outstanding of up to \$9.4 billion to finance a portion of the City's educational facilities capital plan. TFA is authorized to use all or any portion of the state aid payable to the City or its school district pursuant to Section 3602.6 of the New York State Education Law (State Building Aid) as security for these Building Aid Revenue Bonds (BARBs). BARBs do not count against the FTSB Debt Limit. As of June 30, 2015, the TFA BARBs outstanding totaled \$7.43 billion. The Authority issued \$1.5 billion of TFA BARB Bonds in Fiscal Year 2015.

During Fiscal Year 2015, Standard & Poor's maintained the TFA BARBs rating at AA-. On June 16, 2015 Moody's raised its TFA BARB rating to Aa2 from the prior rating of Aa3. On June 20, 2015 Fitch Ratings raised its TFA BARB rating to AA from the prior rating of AA-.

TSASC, Inc.

TSASC, Inc. (TSASC) is a special purpose, bankruptcy-remote, local development corporation created pursuant to the Not-for-Profit Corporation Law of the State of New York. TSASC is authorized to issue bonds to purchase from the City its future right, title and interest under a Master Settlement Agreement (the MSA) between participating cigarette manufacturers and 46 states, including the State of New York.

TSASC had no financing activity in Fiscal Year 2015. As of June 30, 2015, TSASC had approximately \$1.22 billion of bonds outstanding.

TSASC bond ratings vary by maturity. As of June 30, 2015, Standard and Poor's rated TSASC bonds maturing June 1, 2022 at BBB-; June 1, 2026 at BB-; June 1, 2034 at B and June 1, 2042 at B-. Fitch rated TSASC bonds maturing on June 1, 2022 at BBB-; June 1, 2026 at BB-. Fitch rated bonds maturing on June 1, 2034 and 2042 at B.

Sales Tax Asset Receivable Corporation

In May 2003, New York State statutorily committed \$170 million of New York State Sales Tax receipts to the City in each fiscal year from 2004 through 2034. The Sales Tax Asset Receivable Corporation (STAR) was formed to securitize these payments and to use the proceeds to retire existing debt of the Municipal Assistance Corporation for The City of New York (MAC) debt, thereby saved the City approximately \$500 million per year for Fiscal Years 2004 through 2008.

As of June 30, 2015, STAR had \$2.04 billion of bonds outstanding. In Fiscal Year 2015, STAR issued \$2.04 billion of bonds to refund all previous outstanding bonds.

After being upgraded in Fiscal Year 2014, STAR maintained its Aa1 rating from Moody's Investor Services and AA+ from Fitch Ratings throughout Fiscal 2015. Standard & Poor's also maintained its longstanding AAA rating.

Fiscal Year 2005 Securitization Corporation

In Fiscal Year 2005, \$498.85 million of taxable bonds were issued by the Fiscal Year 2005 Securitization Corporation (FSC), a bankruptcy-remote local development corporation, established to restructure an escrow fund that was previously funded with GO bonds proceeds.

As of June 30, 2015, FSC had \$197.38 million bonds outstanding. It had no financing activity in Fiscal Year 2015.

As of June 30, 2015, the bonds were rated AA+ by S&P, Aaa by Moody's and AAA by Fitch.

Hudson Yards Infrastructure Corporation

The Hudson Yards Infrastructure Corporation (HYIC), is a local development corporation established to provide financing for infrastructure improvements to facilitate economic development on Manhattan's far west side. Principal on the bonds is payable from revenues generated by the new development in the Hudson Yards District. To the extent that such revenues are not sufficient to cover interest payments, the City, subject to appropriation, has agreed to make interest support payments to HYIC. The interest support payments do not cover principal repayment of the bonds.

As of June 30, 2015, HYIC had \$3 billion bonds outstanding. HYIC had no financing activity in Fiscal Year 2015.

The bonds are rated A by S&P, A2 by Moody's, and A by Fitch.

New York City Educational Construction Fund

The New York City Educational Construction Fund (ECF), a public benefit corporation, was established to facilitate the construction and improvement of City elementary and secondary school buildings in combination with other compatible lawful uses, such as housing, office or other commercial buildings. The City is required to make rental payments on the school portions of the ECF projects sufficient to make debt service payments as they come due on ECF Bonds, less the revenue received by the ECF from the non-school portions of the ECF projects.

The ECF had no financing activity in Fiscal Year 2015.

As of June 30, 2015, ECF had \$264.19 million bonds outstanding.

The bonds are rated AA- by S&P and Aa3 by Moody's.

New York City Tax Lien Trusts

The New York City Tax Lien Trusts (NYCTLTs) are Delaware statutory trusts which are created to acquire certain liens securing unpaid real estate taxes, water rents, sewer surcharges, and other payables to the City and the New York City Water Board in exchange for the proceeds from bonds issued by the NYCTLTs, net of reserves funded by the bond proceeds and bond issued cost. The City is the sole beneficiary to the NYCTLTs and is entitled to receive distributions from the NYCTLTs after payments to the bondholders and certain reserve requirements have been satisfied.

As of June 30, 2015, the NYCTLTs had \$34.23 million in bonds outstanding. In Fiscal Year 2015, the NYCTLTs issued \$95.48 million bonds. The bonds are rated AAA by Standard & Poor's and Aaa by Moody's Investors Service.

Interest Rate Exchange Agreements

To lower borrowing costs over the life of its bonds and to diversify its existing portfolio, the City has from time to time entered into interest rate exchange agreements (swaps) and sold options to enter into swaps at future dates. The City received specific authorization to enter into such agreements under Section 54.90 of the New York State Local Finance Law. No swaps were entered into or terminated in Fiscal Year 2015. As of June 30, 2015, the outstanding notional amount of the City's various swap agreements was \$1.76 billion.

The Water Authority has also entered into interest rate exchange agreements from time to time in order to lower its borrowing costs over the life of its bonds and to diversify its existing portfolio. In Fiscal Year 2015, the Authority did not initiate or terminate any swaps. As of June 30, 2015, the outstanding notional amount on the Water Authority's various swap agreements was \$401 million.

Additional information on the City's long-term liabilities can be found in Note D.5 of the Basic Financial Statements.

Subsequent Events

Subsequent to June 30, 2015, the City, TFA and NYCTLT completed the following long-term financings (listed in chronological order):

<i>City Swap Portfolio:</i>	On August 4, 2015, the City terminated a swap with Bank of New York Mellon. The total notional amount terminated was \$364,100,000 and the City received a payment of \$2,410,000 from the Bank of New York Mellon as a result of the termination.
<i>NYCTLT 2015-A:</i>	On August 5, 2015, NYCTLT 2015-A issued Tax Lien Collateralized Bonds, Series 2015-A of \$71,790,000 to fund the purchase of certain liens from the City.
<i>City Debt:</i>	On August 13, 2015, The City of New York issued \$750,475,000 of Fiscal 2016 Series AB General Obligation bonds for refunding purposes.
<i>TFA Debt:</i>	On September 29, 2015, the New York City Transitional Finance Authority issued \$1,150,000,000 of Fiscal 2016 Series A FTSB for capital purposes.
<i>ECF:</i>	On October 1, 2015, ECF redeemed series 2005A Revenue Bond with an outstanding amount of \$23,455,000.

Commitments

At June 30, 2015, the outstanding commitments relating to projects of the City's Capital Projects Fund amounted to approximately \$15.4 billion.

To address the need for significant infrastructure and public facility capital investments, the City has prepared a ten-year capital spending program which contemplates New York City Capital Projects Fund expenditures of \$83.8 billion over Fiscal Years 2015 through 2024. To help meet the financing needs for its capital spending program, the City and TFA borrowed \$3.94 billion in the public credit market in Fiscal Year 2015. The City and TFA plan to borrow \$4.8 billion in the public credit market in Fiscal Year 2016.

Superstorm Sandy

On October 29, 2012, Superstorm Sandy made landfall in the City. The storm surge and high winds caused significant damage in the City as well as other states and cities along the U.S. eastern seaboard. The City incurred costs for emergency response and storm related damages to, and destruction of, City buildings and other assets. As of June 30, 2015, the estimated value of damages and recovery costs was approximately \$9.7 billion – this includes \$7.6 billion for capital construction and \$2.1 billion for cleanup, relief, and repairs.

In response to the damages caused by Superstorm Sandy, President Obama signed a major disaster declaration on October 30, 2012, authorizing the Federal Emergency Management Agency (FEMA) to provide Public Assistance grants (PA) to government entities for response and recovery efforts. The emergency declaration supports the reimbursement of eligible emergency work (categorized as Emergency Protective Measures and Debris Removal) and permanent work (categorized as restoration of Roads and Bridges, Water Control Facilities, Buildings and Equipment, Utilities and Parks and Recreational facilities). On June 26, 2013, the President authorized reimbursement of eligible costs at a 90% rate.

In addition to the FEMA PA, the City has been awarded more than \$4.2 billion of Community Development Block Grant Disaster Recovery (CDBG-DR) funding through the U.S. Department of Housing and Urban Development. The major portion of these funds is being used in a variety of home restoration and replacement programs, small business assistance programs, and resiliency/hazard mitigation programs. The remainder is being used to pay certain Superstorm Sandy-related costs that are not reimbursable by FEMA as well as the 10% non-FEMA share of eligible costs, to the extent that those are eligible for CDBG-DR funding.

Approximately \$2 billion in emergency and recovery spending was obligated for reimbursement by FEMA during the City's Fiscal Year 2015, the remainder of eligible reimbursement will be obligated going forward. To the extent that eligible Superstorm Sandy related costs were incurred as of June 30, 2015, the FEMA reimbursement has been received or accrued as receivable in Fiscal Year 2015.

Request for Information

This comprehensive annual financial report is designed to provide a general overview of the City's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to The City of New York, Office of the Comptroller, Bureau of Accountancy, 1 Centre Street—Room 200 South, New York, New York 10007, or at Accountancy@comptroller.nyc.gov.

The reconciliation of the fund balances of governmental funds to the net position (deficit) of governmental activities in the Statement of Net Position is presented in an accompanying schedule.

See accompanying notes to financial statements.

THE CITY OF NEW YORK
RECONCILIATION OF THE GOVERNMENTAL FUNDS
BALANCE SHEET TO THE STATEMENT OF NET POSITION

JUNE 30, 2015
(in thousands)

Total fund balances—governmental funds	\$ 5,036,436
Amounts reported for <i>governmental activities</i> in the Statement of Net Position are different because:	
Inventories recorded in the Statement of Net Position are	
recorded as expenditures in the governmental funds	376,743
Capital assets used in governmental activities are not financial resources	
and therefore are not reported in the funds	53,122,237
Other long-term assets are not available to pay for current period	
expenditures and, therefore, are deferred in the funds	111,912
Long-term liabilities are not due and payable in the current period and	
accordingly are not reported in the funds:	
Bonds and notes payable	(84,975,069)
OPEB liability	(85,484,552)
Accrued interest payable	(1,031,977)
Capital lease obligations	(1,639,243)
Accrued vacation and sick leave	(3,980,729)
Net pension liability	(51,998,987)
Landfill closure and post-closure care costs	(1,508,360)
Pollution remediation obligations	(250,231)
Other long-term liabilities.	(9,573,693)
Net position (deficit) of governmental activities	<u><u>\$ (181,795,513)</u></u>

See accompanying notes to financial statements.

THE CITY OF NEW YORK

The reconciliation of the net change in fund balances of governmental funds to the change in net position of governmental activities in the Statement of Net Position is presented in an accompanying schedule.

See accompanying notes to financial statements.

THE CITY OF NEW YORK
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2015
 (in thousands)

Net change in fund balances—governmental funds		\$ 2,104,944
Amounts reported for <i>governmental activities</i> in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		
Purchases of capital assets	\$ 5,528,102	
Depreciation expense	<u>(3,428,753)</u>	2,099,349
The net effect of various miscellaneous transactions involving capital assets and other (<i>i.e.</i> sales, trade-ins, and donations) is to decrease net position		(548,216)
The issuance of long-term debt (<i>i.e.</i> , bonds, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Proceeds from sales of bonds.	(10,136,264)	
Principal payments of bonds.	7,422,523	
Other.	<u>307,849</u>	(2,405,892)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds		116,332
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds		9,354,113
Net pension liability		(5,400,902)
OPEB liability		4,000,570
Pollution remediation obligations		<u>(12,624)</u>
Change in net position—governmental activities.		<u>\$ 9,307,674</u>

See accompanying notes to financial statements.

THE CITY OF NEW YORK
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2014
 (in thousands)

Net change in fund balances—governmental funds	\$(1,516,172)
--	---------------

Amounts reported for *governmental activities* in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Purchases of capital assets	\$ 5,289,193	
Depreciation expense	<u>(2,973,430)</u>	2,315,763

The net effect of various miscellaneous transactions involving capital assets and other (<i>i.e.</i> sales, trade-ins, and donations) is to decrease net position	(1,074,426)
--	-------------

The issuance of long-term debt (*i.e.*, bonds, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Proceeds from sales of bonds	(8,358,316)	
Principal payments of bonds	5,990,099	
Other	<u>157,685</u>	(2,210,532)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds	(608,487)
---	-----------

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds	(9,623,111)
---	-------------

Net pension liability	13,343,041
-----------------------------	------------

OPEB liability	3,036,224
----------------------	-----------

Pollution remediation obligations	<u>(20,853)</u>
---	-----------------

Change in net position—governmental activities	<u>\$ 3,641,447</u>
--	---------------------

THE CITY OF NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015 and 2014

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of The City of New York (City or primary government) are presented in conformity with Generally Accepted Accounting Principles (GAAP) for state and local governments in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The amounts shown in the “City” and “component units” columns of the accompanying government-wide financial statements are only presented to facilitate financial analysis and are not the equivalent of consolidated financial statements.

The following is a summary of the significant accounting policies and reporting practices of the City:

1. Reporting Entity

The City is a municipal corporation governed by the Mayor and the City Council. The City’s operations also include those normally performed at the county level and, accordingly, transactions applicable to the operations of the five counties that comprise the City are included in these financial statements.

The financial reporting entity consists of the City and its component units, which are legally separate organizations for which the City is financially accountable.

The City is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if City officials appoint a voting majority of an organization’s governing body and, either the City is able to impose its will on that organization, or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the City. The City may also be financially accountable for organizations that are fiscally dependent on the City if there is a potential for the organizations to provide specific financial benefits to the City or impose specific financial burdens on the City, regardless of whether the organizations have separate elected governing boards, governing boards appointed by higher levels of government, or jointly appointed boards. The City is financially accountable for all of its component units.

Most component units are included in the financial reporting entity by discrete presentation. Some component units, despite being legally separate from the City, are so integrated with the City that they are in substance part of the City. These component units are blended with the City.

The New York City Transit Authority is an affiliated agency of the Metropolitan Transportation Authority of the State of New York, which is a component unit of New York State and is thus excluded from the City’s financial reporting entity.

Blended Component Units

These component units, although legally separate, are reported as if they were part of the City, because they provide services exclusively to the City. They include the following:

New York City Transitional Finance Authority (TFA). TFA, a corporate governmental agency constituting a public benefit corporation and instrumentality of the State of New York, was created in 1997 to issue and sell bonds and notes to fund a portion of the capital program of the City, the purpose of which is to maintain, rebuild, and expand the infrastructure of the City and to pay TFA’s administrative expenses.

TFA is authorized to have outstanding \$13.5 billion of Future Tax Secured Bonds. In addition, TFA is authorized to issue additional Future Tax Secured Bonds provided that the amount of such additional bonds, together with the amount of indebtedness contracted by the City, does not exceed the debt limit of the City. TFA is also allowed to issue up to 20 percent of its total outstanding Future Tax Secured Bonds as variable rate bonds. As of June 30, 2015, the City’s and TFA’s combined debt-incurring capacity was approximately \$21.7 billion. TFA is also authorized to have outstanding Recovery Bonds of \$2.5 billion to fund the City’s costs related to, and arising from, events on September 11, 2001 at the World Trade Center, notwithstanding the limits discussed above. Further, legislation enacted in April 2006 enables TFA to have outstanding up to \$9.4 billion of Building Aid Revenue Bonds (BARBs), notes, or other obligations for purposes of funding costs of the five-year educational facilities capital plan for the City school system and TFA’s administrative expenditures. As of June 30, 2015, \$7.4 billion of BARBs have been issued and are outstanding.

TFA does not have any employees; its affairs are administered by employees of the City and of another component unit of the City, for which TFA pays a management fee and overhead based on its allocated share of personnel and overhead costs.

TSASC, Inc. (TSASC). TSASC is a special purpose, local development corporation organized under the not-for-profit corporation law of the State of New York. TSASC is an instrumentality of the City, but is a separate legal entity from the City.

Pursuant to a purchase and sale agreement with the City, the City sold to TSASC all of its future right, title, and interest in the tobacco settlement revenues (TSRs) under the Master Settlement Agreement and the Decree and Final Judgment. This settlement agreement resolved cigarette smoking-related litigation between the settling states and participating manufacturers, released the participating manufacturers from past and present smoking-related claims, and provides for a continuing release of future smoking-related claims in exchange for certain payments to be made to the settling states, as well as certain tobacco advertising and marketing restrictions, among other things. The City is allocated a share of the TSRs received by New York State. The future rights, title, and interest of the City to the TSRs were sold to TSASC.

The purchase price of the City's future right, title, and interest in the TSRs was financed by the issuance of a series of bonds and the Residual Certificate.

Under the Amended and Restated Indenture dated January 1, 2006 (Indenture), the Residual Certificate represents the entitlement to receive all amounts in excess of specified percentages of TSRs and other revenues (Collections) used to fund debt service and operating expenses of TSASC. The Collections in excess of the specified percentages will be transferred to the TSASC Tobacco Settlement Trust (Trust), as owner of the Residual Certificate and then to the City as the beneficial owner of the Trust.

The Indenture provides that a specified percentage of Collections are pledged (Pledged), and required to be applied to the payment of debt service and operating costs. The Pledged percentage is 37.40% and is subject to reduction at June 1, 2024, and at each June 1st thereafter, depending on the magnitude of cumulative bond redemptions under the turbo redemption feature of Series 2006-1 bonds (which requires all Pledged Collections, after payment of operating costs, to be applied to payment of principal of and interest on Series 2006-1 bonds).

TSASC does not have any employees; its affairs are administered by employees of the City and of another component unit of the City, for which TSASC pays a management fee, rent, and overhead based on its allocated share of personnel and overhead costs.

New York City Educational Construction Fund (ECF). ECF was created in 1967 as a corporate governmental agency of the State of New York, constituting a public benefit corporation. ECF was established to develop combined occupancy structures containing school and nonschool portions. ECF was created by the Education Law of the State and is authorized to issue bonds, notes, or other obligations to finance those projects.

New York City School Construction Authority (SCA). SCA is a public benefit corporation created by the New York State Legislature in 1988. SCA's responsibilities as defined in the enabling legislation, are the design, construction, reconstruction, improvement, rehabilitation and repair of the City's public schools. SCA is governed by a three-member Board of Trustees all of whom are appointed by the Mayor, which includes the Schools Chancellor of the City, who serves as the Chairman.

SCA's operations are funded by appropriations made by the City, which are based on a five-year capital plan (Plan), developed by the New York City Department of Education (DOE). The City's Plan for the fiscal years 2015 through 2019 anticipates City appropriations of \$13.47 billion.

SCA carries out certain projects funded by the City Council and Borough Presidents, pursuant to the City Charter.

As SCA represents a pass-through entity, in existence for the sole purpose of construction capital projects, all expenditures are capitalized into construction-in-progress. Upon completion of projects, the assets are transferred to DOE.

Fiscal Year 2005 Securitization Corporation (FSC). FSC was established in 2004 as a special purpose, bankruptcy-remote, local development corporation organized under the not-for-profit corporation law of the State of New York. FSC is a financing instrumentality of the City, but is a separate legal entity from the City. FSC was formed for the purpose of issuing bonds; a major portion of the proceeds of \$499 million of bonds issued in December 2004 was used to acquire securities held in an escrow account securing City General Obligation Bonds of the City. The securities, which are held in a trust by the trustee for FSC, as they mature, are expected to generate sufficient cash flow to fund the debt service and operational expenditures of FSC for the life of FSC's bonds.

FSC does not have any employees; its affairs are administered by employees of the City and of another component unit of the City, for which FSC pays a management fee and overhead based on its allocated share of personnel and overhead costs.

Sales Tax Asset Receivable Corporation (STAR). STAR is a special purpose, bankruptcy remote, local development corporation organized under the not-for-profit corporation law of the State of New York. STAR is a financing instrumentality of the City, but separate and apart from the City.

Section 3238-a of the New York State Public Authorities Law, which terminates on July 1, 2034, requires that \$170 million be paid annually by the New York State Local Government Assistance Corporation to the City or its assignee. STAR used the proceeds of its November 4, 2004 bond issue (2005 Series A and B) to provide for the payment of the principal and interest and redemption premium, if any, on all outstanding bonds of the Municipal Assistance Corporation for The City of New York (MAC) and to reimburse the City for amounts retained by MAC since July 1, 2003 for debt service. The payment of the outstanding MAC bonds resulted in the receipt by the City of tax revenues that would otherwise have been paid to MAC for the payment of debt service on MAC's bonds.

On October 15, 2014, STAR issued \$2 billion of bonds (2015 Series A and B) and released the debt service reserve, which along with the proceeds allowed STAR to refund all of its outstanding 2005 Series A and B bonds and make a payment to TFA to defease its debt and which is intended to confer savings to the City over the following four years.

STAR does not have any employees; its affairs are administered by employees of the City and of another component unit of the City, for which STAR pays a management and overhead fee based on its allocated share of personnel and overhead costs. STAR is governed by a Board of Directors elected by its six members, all of whom are officials of the City.

Hudson Yards Development Corporation (HYDC). HYDC, a local development corporation organized by the City under the not-for-profit corporation law of the State of New York, began operations in 2005 to manage and implement the City's economic development initiative for the development and redevelopment activities (Project) of the Hudson Yards area on the West Side of Manhattan (Project Area). HYDC is governed by a Board of thirteen Directors, a majority of whom are appointed by the Mayor. HYDC works with various City and State agencies and authorities, and with private developers, on the design, construction and implementation of the various elements of the Project, and to further private development and redevelopment of the Project Area.

Hudson Yards Infrastructure Corporation (HYIC). HYIC, a local development corporation organized by the City under the not-for-profit corporation law of the State of New York, began operations in 2005 for the purpose of financing certain infrastructure improvements in the Hudson Yards area on the West Side of Manhattan (Project). HYIC does not engage in development directly, but finances development spearheaded by HYDC and carried out by existing public entities. HYIC fulfills its purpose through the issuance of bonds to finance the Project, including the operations of HYDC, and by collecting revenues, including payments in lieu of taxes and district improvement bonuses from private developers and appropriations from the City, to support its operations and pay principal and interest on its outstanding bonds. HYIC is governed by a Board of Directors elected by its five Members, all of whom are officials of the City. HYIC's Certificate of Incorporation requires the vote of an independent director as a condition to taking certain actions; the independent director would be appointed by the Mayor prior to any such actions.

HYIC does not have any employees; its affairs are administered by employees of the City and of another component unit of the City, for which HYIC pays a management fee and overhead based on its allocated share of personnel and overhead costs.

New York City Tax Lien Trusts (NYCTLTs). The NYCTLTs are Delaware statutory trusts, which were created to acquire certain tax liens from the City in exchange for the proceeds from bonds issued by the NYCTLTs, net of reserves funded by the bond proceeds and bond issuance costs. The City is the sole beneficiary to the NYCTLTs and is entitled to receive distributions from the NYCTLTs after payments to the bondholders and certain reserve requirements have been satisfied. The NYCTLTs do not have any employees. The NYCTLTs' affairs are administered by the owner trustee, its program manager, tax lien servicer, paying agent and investment custodian.

The NYCTLTs are:

- NYCTLT 1998-2
- NYCTLT 2011-A
- NYCTLT 2012-A
- NYCTLT 2013-A
- NYCTLT 2014-A
- NYCTLT 2015-A

NYC Technology Development Corporation (TDC). TDC is a type C not-for-profit corporation organized under the not-for-profit law of the State of New York. TDC's contract with the City was registered on December 24, 2012, and began operations on January 1, 2013. For fiscal year 2016, a one year contract renewal was registered to be effective on July 1, 2015. Pursuant to this contract, TDC receives quarterly payments from the City that cover its projected expenses for the forthcoming quarter and those contractual payments are TDC's sole source of revenue.

TDC was incorporated for the purpose of enhancing the City's ability to effectively manage and deploy information technology (IT) projects through (i) attracting, developing and retaining highly experienced and skilled IT professionals; (ii) successfully delivering large, critical and cross-agency IT projects in a timely and cost-effective manner; (iii) providing a common framework, resources, best practices and diagnostics for large IT projects; and (iv) providing and supporting citywide governance over IT programs, environments and services.

Under its contract with the City, TDC provides four broad categories of program services: (i) senior management services; (ii) solution architect services; (iii) multi-agency vendor management services; and (iv) portfolio management and additional IT consulting services.

TDC is governed by a Board of Directors appointed by the Mayor. The Board may have up to seven members and is required to have a minimum of three members.

Discretely Presented Component Units

All discretely presented component units are legally separate from the City. These entities are reported as discretely presented component units because the City appoints a majority of these organizations' boards, and is able to impose its will on them or a financial benefit/burden situation exists; or if they are fiscally dependent on the City and a financial benefit or burden relationship also exists regardless of city control.

The component units column in the government-wide financial statements includes the financial data of these entities, which are reported in a separate column to emphasize that they are legally separate from the City. They include the following:

New York City Health and Hospitals Corporation (HHC). HHC, a public benefit corporation, assumed responsibility for the operation of the City's municipal hospital system in 1970. HHC provides the full continuum of care including primary and specialty care, inpatient acute, outpatient, long-term care, and home health services.

HHC's financial statements include the accounts of HHC and its blended component units, HHC Insurance Company, Inc., HHC Capital Corporation, HHC Physicians Purchasing Group, Inc., HHC Risk Services Corporation, HHC ACO Inc. and HHC Assistance Corporation. HHC's Financial Statements also include MetroPlus, a discretely presented component unit.

HHC mainly provides, on behalf of the City, comprehensive medical and mental health services to City residents regardless of ability to pay. Funds appropriated from the City are direct or indirect payments made by the City on behalf of HHC for patient care rendered to prisoners, uniformed City employees and various discretely funded facility-specific programs; for interest on City General Obligation debt which funded HHC capital acquisitions; for funding for collective bargaining agreements; and for settlements of claims for medical malpractice, negligence, other torts, and alleged breach of contracts and payments by the City. Reimbursement by HHC is negotiated annually with the City.

New York City Housing Development Corporation (HDC). HDC, a corporate governmental agency constituting a public benefit corporation of the State of New York, was established in 1971 to encourage the investment of private capital through low-interest mortgage loans in order to increase the supply of safe and sanitary dwelling accommodations for families and persons whose need for housing accommodations cannot be provided by unassisted private enterprise. To accomplish its objectives HDC is empowered to finance housing through new construction or rehabilitation and to provide permanent financing for multi-family residential housing. HDC finances significant amounts of its activities through the issuance of bonds, notes and debt obligations. The bonds, notes and debt obligations of HDC are not debts of either the State or the City. The combined financial statements include: (i) the accounts of HDC and (ii) two active discretely presented component units: the New York City Housing Assistance Corporation and the New York City Residential Mortgage Insurance Corporation. HDC also includes the Housing New York Corporation, which became an inactive subsidiary of HDC on November 3, 2003 and is not expected to be dissolved, and the NYC HDC Real Estate Owned Corporation, a blended component of HDC that has not been active in recent years.

New York City Housing Authority (HA). HA is a public benefit corporation created in 1934 under the New York State Public Housing Law. HA develops, constructs, manages, and maintains affordable housing for eligible low income families in the City. HA also maintains a leased housing program, which provides housing assistance payments to families.

Substantial operating losses result from the essential services that HA provides exceeding revenues, and such operating losses will continue in the foreseeable future. To meet the funding requirements of these operating losses, HA receives subsidies from: (a) the Federal government, primarily the U.S. Department of Housing and Urban Development, in the form of annual grants for operating assistance, debt service payments, contributions for capital, and reimbursement of expenditures incurred for certain Federal housing

programs; (b) New York State in the form of debt service and capital payments; and (c) the City in the form of debt service and capital payments. Subsidies are established through budgetary procedures, which establish amounts to be funded by the grantor agencies.

New York City Industrial Development Agency (IDA). IDA is a public benefit corporation established in 1974 to actively promote, retain, attract, encourage, and develop an economically sound commerce and industry base to prevent unemployment and economic deterioration in the City. IDA assists industrial, commercial, and not-for-profit organizations in obtaining long-term, low-cost financing for Capital Assets through a financing transaction, which includes the issuance of double and triple tax-exempt industrial development bonds (IDBs). The participating organizations, in addition to satisfying legal requirements under IDA's governing laws, must meet certain economic development criteria, the most important of which is job creation and/or retention. The straight lease provides tax benefits to the participants to incentivize the acquisition and capital improvement of their facilities. Whether IDA issues IDBs or enters into a straight lease, IDA may provide one or more of the following tax benefits: exemption from mortgage recording tax; payments in lieu of real property tax that are less than full taxes; and exemption from City and State sales and use taxes as applied to construction materials, machinery and equipment. IDA is governed by a Board of Directors, which establishes official policies and reviews and approves requests for financing assistance. Its membership is prescribed by statute and includes public officials and mayoral appointees.

New York City Economic Development Corporation (EDC). EDC was organized under the New York State not-for profit Corporation law. EDC's financial statements include the assets, liabilities, net position and financial activities of EDC. Apple Industrial Development Corporation, formerly a component unit of EDC, merged with EDC on October 1, 2014. EDC renders a variety of services and administers certain economic development programs on behalf of the City, relating to attraction, retention, and expansion of commerce and industry in the City. These services and programs include encouragement of construction, acquisition, rehabilitation, and improvement of commercial and industrial enterprises within the City, and provision of grants to qualifying business enterprises as a means of helping to create and retain employment therein.

Business Relocation Assistance Corporation (BRAC). BRAC is a not-for-profit corporation incorporated in 1981 according to the not-for-profit corporation law of the State of New York for the purpose of implementing and administering the Relocation Incentive Program (RIP) and other related programs. BRAC provides relocation assistance to qualifying commercial and manufacturing firms moving within the City.

All conversion contributions received by BRAC under previous zoning regulations are restricted for the use of administering industrial retention/relocation programs. One such program, the Industrial Relocation Grant Program, provides grants up to \$30,000 to eligible New York City manufacturing firms to defray their moving costs. Grants are paid as reimbursement of moving costs after a firm completes its relocation. This program will continue to operate only with the current accumulated net position now available.

In Fiscal Year 2007, BRAC had received \$1.5 million in contributions from EDC to administer the Greenpoint Relocation Program. This program is intended to help defray relocation costs for those manufacturing and industrial firms that may need to relocate due to the rezoning of the Greenpoint-Williamsburg area of Brooklyn by providing for maximum grants of \$50,000. As of June 30, 2015, the BRAC fund was valued at \$.4 million, and grants for both Industrial Relocation Grant and Greenpoint Relocation Program will be available until funds are exhausted.

Brooklyn Navy Yard Development Corporation (BNYDC). BNYDC was organized in 1966 as a not-for-profit corporation according to the not-for-profit corporation law of the State of New York. The primary purpose of BNYDC is to provide economic rehabilitation in Brooklyn, to revitalize the economy, and create job opportunities. In 1971, BNYDC leased the Brooklyn Navy Yard from the City for the purpose of rehabilitating it and attracting new businesses and industry to the area. That lease was amended, restated and the term extended by a lease commencing July 1, 2012, for a period of 49 years with five 10-year extension periods. The Mayor appoints the majority of the members of BNYDC's Board of Directors.

New York City Water and Sewer System (the System). The System provides water supply, treatment and distribution, and sewage collection, treatment, and disposal for the City and began operations in July, 1985. The System is a joint operation consisting of two legally separate and independent entities. The New York City Municipal Water Finance Authority (Water Authority) is a public benefit corporation created in accordance with the New York City Municipal Water Finance Act in 1984. The New York City Water Board (Water Board) was created by the laws of 1984. The Water Authority issues bonds or notes to finance the cost of capital improvements and to refund all outstanding bonds and general obligation bonds of the City issued for water and sewer purposes. The Water Board leases the System from the City and fixes and collects rates, fees, rents and other charges for the use of, or for services furnished, or made available by, the System to produce cash sufficient to pay debt service on the Water Authority's bonds and to put the System on a self-sustaining basis. The physical operation and capital improvements of

the System are performed by the City's Department of Environmental Protection subject to contractual agreements with the Water Authority and the Water Board.

WTC Captive Insurance Company, Inc. (WTC Captive). WTC Captive is a not-for-profit corporation incorporated in the State of New York in 2004 in response to the events of September 11, 2001. WTC Captive was funded with \$999.9 million in funds by the Federal Emergency Management Agency (FEMA) and used this funding to support a liability insurance contract (Contract) that provides specified coverage (general liability, environmental liability, professional liability, and marine liability) against certain third-party claims made against the City and approximately 145 contractors and subcontractors working on the City's FEMA-funded debris removal project. Coverage is provided on both an excess of loss and first dollar basis, depending on the line of coverage. WTC Captive uses deposit accounting, which is applicable when no insurance risk is transferred in an insurance contract. Additionally, as all of WTC Captive's resources must be used to satisfy obligations under the Contract or returned, it reports only changes to its liabilities and no net position. See also Judgements and Claims in Note E5.

Brooklyn Bridge Park Corporation (BBPC). BBPC is a not-for-profit corporation incorporated in the State of New York in 2010. BBPC was formed for the purposes of lessening the burdens of government by further developing and enhancing the economic vitality of the Brooklyn waterfront through the development, operation, and maintenance of a renovated waterfront area, including a public park, which serves the people of the New York City region. BBPC is responsible for the planning, construction, maintenance, and operation of Brooklyn Bridge Park, an 85 acre sustainable water front park stretching 1.3 miles along Brooklyn's East River shoreline. The majority of BBPC's funding comes from a limited number of revenue-generating development sites within the project's footprint. BBPC is governed by a 17-member Board of Directors appointed by the Mayor, the Governor of New York State and local elected officials.

Governors Island Corporation, doing business as **The Trust for Governors Island (TGI)**, is a not-for-profit corporation incorporated in the State of New York in 2010. TGI was formed for the purposes of lessening the burdens of government by providing the planning, preservation, redevelopment and ongoing operations and maintenance of approximately 150 acres of Governors Island plus surrounding lands underwater. TGI opened 30 acres of new park space in 2014 and is proceeding with an ambitious infrastructure program to ready the Island for expanded tenancy and activity. TGI receives funding from the City and State of New York. TGI is governed by a 13-member Board of Directors appointed by the Mayor and nominated by the Mayor, the Governor of the State of New York, and local officials.

Build NYC Resource Corporation (Build NYC). Build NYC is a local development corporation organized under the not-for-profit Corporation law of New York State to assist entities eligible under the Federal tax laws in obtaining tax-exempt bond and taxable bond financing; it began operating in 2011. Build NYC's primary goal is to facilitate access to private activity tax-exempt bond financing for eligible entities to acquire, construct, renovate, and/or equip their facilities as well as refinance previous financing transactions. Build NYC is governed by a Board of Directors, comprised of public officials and appointees of the Mayor.

New York City Land Development Corporation (LDC). LDC was formed on May 8, 2012, as a local development corporation organized under the not-for-profit law of New York State. LDC assists the City with leasing and selling certain properties for the purpose of economic development. The mission of LDC is to encourage economic growth throughout the five boroughs of the City by acquiring City-owned property and disposing of it to strengthen the City's competitive position and facilitate investments that build capacity, generate economic opportunity and improve the quality of life.

New York City Neighborhood Capital Corporation (NYCNCC). NYCNCC was incorporated in July of 2014 under Section 402 of the not-for-profit Corporation Law of the State of New York. NYCNCC was formed for the following purposes: a) to make qualified low income community investments in the service area of the City, b) to operate as a qualified Community Development Entity (CDE) under the Federal new markets tax credit program, c) to form and manage subsidiary limited liability companies which are certified as CDEs to receive equity contributions, which will be utilized primarily to make qualified low-income community investments, and d) to engage in all activities consistent with the business of NYCNCC.

Note: All of the component units publish separate annual financial statements, which are available at: Office of the Comptroller, Bureau of Accountancy—Room 200 South, 1 Centre Street, New York, New York 10007, or at www.comptroller.nyc.gov.

2. Basis of Presentation

Government-Wide Statements: The government-wide financial statements (the *Statement of Net Position* and the *Statement of Activities*) display information about the City and its component units. These statements include the financial activities of the overall government except for fiduciary activities. Eliminations of internal activity have been made in these statements. The City is reported separately from certain legally separate component units, for which the City is financially accountable. All of the activities of the City are governmental activities.

The *Statement of Activities* presents a comparison between program expenses, which include allocated indirect expenses, and program revenues for each function of the City's governmental activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (i) charges for services such as rental revenue from operating leases on markets, ports, and terminals and (ii) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or program. Taxes and other revenues, not properly included among program revenues, are reported as general revenues.

Fund Financial Statements: The fund financial statements provide information about the City's funds, including blended component units. Separate statements for the governmental and fiduciary fund categories are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The City uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The City's funds are classified into two categories: governmental and fiduciary; each category, in turn, is divided into separate "fund types." The City has no proprietary funds, only proprietary component units.

The City reports the following major governmental funds:

General Fund. This is the general operating fund of the City. Substantially all tax revenues, Federal and State aid (except aid for capital projects), and other operating revenues are accounted for in the General Fund. This fund also accounts for expenditures and transfers as appropriated in the expense budget, which provides for the City's day-to-day operations, including transfers to Debt Service Funds for payment of long-term liabilities. The fund balance in the General Fund is reported as nonspendable.

Capital Projects Fund. This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital Projects Funds exclude capital-related outflows financed by component unit proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. Resources of the Capital Projects Fund are derived principally from proceeds of City and TFA bond issues, payments from the Water Authority, and from Federal, State, and other aid.

General Debt Service Fund. This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest. This fund, into which payments of real estate taxes and other revenues are deposited in advance of debt service payment dates, is required by State legislation and is administered and maintained by the State Comptroller. Debt service on all City notes and bonds is paid from this fund.

Nonmajor Governmental Funds. The City reports the following blended component units within the Nonmajor Governmental Funds: **TFA, TSASC, ECF, SCA, FSC, STAR, HYDC, HYIC, NYCTLTs and TDC.** If a component unit is blended, the governmental fund types of the component unit are blended with those of the City by including them in the appropriate combining statements of the City. Although the City's General Fund is usually the main operating fund of the reporting entity, the General Fund of a blended component is reported as a Special Revenue Fund. The City does not have other Special Revenue Funds.

Additionally, the City reports the following fund types:

Fiduciary Funds

The fiduciary funds are used to account for assets and activities when a governmental unit is functioning either as a trustee or an agent for another party. The City's fiduciary funds fall into two categories:

The **Pension and Other Employee Benefit Trust Funds** account for the operations of:

- Pension Trusts
 - New York City Employees' Retirement System (NYCERS)
 - Teachers' Retirement System of The City of New York (TRS)
 - New York City Board of Education Retirement System (BERS)
 - New York City Police Pension Funds (POLICE)
 - New York City Fire Pension Funds (FIRE)

- Deferred Compensation Plans (DCP)
- The New York City Other Postemployment Benefits Plan (the OPEB Plan)

Each of the pension trusts report all jointly administered plans including primary pension (QPPs), and variable supplements funds (VSFs) and/or tax deferred annuity plans (TDAs), as appropriate. In previous years, the City's financial statements grouped the pension trusts by type (primary pensions, VSFs) rather than as systems. The new presentation is preferable because it more clearly illustrates the relationships between plans within a pension system, and between the systems and the City. While the VSFs are included with QPPs for financial reporting purposes, in accordance with the Administrative Code of The City of New York (ACNY), VSFs are not pension funds or retirement systems. Instead, they provide scheduled supplemental payments, in accordance with applicable statutory provisions. While a portion of these payments are guaranteed by the City, the State has the right and power to amend, modify, or repeal VSFs and the payments they provide. However, any assets transferred to the VSFs are held in trust solely for the benefit of its members. More information is available in note E.5.

The Deferred Compensation Plans report the various jointly administered Deferred Compensation Plans of The City of New York and related agencies and Instrumentalities and the New York City Employee Individual Retirement Account (NYCEIRA).

Note: These fiduciary funds publish separate annual financial statements, which are available at: Office of the Comptroller, Bureau of Accountancy—Room 200 South, 1 Centre Street, New York, New York 10007, or at www.comptroller.nyc.gov.

These funds use the accrual basis of accounting and a measurement focus on the periodic determination of additions, deductions, and net position restricted for benefits.

The **Agency Funds** account for miscellaneous assets held by the City for other funds, governmental units, and individuals. School fundraiser monies for scholarships, federal asset forfeiture for investigative purposes, and cash bail for use by the surety/assignee, are the major miscellaneous assets accounted for in these funds. The Agency Funds are custodial in nature and do not involve measurement of results of operations.

Discretely Presented Component Units

The discretely presented major component units consist of **HHC, HDC, HA, EDC**, and **NYW**. The discretely presented nonmajor components units are **IDA, BRAC, BNYDC, WTC Captive, BBPC, TGI, LDC, Build NYC, and NYCNCC**. Their activities are accounted for in a manner similar to private business enterprises, in which the focus is on the periodic determination of revenues, expenses, and net income.

Changes in Reporting Entity

On July 28, 2014, the NYC Neighborhood Capital Corporation (NYCNCC) was incorporated under the not-for-profit corporation law of the State of New York. The City is financially accountable for NYCNCC because it appoints a voting majority of NYCNCC's governing body and is able to impose its will on NYCNCC. Thus NYCNCC has been incorporated as a discretely presented component unit.

New Accounting Standards Adopted

In Fiscal Year 2015, the City adopted Statement No. 72 of the Government Accounting Standards Board, entitled, *Fair Value Measurement and Application*.

Statement No. 72 requires the City to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach or an income approach. Statement No. 72 establishes a hierarchy of inputs used to measure fair value consisting of three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage-backed security.

Statement No. 72 also contains note disclosure requirements regarding the hierarchy of valuation inputs and valuation techniques that was used for the fair value measurements. There was no material impact on the City's financial statement as a result of the implementation of Statement No. 72. All required disclosures were added to Notes A.12 and D.1.

3. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting in which revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions include: sales and income taxes, property taxes, grants, entitlements and donations, and are recorded on the accrual basis of accounting. Revenues from sales and income taxes are recognized when the underlying exchange transaction takes place.

Revenues from property tax are recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds use the flow of current financial resources measurement focus. This focus is on the determination of and changes in financial position, and generally only current financial resources and current liabilities are included on the balance sheet although certain receivable amounts may not be currently available. These funds use the modified accrual basis of accounting, whereby revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the fiscal period. Revenues from taxes are generally considered available if received within two months after the fiscal year-end. Revenues from categorical and other grants are generally considered available if expected to be received within one year after the fiscal year-end. Expenditures are recorded when the related liability is incurred and payment is due, except for principal and interest on long-term debt, pensions, post employment benefits other than pensions and certain other estimated liabilities, which are recorded only when payment is due.

The measurement focus of the Pension and Other Employee Benefit Trust Funds and Other Trust Funds is on the flow of economic resources. This focus emphasizes the determination of and changes in net position. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the balance sheet. These funds use the accrual basis of accounting whereby revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred.

The Agency Funds use the accrual basis of accounting and do not measure the results of operations.

4. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures are recorded to reflect the use of the applicable spending appropriations, is used by the General Fund during the fiscal year to control expenditures. The cost of those goods received and services rendered on or before June 30 are recognized as expenditures. Encumbrances not resulting in expenditures by year-end, lapse.

5. Cash and Investments

The City considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased, to be cash equivalents. Cash equivalents are carried at amortized cost which approximates fair value.

The annual average collected bank balances maintained during Fiscal Years 2015 and 2014 were approximately \$2.15 billion and \$1.25 billion, respectively.

Investments are reported in the balance sheet at fair value. Investment income, including changes in the fair value of investments, is reported in operations.

Investments in fixed income securities are recorded at fair value. Securities purchased pursuant to agreements to resell are carried at the contract price, exclusive of interest, at which the securities will be resold.

Investments of the Pension and Other Employee Benefit Trust Funds and Other Trust Funds are reported at fair value. Investments are stated at the last reported sales price on a national securities exchange or as priced by a nationally recognized securities pricing service as on the last business day of the fiscal year, except for securities held as alternative investments where fair value is determined by the general partners or other experts of the partnerships.

A description of the City's fiduciary funds securities lending activities in Fiscal Years 2015 and 2014 is included in Deposits and Investments (see Note D.1).

6. Inventories

Inventories on hand at June 30, 2015 and 2014, estimated at \$377 million and \$348 million, respectively, based on average cost have been reported on the government-wide *Statement of Net Position*. Inventories are recorded as expenditures in governmental funds at the time of purchase, and accordingly have not been reported on the governmental funds balance sheet.

7. Restricted Cash and Investments

Certain proceeds of the City and component unit bonds, as well as certain resources set aside for payments to bond holders, are classified as restricted cash and investments on the balance sheet, because their use is limited by applicable bond covenants.

8. Capital Assets

Capital assets include all land, buildings, equipment (including software), water distribution and sewage collection system, and other elements of the City's infrastructure having an initial minimum useful life of five years, having a cost of more than \$35 thousand, and having been appropriated in the Capital Budget (see Note C.1). Capital assets, which are used for general governmental purposes and are not available for expenditure, are accounted for and reported in the government-wide financial statements. Infrastructure elements include the roads, bridges, curbs and gutters, streets and sidewalks, park land and improvements, piers, bulkheads and tunnels. The capital assets of the water distribution and sewage collection system are recorded in the Water and Sewer System component unit financial statements under a lease agreement between the City and the Water Board.

Capital assets are generally stated at historical cost, or at estimated historical cost, based on appraisals or on other acceptable methods when historical cost is not available. Donated capital assets are stated at their fair market value as of the date of the donation. Capital leases are classified as capital assets in amounts equal to the lesser of the fair market value or the present value of net minimum lease payments at the inception of the lease (see Note D.3).

Accumulated depreciation and amortization are reported as reductions of capital assets. Depreciation is computed using the straight-line method based upon estimated useful lives of generally 25 to 50 years for new construction, 10 to 25 for betterments and/or reconstruction, 5 to 15 years for equipment (including software), and 15 to 40 years for infrastructure. Capital lease assets and leasehold improvements are amortized over the term of the lease or the life of the asset, whichever is less.

9. Vacation and Sick Leave

Earned vacation and sick leave is recorded as an expenditure in the period when it is payable from current financial resources in the fund financial statements. The estimated value of vacation leave earned by employees, which may be used in subsequent years, and earned vacation and sick leave to be paid upon termination or retirement from future resources is recorded as a liability in the government-wide financial statements.

10. Judgments and Claims

The City is uninsured with respect to risks including, but not limited to, property damage, personal injury, and workers' compensation. In the fund financial statements, expenditures for judgments and claims (other than workers' compensation and condemnation proceedings) are recorded on the basis of settlements reached or judgments entered within the current fiscal year. Expenditures for workers' compensation are recorded when paid. Settlements relating to condemnation proceedings are reported when the liability is estimable. In the government-wide financial statements, the estimated liability for all judgments and claims incurred but not yet expended is recorded as a noncurrent liability.

11. Long-Term Liabilities

For long-term liabilities, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. All long-term liabilities are reported in the government-wide financial *Statement of Net Position*. Long-term liabilities expected to be financed from discretely presented component units' operations are accounted for in those component units' financial statements.

12. Derivative Instruments

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2015, classified by type, and the changes in fair value of such derivative instruments for the fiscal year then ended as reported in the 2015 financial statements are as follows:

		Changes in Fair Value from June 30, 2014		Fair Value at June 30, 2015		
Item		Classification	Amount	Classification	Amount	Notional
(in thousands)						
Governmental Activities						
Cashflow Hedges:						
H	Pay-Fixed interest rate swap	Deferred Outflow	\$(3,278)	Debt	\$(40,049)	\$250,000
J	Pay-Fixed interest rate swap	Deferred Outflow	(115)	Debt	0	0
L	Pay-Fixed interest rate swap	Deferred Outflow	(582)	Debt	(1,245)	44,145
Investment derivative instruments:						
A	Pay-Fixed interest rate swap	Investment Revenue	(1,330)	Investment	(17,035)	190,307
B	Pay-Fixed interest rate swap	Investment Revenue	(444)	Investment	(5,679)	63,436
C	Pay-Fixed interest rate swap	Investment Revenue	(444)	Investment	(5,679)	63,436
D	Pay-Fixed interest rate swap	Investment Revenue	(444)	Investment	(5,679)	63,436
E	Pay-Fixed interest rate swap	Investment Revenue	1,100	Investment	(14,537)	116,100
F	Pay-Fixed interest rate swap	Investment Revenue	210	Investment	0	0
G	Basis Swap	Investment Revenue	6,705	Investment	2,336	364,100
H	Pay-Fixed interest rate swap	Investment Revenue	(1,473)	Investment	(16,181)	100,000
K	Basis Swap	Investment Revenue	12,878	Investment	(11,703)	500,000

Due to the full refunding of remaining outstanding 2003 C-2 bonds during Fiscal Year ended June 30, 2015, portions of swaps A,B,C and D are no longer treated as cash flow hedges. Accordingly, portions of the change in fair value of the swaps from June 30, 2014 to June 30, 2015 are reported within the investment revenue classification for the Fiscal Year ended June 30, 2015. Additionally, during the fiscal year ended June 30, 2015, the remaining portions of swaps F and J matured and are no longer outstanding.

Fair Value for the interest rate swaps is described as the exit price that assumes a transaction takes place in the City's most advantageous market in the absence of a principal market. These inputs include the mid-market valuation and then incorporates the credit risk of either the City or its counterparty and the bid/offer spread that would be charged to the City in order to transact. The mid-market values of the interest rate swaps were estimated using the income approach. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement date. The interest rate swaps are classified in Level 2 as their valuation relies primarily on observable inputs.

Hedging Derivative Instruments

The following table displays the objective and terms of the City's hedging derivative instruments outstanding at June 30, 2015, along with the credit rating of the associated counterparty. Regarding derivative instruments where the counterparty is unrated, the rating provided is of the counterparty's guarantor.

Item	Type	Objective	Notional Amount (in thousands)	Effective Date	Maturity Date	Terms	Counterparty Rating
H	Pay-Fixed interest rate swap	Hedge of changes in cash flows on the 2004 Series A bonds	\$250,000	7/14/2003	8/1/2031	2.964%; receive 61.85% of USD-LIBOR-BBA	Aa2/AA-
L	Pay-Fixed interest rate swap	Hedge of changes in cash flows on the 2005 Series J, K, and L Bonds	44,145	3/3/2005	8/1/2017	Pay 4.55%/4.63%/4.71%; receive CPI + 1.50% for 2015 maturity/CPI + 1.55% for 2016 maturity/CPI + 1.60% for 2017 maturity	Aa3/A+

LIBOR: London Interbank Offered Rate Index

CPI: Consumer Price Index

Risks

Credit risk: The City is exposed to credit risk on hedging derivative instruments. To minimize its exposure to loss related to credit risk, it is the City's policy to require counterparty collateral posting provisions in its hedging derivative instruments. These terms require full collateralization of the fair value of hedging derivative instruments (net of the effect of applicable threshold requirements and netting arrangements) should the counterparty's credit rating fall below the following:

The counterparty with respect to derivative instrument H is required to post collateral if its credit ratings goes below A2/A. Collateral posted is to be in the form of U.S. Treasury securities held by a third-party custodian. The City has never been required to access collateral. The counterparty with respect to derivative instruments L is required to post collateral if it has at least one rating below the double-A category.

It is the City's policy to enter into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements, should one party become insolvent or otherwise default on its obligations, closeout netting provisions permit the non-defaulting party to accelerate and terminate all outstanding transactions and net the transactions' fair values so that a single sum will be owed by, or owed to, the non-defaulting party.

The aggregate fair value of hedging derivative instruments requiring collateralization at June 30, 2015 was \$(41.29) million.

Interest rate risk: The City is exposed to interest rate risk on its swaps. On its pay-fixed, receive-variable interest rate swaps, as LIBOR or the Consumer Price Index decreases, the City's net payment on the swaps increases.

Basis risk: The City is exposed to basis risk on its pay-fixed interest rate swaps, because the variable-rate payments received by the City on these hedging derivative instruments are based on a rate or index other than interest rates the City pays on its hedged variable-rate debt, which is remarketed either daily or weekly. Under the terms of its synthetic fixed rate swap transactions, the City pays a variable rate on its bonds based on the Securities Industry and Financial Markets Association (SIFMA), but receives a variable rate on the swaps based on a percentage of LIBOR.

Tax risk: The City is at risk that a change in Federal tax rates will alter the fundamental relationship between the SIFMA and LIBOR Indices. A reduction in Federal tax rates, for example, will likely increase the City's payment on its underlying variable rate bonds in the synthetic fixed rate transactions and its variable payer rate in the basis swaps.

Termination risk: The City or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. The City is at risk that a counterparty will terminate a swap at a time when the City owes it a termination payment. The City has mitigated this risk by specifying that the counterparty has the right to terminate only as a result of certain events, including: a payment default by the City; other City defaults which remain uncured for 30 days after notice; City bankruptcy; insolvency of the City (or similar events); or a downgrade of the City's credit rating below investment grade (i.e., BBB-/Baa3). If at the time of termination, a hedging derivative instrument is in a liability position, the City would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements, if applicable.

Counterparty risk: The City is at risk that a counterparty will not meet its obligations under the swap. If a counterparty were to default under its agreement when the counterparty would owe a termination payment to the City, the City may have to pay another entity to assume the position of the defaulting counterparty. The City has sought to limit its counterparty risk by contracting only with highly rated entities or requiring guarantees of the counterparty's obligations under the swap documents.

Rollover risk: The City is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the hedged debt. When these hedging derivative instruments terminate, the City will be re-exposed to the risks being hedged by the hedging derivative instrument.

Contingencies

All of the City's derivative instruments include provisions that require the City to post collateral in the event its credit rating falls below Baa1 (Moody's) or BBB+ (Standard & Poor's) for derivative instruments A, B, D, E, K, and L; below Baa3 (Moody's) or BBB- (Standard & Poor's) for derivative instruments C, G and H. The collateral posted is to be in the form of cash, U.S. Treasury securities, or specified Agency securities in the amount equal to (in the form of cash) or greater than (in the form of securities) the fair value of derivative instruments in liability positions net of the effect of applicable netting arrangements and applicable thresholds. If the City does not post collateral, the derivative instrument may be terminated by the counterparty. At June 30, 2015, the aggregate fair value of all derivative instruments with these collateral posting provisions is \$(115.45) million. If the collateral posting requirements were triggered at June 30, 2015, based on ratings of Baa3 or BBB-, the City would have been required to post \$46.88 million in collateral to its counterparties based on posting cash. The collateral requirements would be \$117.78 million for ratings below Baa3 or BBB- based on posting cash. The City's credit rating as of June 30, 2015 was Aa2 (Moody's) and AA (Standard & Poor's); therefore, no collateral has been posted as of that date.

Swap Collateral Requirements upon a Rating Downgrade of the City⁽¹⁾

Swap/Counterparty	Fair Value as of June 30, 2015 ⁽²⁾	Collateral Threshold at Baa2/BBB to Baa3/BBB- ⁽³⁾	Collateral Amount ⁽⁴⁾ (in thousands)	Collateral Threshold below Baa3/BBB-	Collateral Amount ⁽⁵⁾
Bank of New York Mellon	\$ 2,336	Infinity	\$ —	—	\$ —
JP Morgan Chase Bank, N.A.	(29,983)	3,000	27,000	—	30,000
Merrill Lynch Capital Services, Inc.	(5,679)	3,000	2,679	—	5,679
UBS AG	(20,216)	3,000	17,200	—	20,200
US Bank National Association	(5,679)	Infinity	—	—	5,700
Wells Fargo Bank, NA	(56,230)	Infinity	—	—	56,200
Total Fair Value	<u>\$(115,451)</u>		<u>\$46,879</u>		<u>\$117,779</u>

- (1) All of the City's swap counterparties have agreements that collateral is to be posted by the City if the City were to owe a termination payment and its ratings fall below a certain level. The collateral amount is the counterparty's exposure, based on the market value of the swap, less a "threshold" amount. The threshold amount varies from infinity for higher rating levels to zero for lower rating levels. The threshold amount cannot be less than zero and a threshold amount of infinity would always result in no collateral being required regardless of the market value.
- (2) A negative value means the City would owe a termination payment.
- (3) A downgrade of the City to either Baa2 (Moody's) or BBB (S&P) is the first rating level at which the City would be required to post collateral.
- (4) The swap counterparties, other than Merrill Lynch Capital Services Inc., round the collateral amount up or down to the nearest \$100,000. Merrill Lynch does not round the amount.
- (5) Represents the total amount of required collateral for ratings below Baa3/BBB-. The amount of collateral required to be posted would be the amount shown below less any collateral previously posted.

13. Real Estate Tax

Real estate tax payments for the Fiscal Year ended June 30, 2015, were due July 1, 2014 and January 1, 2015, except that payments by owners of real property assessed at \$250,000 or less and cooperatives whose individual units on average are valued at \$250,000 or less, were due in quarterly installments on the first day of each quarter beginning on July 1.

The levy date for Fiscal Year 2015 taxes was June 29, 2014. The lien date is the date taxes are due.

Real estate tax revenue represents payments received during the year and payments received (against the current fiscal year and prior years' levies) within the first two months of the following fiscal year reduced by tax refunds for the fund financial statements. Real estate tax revenues not available are reported as deferred inflows of resources. The government-wide financial statements recognize real estate tax revenue (net of refunds) which are not available to the governmental fund type in the fiscal year for which the taxes are levied. Real estate taxes received or reported as receivables before the period for which the property taxes are levied, or the period when resources are required to be used, or when use is first permitted, are reported as deferred inflows of resources.

The City offered a 0.5% discount on the full amount of a taxpayer's yearly property tax if the entire amount shown on their bill is paid by the July due date (or grace period due date), a 0.25% discount on the last three quarters if the taxpayer waits until the October due date to pay the entire amount due, or a 0.125% discount on the last six months of taxes when the taxpayer pays the balance by the January due date for both Fiscal Years 2016 and 2015. Payment of real estate taxes before July 15, 2015, on properties with an assessed value of \$250,000 or less and before July 1, 2015, on properties with an assessed value over \$250,000 received the discount. Collections of these real estate taxes received on or before June 30, 2015 and 2014 were about \$7.0 billion and \$6.7 billion, respectively.

The City sold approximately \$101 million of real property tax liens, fully attributable to Fiscal Year 2015, at various dates in Fiscal Year 2015. As in prior year's lien sale agreements, the City will refund the value of liens later determined to be defective, plus interest and a 5% surcharge. It has been estimated that \$5.0 million worth of liens sold in Fiscal Year 2015 will require refunding. The estimated refund accrual amount of \$8.0 million, including the surcharge and interest, resulted in Fiscal Year 2015 net sale proceeds of \$93.0 million.

In Fiscal Year 2015, there was \$5.0 million refunded for defective liens from the Fiscal Year 2014 sale. This resulted in an increase to Fiscal Year 2015 revenue of \$3.0 million. Consequently, the over-estimated Fiscal Year 2014 accrual of \$8.0 million increased the net sale proceeds of the Fiscal Year 2015 sale to \$93 million, up from the Fiscal Year 2014 net sale proceeds of \$84 million.

The City sold approximately \$92.0 million of real property tax liens, attributable to Fiscal Year 2014, at various dates in Fiscal Year 2014. As in prior year's lien sale agreements, the City will refund the value of liens later determined to be defective, plus interest and a 5% surcharge. It has been estimated that \$7.8 million worth of liens sold in Fiscal Year 2014 will require refunding. The estimated refund accrual amount of \$8.0 million, including the surcharge and interest, resulted in Fiscal Year 2014 net sale proceeds of \$84.0 million.

In Fiscal Year 2014, there were \$7.8 million refunded for defective liens from the Fiscal Year 2013 sale. This resulted in an increase to Fiscal Year 2014 revenue of \$2.8 million and consequently, the under-estimated Fiscal Year 2013 accrual of \$5.0 million increased the net sale proceeds of the Fiscal Year 2013 sale to \$84.0 million, up from the original Fiscal Year 2013 net sale proceeds reported as \$83.6 million.

In Fiscal Years 2015 and 2014, \$230 million and \$205 million, respectively, were provided as allowances for uncollectible real estate taxes against the balance of the receivable. Delinquent real estate taxes receivable that are estimated to be collectible but which are not collected in the first two months of the next fiscal year are recorded as deferred inflows of resources in the governmental funds balance sheet but included in general revenues on the government-wide *Statement of Activities*.

The City is permitted to levy real estate taxes for general operating purposes in an amount up to 2.5% of the average full value of taxable real estate in the City for the last five years and in unlimited amounts for the payment of principal and interest on long-term City debt. Amounts collected for payment of principal and interest on long-term debt in excess of that required for that purpose in the year of the levy must be applied towards future years' debt service. For the Fiscal Years ended June 30, 2015 and 2014, excess amounts of \$428 million and \$481 million, respectively, were transferred to the General Debt Service Fund.

14. Other Taxes and Other Revenues

Taxpayer-assessed taxes, such as sales and income taxes, net of refunds, are recognized in the accounting period in which they become susceptible to accrual for the fund financial statements. Assets recorded in the governmental fund financial statements, but the revenue is not available, are reported as deferred inflows of resources. Additionally, the government-wide financial statements recognize sales and income taxes (net of refunds), which are not available to the governmental fund type in the accounting period for which the taxes are assessed.

15. Federal, State, and Other Aid

For the government-wide and fund financial statements, categorical aid, net of a provision for estimated disallowances, is reported as receivables when the related eligibility requirements are met. Unrestricted aid is reported as revenue in the fiscal year of entitlement. Resources received before the time requirements are met, but after all other eligibility requirements are met, are reported as deferred inflows of resources.

16. Bond Discounts, Premiums and Issuance Costs

In the fund financial statements, bond premiums, discounts and issuance costs are recognized as revenues/expenditures in the period incurred. In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds payable using the straight-line method. Bond premiums and discounts are presented as additions/reductions to the face amount of the bonds payable. Bond issuance costs are recognized as an expense in the period incurred.

17. Intra-Entity Activity

Payments from a fund receiving revenue to a fund through which the revenue is to be expended are reported as transfers. Such payments include transfers for debt service and capital construction. In the government-wide financial statements, resource flows between the City and the discretely presented component units are reported as if external transactions.

18. Subsidies

The City makes various payments to subsidize a number of organizations which provide services to City residents. These payments are recorded as expenditures in the fiscal year paid.

19. Deferred Outflows and Inflows of Resources

In accordance with Government Accounting Standards Board Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, the City reports deferred outflows of resources in the *Statement of Financial Position* in a separate section following Assets. Similarly, the City reports deferred inflows of resources in the *Statement of Net Position* in a separate section following Liabilities.

The Components of the deferred outflows of resources and deferred inflows of resources are as follows:

	FY 2015		FY 2014	
	Primary Government	Component Units	Primary Government	Component Units
	(in thousands)			
Deferred Outflows of Resources:				
Deferred Outflows from pension activities	\$ 4,955,473	\$ 78,156	\$ —	\$ 78,429
Accumulated decrease in fair value of hedging derivatives	41,294	125,173	48,963	100,384
Unamortized deferred bond refunding costs	502,083	—	495,284	4,294
Other	14	31,652	—	36,936
Total Deferred Outflows of Resources	<u>\$ 5,498,864</u>	<u>\$234,981</u>	<u>\$ 544,247</u>	<u>\$220,043</u>
Deferred Inflows of Resources:				
Deferred Inflows from pension activities	\$11,052,311	\$527,124	\$14,827,736	\$805,093
Service concession arrangements	145,661	—	171,039	—
Real estate taxes	6,994,205	—	6,733,998	—
Grant advances	7,331	—	23,780*	—
Prepaid payments in lieu of taxes	—	—	1,950	—
Unamortized deferred refunding costs	—	17,978	—	—
Other	59,888	—	—	—
Total Deferred Inflows of Resources	<u>\$18,259,396</u>	<u>\$545,102</u>	<u>\$21,758,503</u>	<u>\$805,093</u>

* Certain reclassifications were made to the Fiscal Year 2014 deferred inflows of resources in order to conform with the Fiscal Year 2015 presentation for deferred inflows of resources. There was no effect on the net position from this reclassification.

20. Fund Balance

In accordance with Government Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the classification of Fund Balance is based on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable—includes fund balance amounts that cannot be spent, either because they are not in spendable form, or because of legal or contractual constraints requiring such amounts to remain intact. As required by the New York State Financial Emergency Act, the City must prepare its budget covering all expenditures, other than capital items, balanced so that the results do not show a deficit when reported in accordance with GAAP. Therefore, the General Fund's fund balance must legally remain intact and is classified as nonspendable. Additionally, certain receivable amounts are not anticipated to be collected in the current period.

Restricted—includes fund balance amounts that are constrained for specific purposes when such constraints are externally imposed by creditors, laws or regulations of other governments, or by constitutional provisions or enabling legislation.

Committed—includes fund balance amounts that are constrained for specific purposes when such constraints are internally imposed by the government's formal action at the highest level of decision making authority and do not lapse at year-end. In accordance with the New York City Charter, the City Council is the City's highest level of decision-making authority and can, by legal resolution prior to the end of the fiscal year, approve to establish, modify or rescind a fund balance commitment. For the blended component units reported as Nonmajor Funds, the respective Boards of Directors ("Boards") constitute the highest level of decision-making authority. When resolutions are adopted by the Boards that constrain fund balances for a specific purpose, such resources are accounted for and reported as committed for such purpose, unless and until a subsequent resolution altering the commitment is adopted by a Board.

Assigned—includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. The City does not have any assigned amounts in its major funds. For the blended component units reported as Nonmajor Funds, the fund balances which are constrained for use for a specific purpose based on the direction of the President of the component unit to direct the movement of such funds are accounted for and reported as assigned for such purpose unless and until a subsequent authorized action by the same, or another duly authorized officer, or by a Board, is taken which removes or changes the assignment.

Unassigned—The City's Capital Projects Fund's and Nonmajor Governmental Funds' deficits are classified as unassigned.

The City uses restricted amounts first when both restricted and unrestricted resources are available. Additionally, the City first uses committed, then assigned, and lastly unassigned resources when expenditures are made.

The City does not have a formal minimum fund balance policy. Below is the detail included in the fund balance classifications for the governmental funds at June 30, 2015 and 2014:

Fiscal Year 2015					
	General Fund	Capital Projects Fund	Debt Service Fund	Nonmajor Governmental Funds	Total Governmental Funds
	(in thousands)				
Nonspendable:					
General Fund balance	\$ 467,621	\$ —	\$ —	\$ —	\$ 467,621
Prepaid expenditures	—	—	—	619	619
Spendable:					
Restricted					
Capital projects	—	751,924	—	451,432	1,203,356
Debt service	—	—	427,588	2,103,811	2,531,399
Committed					
Debt service	—	—	1,542,632	—	1,542,632
Assigned					
Debt Service	—	—	—	1,667,966	1,667,966
Operations*	—	—	—	154,358	154,358
Unassigned					
Capital Projects Fund	—	(2,531,515)	—	—	(2,531,515)
Total Fund Balance (Deficit)	\$ 467,621	\$(1,779,591)	\$1,970,220	\$4,378,186	\$ 5,036,436
Fiscal Year 2014					
	General Fund	Capital Projects Fund	Debt Services Fund	Nonmajor Governmental Funds	Total Governmental Fund
	(in thousands)				
Nonspendable:

* Represents the unassigned fund balance of the Special Revenue Funds.

21. Pensions

In government-wide financial statements, pensions are recognized and disclosed using the accrual basis of accounting (see Notes E.5 and the RSI section immediately following the notes to financial statements), regardless of the amount recognized as pension expenditures on the modified accrual basis of accounting. The City recognizes a net pension liability for each qualified pension plan in which it participates, which represents the excess of the total pension liability over the fiduciary net position of the qualified pension plan, measured as of the City's fiscal year-end or the City's proportionate share thereof in the case of a cost-sharing multiple-employer plan. Changes in the net pension liability during the period are recorded as pension expense, or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change, in the period incurred. Those changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants including retirees, in the respective qualified pension plan and recorded as a component of pension expense beginning with the period in which they arose. Projected earnings on qualified pension plan investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred.

22. Other Postemployment Benefits

Other Postemployment Benefits (OPEB) cost for retiree healthcare and similar, non-pension retiree benefits, is required to be measured and disclosed using the accrual basis of accounting (see Note E.4), regardless of the amount recognized as OPEB expense on the modified accrual basis of accounting. Annual OPEB cost is calculated in accordance with GASB Statement No. 45.

23. Estimates and Assumptions

A number of estimates and assumptions relating to the reporting of revenues, expenditures, assets and liabilities, and the disclosure of contingent liabilities were used to prepare these financial statements in conformity with GAAP. Actual results could differ from those estimates.

24. Pronouncements Issued But Not Yet Effective

In June 2015, GASB issued Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*.

The requirements of this statement extend the approach to accounting and financial reporting established in Statement No. 68 to all pensions to reflect that for accounting and financial reporting purposes, any assets accumulated for pensions that are provided through pension plans that are not administered through trusts that meet the criteria specified in Statement No. 68 should not be considered pension plan assets. It also requires that information similar to that required by Statement 68 be included in notes to financial statements and required supplementary information by all similarly situated employers and nonemployer contributing entities.

The provisions of Statement No. 73 that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68 are effective for financial statements for fiscal years beginning after June 15, 2016, and the requirements of this statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of Statement No. 73 for pension plans that are within the scope of Statement No. 67 or for pensions that are within the scope of Statement No. 68 are effective for fiscal years beginning after June 15, 2015. Earlier application is encouraged. The City has not completed the process of evaluating the impact of Statement No. 73 on its financial statements.

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The scope of this statement includes defined benefit and defined contribution OPEB plans administered through trusts that meet specified criteria.

This statement establishes financial reporting standards for state and local governmental other postemployment benefit ("OPEB") plans. The Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*.

Statement No. 74 is effective for financial statements for fiscal years beginning after June 15, 2016. Earlier application is encouraged. The City has not completed the process of evaluating the impact of Statement No. 74 on its financial statements.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (OPEB). This statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employees. This Statement also establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures.

For defined benefit OPEB plans this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosures and required supplementary information are also addressed by the statement.

This statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB.

Statement No. 75 is effective for fiscal years beginning after June 15, 2017. Earlier application is encouraged. The City has not completed the process of evaluating the impact of Statement No. 75 on its financial statements.

In June 2015, GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. This statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.

This statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. It also amends Statement No. 62, *Codification of accounting and financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, paragraph 64, 74, and 82.

The provisions of Statement No. 76 are effective for financial statements for periods beginning after June 15, 2015. Earlier application is permitted. The City has not completed the process of evaluating the impact of Statement No. 76 on its financial statements.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures*. For financial reporting purposes, this statement defines a tax abatement and contains required disclosures about a reporting government's own tax abatement agreements and those that are entered into by other governments and that reduce the reporting government's tax revenues.

The requirements of GASB Statement No. 77 are effective for financial statements for periods beginning after December 15, 2015. Earlier application is encouraged. The City has not completed the process of evaluating the impact of Statement No. 77 on its financial statements.

B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A summary reconciliation of the difference between total fund balances (deficit) as reflected on the governmental funds balance sheet and total net position (deficit) of governmental activities as shown on the government-wide *Statement of Net Position* is presented in an accompanying schedule to the governmental funds balance sheet. The asset and liability elements, that comprise the difference are related to the governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting, while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

Similarly, a summary reconciliation of the difference between net change in fund balances, as reflected on the governmental funds *Statement of Revenues, Expenditures, and Changes in Fund Balances*, and *Change in Net Position* of governmental activities, as shown on the government-wide *Statement of Activities*, is presented in an accompanying schedule to the governmental funds *Statement of Revenues, Expenditures, and Changes in Fund Balances*. The revenue and expense elements, that comprise the reconciliation difference stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting, while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Budgets and Financial Plans

Budgets

Annual expense budget appropriations, which are prepared on the modified accrual basis, are adopted for the General Fund, and unused appropriations lapse at fiscal year-end. The City uses appropriations in the capital budget to authorize the expenditure of funds for various capital projects. Capital appropriations, unless modified or rescinded, remain in effect until the completion of each project.

The City is required by State Law to adopt and adhere to a budget, on a basis consistent with GAAP, that would not have General Fund expenditures and other financing uses in excess of revenues and other financing sources.

Expenditures made against the expense budget are controlled through the use of quarterly spending allotments and units of appropriation. A unit of appropriation represents a subdivision of an agency's budget and is the level of control at which expenditures may not legally exceed the appropriation. The number of units of appropriation, and the span of operating responsibility which each unit represents, differs from agency to agency depending on the size of the agency and the level of control required. Transfers between units of appropriation and supplementary appropriations may be made by the Mayor, subject to the approval provisions set forth in the City Charter. Supplementary appropriations increased the expense budget by \$5.10 billion and \$5.78 billion subsequent to its original adoption in Fiscal Years 2015 and 2014, respectively.

Financial Plans

Additionally, the New York State Financial Emergency Act for The City of New York requires the City to operate under a "rolling" Four-Year Financial Plan (Plan). Revenues and expenditures, including transfers, of each year of the Plan are required to be balanced on a basis consistent with GAAP. The Plan is broader in scope than the expense budget; it comprises General Fund revenues and expenditures, Capital Projects Fund revenues and expenditures, and all short and long-term financing.

The expense budget is generally consistent with the first year of the Plan and operations under the expense budget must reflect the aggregate limitations contained in the approved Plan. The City reviews its Plan periodically during the year and, if necessary, makes modifications to incorporate actual results and revisions to assumptions.

2. Deficit Fund Balance

The Capital Projects Fund had deficits of \$1.78 and \$3.04 billion for the years ended June 30, 2015 and 2014, respectively. These deficits represent the amounts expected to be financed from future bond issues or intergovernmental reimbursements. To the extent the deficits will not be financed or reimbursed, a transfer from the General Fund will be required.

D. DETAILED NOTES ON ALL FUNDS

1. Deposits and Investments

Deposits

The City's bank depositories are designated by the New York City Banking Commission, which consists of representatives of the Comptroller, the Mayor, and the Finance Commissioner. The Banking Commission uses independent bank rating agency reports, bank regulators' reports and the banks' quarterly financial statements reported to the SEC to determine the financial soundness of each bank. In addition, the City's banking relationships are under periodic operational, financial and credit reviews.

The City Charter limits the amount of deposits at any time in any one bank or trust company to a maximum of one-half of the amount of the capital and net surplus of such bank or trust company. The discretely presented component units included in the City's reporting entity maintain their own banking relationships, which generally conform with the City's.

The City's bank account balances in excess of the prevailing Federal Deposit Insurance Corporation (FDIC) insurance limits of \$250 thousand are fully collateralized in accordance with the New York State General Municipal Law (GML) and the New York City Department of Finance Collateral Policy, dated December 5, 2012. Each NYC Designated Bank must pledge Eligible Securities and/or Letters of Credit that satisfy the minimum GML requirements. The Designated Banks also must agree to closely monitor City bank account balances and adjust the amount of collateral when the City's bank account balance changes to ensure that City

deposits are always fully collateralized. The banks usually report such collateral changes to both their respective custodians and the Department of Finance's Collateral Committee on a daily basis.

At June 30, 2015 and 2014, the carrying amount of the City's unrestricted cash and cash equivalents was \$7.18 billion and \$7.96 billion, respectively, and the bank balances were \$4.29 billion and \$1.47 billion, respectively. At June 30, 2015 and 2014, the carrying amount of the restricted cash and cash equivalents were \$3.61 billion and \$2.69 billion, respectively, and the bank balances were \$1.67 billion and \$644 million, respectively. Of the unrestricted bank balance, \$51 thousand was exposed to custodial credit risk (this is the risk that in the event of a bank failure, the City's deposits may not be returned to it or the City will not be able to recover collateral securities that are in the possession of an outside party) because the respective bank balance was uninsured and uncollateralized at June 30, 2015. Of the restricted bank balances, \$4 thousand and \$10 thousand were exposed to custodial credit risk because the respective bank balances were uninsured and uncollateralized at June 30, 2015 and 2014, respectively.

Investments

The City's investment of cash in its governmental fund types is currently limited to U.S. Government guaranteed securities and U.S. Government agency securities purchased directly and through repurchase agreements from primary dealers, as well as commercial paper rated A1 and P1 by Standard & Poor's Corporation and Moody's Investors Service, Inc., respectively. The repurchase agreements must be collateralized by U.S. Government guaranteed securities, U.S. Government agency securities, or eligible commercial paper in a range of 100% to 102% of the matured value of the repurchase agreements. The following is a summary of the fair value of investments of the City as of June 30, 2015 and 2014:

Governmental activities:

Investment Type	Investment Maturities					
	(in years)					
	2015			2014		
	Less than 1	1 to 5	More than 5	Less than 1	1 to 5	More than 5
	(in thousands)

⁽¹⁾ The City has five pay-fixed interest rate swaps (see Note A.12, A through E) and two basis swaps (see Note A.12, G and K) that are treated as investment derivative instruments. Additionally, the City has one pay-fixed swap (H) that is partially treated as an investment derivative instrument (see Note A.12). On June 30, 2015, the swaps had fair values of \$(17,035) thousand, \$(5,679) thousand, \$(5,679) thousand, \$(5,679) thousand, \$(14,537) thousand, \$2,336 thousand, \$(11,703) thousand, and \$(16,181) thousand, respectively.

⁽²⁾ The City had two pay-fixed interest rate swaps (E and F) and two basis swaps (G and K) that were treated as investment derivative instruments. Additionally, the City had five pay-fixed swaps (A-D, and H) that were partially treated as investment derivative instruments. On June 30, 2014, the swaps had fair values of \$(15,905) thousand, \$(37) thousand, \$(3,842) thousand, \$(25,957) thousand, \$(15,782) thousand, \$(5,261) thousand \$(5,261) thousand \$(5,261) thousand and \$(15,207) thousand, respectively.

Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs (the City does not value any of its investments using level 3 inputs).

The following is a summary of the fair value hierarchy of the fair value of investments of the City as of June 30, 2015 and June 30, 2014:

Investments ⁽¹⁾ by Fair Value Level	6/30/2015	Fair Value Measurements Using		6/30/2014	Fair Value Measurements Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
		(in thousands)				
U.S. Government securities	\$ 6,596,073	\$878,299	\$ 5,717,774	\$2,022,523	\$176,265	\$1,846,258
U.S. Government agency obligations . .	3,120,686	—	3,120,686	2,874,871	—	2,874,871
Commercial paper	1,699,849	—	1,699,849	3,340,712	—	3,340,712
Money market funds	273,121	33,710	239,411	404,208	32,242	371,966
Municipal bonds	16,900	—	16,900	22,743	—	22,743
Investment derivative instruments	(74,157)	—	(74,157)	(92,513)	—	(92,513)
Total investments and cash equivalents by fair value level	<u>\$11,632,472⁽²⁾</u>	<u>\$912,009</u>	<u>\$10,720,463</u>	<u>\$8,572,544⁽²⁾</u>	<u>\$208,507</u>	<u>\$8,364,037</u>

(1) Includes cash equivalents carried at fair value by blended components.

(2) ECF has not yet adopted GASB Statement No. 72, which will be effective for the year ending June 30, 2016. For the year ended June 30, 2015 and June 30, 2014, ECF's listed investments totaled \$44.23 million and \$47.31 million, respectively.

Investments classified in Level 1 of the fair value hierarchy, valued at \$912.01 million and \$208.51 million in Fiscal Years 2015 and 2014 respectively, are valued using quoted prices in active markets.

U.S. Government securities totaling \$5.50 billion and \$1.588 billion, U.S. Government agency obligations totaling \$3.12 billion and \$2.87 billion, commercial paper totaling \$1.7 billion and \$3.34 billion, money market funds totaling \$239.41 million and \$371.97 million and municipal bonds totaling \$16.90 million and \$22.74 million, in fiscal years 2015 and 2014 respectively, classified in Level 2 of the fair value hierarchy are valued using matrix pricing techniques maintained by various pricing vendors. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by our custodian bank.

U.S. Government securities, totaling \$217.74 million and \$258.20 million in Fiscal Years 2015 and 2014 respectively, under a forward supply contract classified in Level 2 of the fair value hierarchy are valued using present value and option pricing model techniques.

Investment derivative instruments, totaling (\$74.16 million) and (\$92.51 million) in Fiscal Years 2015 and 2014, respectively, are classified in Level 2 of the fair value hierarchy. Fair value is described as the exit price that assumes a transaction takes place in the City's most advantageous market in the absence of a principal market. These inputs include the mid-market valuation and then incorporates the credit risk of either the City or its counterparty and the bid/offer spread that would be charged to the City in order to transact. The mid-market values of the interest rate swaps were estimated using the income approach. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement date.

Interest rate risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits the weighted average maturity to a period of less than 2 years. The City's current weighted average maturity is less than 201 days.

Credit risk. Investment guidelines and policies are designed to protect principal by limiting credit risk. This is accomplished through ratings, collateral, and diversification requirements that vary according to the type of investment. As of June 30, 2014 and 2013, investments in Fannie Mae or Freddie Mac and Federal Home Loan Bank (FHLB) were rated in the highest long-term or short-term ratings category (as applicable) by Standard & Poor's and/or Moody's Investor Service. These ratings were AA+ and A-1+ by Standard & Poor's and Aaa and P-1 by Moody's for long-term and short-term instruments, respectively.

Concentration of credit risk. The City's investment policy limits investments to no more than \$250 million invested at any time in either commercial paper of a single issuer or investment agreements with a single provider.

Custodial credit risk-investments. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of the outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the City, and are held by either the counterparty or the counterparty's trust department or agent but not in the name of the City.

The City's investment policy related to custodial credit risk calls for limiting its investments to highly rated institutions and/or requiring high quality collateral be held by the counterparty in the name of the City.

Investment Derivative Instruments

Credit risk: The City is exposed to credit risk on investment derivative instruments. To minimize its exposure to loss related to credit risk, it is the City's policy to require counterparty collateral posting provisions in its investment derivative instruments. These terms require collateralization of the fair value of investment derivative instruments (net of the effect of applicable threshold requirements and netting arrangements) should the counterparty's credit rating fall below the following:

The counterparty (or its respective guarantor) with respect to derivative instruments B, D, E and H (see Note A.12) is required to post collateral if one of its credit ratings goes below A3/A-. The counterparty with respect to derivative instrument H (see Note A.12) is required to post collateral if one of its credit ratings goes below A2/A. The counterparty with respect to derivative instruments A, C, G and K (see Note A.12) is required to post collateral if it has at least one rating below Aa3 or AA-. The City has never been required to access collateral.

As discussed in Note A.12, it is the City's policy to enter into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty.

The aggregate fair value of investment derivative instruments requiring collateralization at June 30, 2015 was \$(74.16) million. A negative aggregate fair value means the City would have owed payments to the counterparties. The City had no counterparty credit exposure to any of the investment derivative instrument counterparties as of that date.

Interest rate risk: The City is exposed to interest rate risk on its swaps. In derivative instruments A, B, C, D, E and H, pay-fixed, receive-variable interest rate swaps, as LIBOR decreases, the City's net payment on the swap increases.

Basis risk: The City is exposed to basis risk on derivative instruments A, B, C, D, E and H (see Note A.12) because the variable-rate payment received by the City is based on a rate or index other than the interest rate the City pays on its variable-rate debt. Under the terms of its derivative instruments A, B, C, D, E and H (see Note A.12), the City pays a variable rate on the outstanding underlying bonds based on SIFMA, but receives a variable rate on the swap based on a percentage of LIBOR. In derivative instrument G (see Note A.12), the City's variable payer rate is based on SIFMA times 1.36 and the City receives 100% of LIBOR in return. The City's net payments over time will be determined by both the absolute levels of interest rates and the relationship between SIFMA and LIBOR. In derivative instrument K, the City's variable payer rate is based on SIFMA and its variable receiver rate is based on a percentage of LIBOR. However, the stepped percentages of LIBOR received by the City mitigate the risk that the City will be harmed in low interest rate environments by the compression of the SIFMA and LIBOR indices. As the overall level of interest rate decreases, the percentage of LIBOR received by the City increases.

Tax risk: The City is at risk that a change in Federal tax rates will alter the fundamental relationship between the SIFMA and LIBOR indices. A reduction in Federal tax rates, for example, will likely increase the City's payment on its underlying variable rate bonds in derivative instruments A, B, C, D, E and H and its variable payer rate in derivative instruments G and K.

Termination risk: The City or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. The City is at risk that a counterparty will terminate a swap at a time when the City owes it a termination payment. The City has mitigated this risk by specifying that the counterparty has the right to terminate only as a result of certain events, including: a payment default by the City; other City defaults which remain uncured for 30 days after notice; City bankruptcy;

insolvency of the City (or similar events); or a downgrade of the City's credit rating below investment grade (i.e., BBB-/Baa3). If at the time of termination, an investment derivative instrument is in a liability position, the City would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

Counterparty risk: The City is at a risk that a counterparty (or its guarantor) will not meet its obligations under the swap. If a counterparty were to default under its agreement when the counterparty would owe a payment to the City, the City may have to pay another entity to assume the position of the defaulting counterparty. The City has sought to limit its counterparty risk by contracting only with highly-rated entities or requiring guarantees of the counterparty's obligations under the swap documents.

The discretely presented component units included in the City's reporting entity maintain their own investment policies that generally conform to those of the City.

The criteria for the Pension and Other Employee Benefit Trust Funds' and Other Trust Funds' investments are as follows:

1. Fixed income investments may be made in U.S. Government guaranteed securities or securities of U.S. Government agencies, securities of entities rated BBB or better by both Standard and Poor's Corporation and Moody's Investors Service, Inc., and any bond that meets the qualifications of the New York State Retirement and Social Security Law, the New York State Banking Law, and the New York City Administrative Code.
2. Equity investments may be made only in those stocks that meet the qualifications of the New York State Retirement and Social Security Law, the New York State Banking Law, and the New York City Administrative Code.
3. Short-term investments may be made in the following:
 - a. U.S. Government guaranteed securities or U.S. Government agency securities.
 - b. Commercial paper rated A1, P1, or F1 by Standard & Poor's Corporation or Moody's Investors Service, Inc., or Fitch, respectively.
 - c. Repurchase agreements collateralized in a range of 100% to 102% of matured value, purchased from primary dealers of U.S. Government securities.
 - d. Investments in bankers' acceptances, certificates of deposit, and time deposits are limited to banks with worldwide assets in excess of \$50 billion that are rated within the highest categories of the leading bank rating services, and selected regional banks also rated within the highest categories.
 - e. Other top-rate securities maturing in less than 4 years.
4. Investments up to 25% of total pension fund assets in instruments not specifically covered by the New York State Retirement and Social Security Law.
5. No investment in any one corporation can be: (i) more than 2% of the pension plan net position; or (ii) more than 5% of the total outstanding issues of the corporation.

All investments are held by the City's custodial banks (in bearer or book-entry form) solely as an agent of the Comptroller of The City of New York on behalf of the various account owners. Payments for purchases are not released until evidence of ownership of the underlying investments are received by the City's custodial bank.

Securities Lending

State statutes and Board policies permit the Pension and Certain Other Employee Benefit Trust Funds to lend its securities to broker-dealers and other entities for collateral, for the same securities in the future with a simultaneous agreement to return the collateral in the form of cash, treasury and U.S. Government securities. The Funds' agent lends the following types of securities: short term securities, common stocks, long-term corporate bonds, U.S. Government and U.S. Government agency bonds, asset-backed securities and international equities and bonds held in collective investment funds. In return, the Funds receive collateral in the form of cash, U.S. Treasury and U.S. Government agency securities at 100% to 105% of the principal plus accrued interest for reinvestment. At June 30, 2015 and 2014, management believes that the Funds had no credit risk exposure to borrowers because the amounts the Funds owed the borrowers equaled or exceeded the amounts the borrowers owed the Funds. The contracts with the Fund's custodian require the securities lending agent to indemnify the Funds. In the situation when a borrower goes into default, the Agent will liquidate the collateral to purchase replacement securities. Any shortfall before the replacement securities cost and the collateral value is covered by the Agent. All securities loans can be terminated on demand within a period specified in

each agreement by either the Funds or the borrowers. Cash collateral is invested by the securities lending agent using approved lender's investment guidelines. The weighted average maturity is 55 days. The securities lending program in which the Funds participate only allows pledging or selling securities in the case of borrower default.

The City reports securities loaned as assets on the *Statement of Fiduciary Net Position*. Cash received as collateral on securities lending transactions, and investments made with that cash, are also recorded as assets. Liabilities resulting from these transactions are reported on the *Statement of Fiduciary Net Position*. Accordingly, the City records the investments purchased with the cash collateral as Investments; Collateral From Securities Lending Transactions with a corresponding liability are recorded as Securities Lending Transactions.

2. Capital Assets

The following is a summary of capital assets activity for the Fiscal Years ended June 30, 2014 and 2015:

Primary Government	Primary Government						Balance June 30, 2015
	Balance June 30, 2013	Additions	Deletions	Balance June 30, 2014	Additions	Deletions

The following are the sources of funding for the governmental activities capital assets for the Fiscal Years ended June 30, 2015 and 2014. Sources of funding for capital assets are not available prior to Fiscal Year 1987.

	2015	2014
	(in thousands)	
Capital Projects Funds:		
Prior to Fiscal Year 1987	\$ 6,598,496	\$ 6,630,099
City and TFA bonds	79,707,160	75,711,645
Federal grants	519,030	479,184
State grants	75,842	55,715
Private grants	67,224	67,224
Capitalized leases	2,447,311	2,563,373
Total funding sources	<u>\$89,415,063</u>	<u>\$85,507,240</u>

At June 30, 2015 and 2014, the governmental activities capital assets include approximately \$1.2 billion of City-owned assets leased for \$1 per year to the New York City Transit Authority which operates and maintains the assets. In addition, assets leased to HHC and to the Water and Sewer System are excluded from governmental activities capital assets and are recorded in the respective component unit financial statements.

Included in buildings at June 30, 2015 and 2014, are leased properties that have elements of ownership. These assets are recorded as capital assets as follows:

	Capital Leases	
	2015	2014
	(in thousands)	
Governmental activities:		
Capital asset:		
Buildings	\$2,447,311	\$2,563,373
Less accumulated amortization	808,068	861,934
Buildings, net	<u>\$1,639,243</u>	<u>\$1,701,439</u>

Capital Commitments

At June 30, 2015, the outstanding commitments relating to projects of the New York City Capital Projects Fund amounted to approximately \$15.4 billion.

To address the need for significant infrastructure and public facility capital investments, the City has prepared a ten-year capital spending program which contemplates New York City Capital Projects Fund expenditures of \$83.8 billion over Fiscal Years 2015 through 2024. To help meet its capital spending program, the City and TFA borrowed \$3.94 billion in the public credit market in Fiscal Year 2015. The City and TFA plan to borrow \$4.80 billion in the public credit market in Fiscal Year 2016.

3. Leases

The City leases a significant amount of property and equipment from others. Leased property having elements of ownership is recorded in the government-wide financial statements. The related obligations, in amounts equal to the present value of minimum lease payments payable during the remaining term of the leases, are also recorded in the government-wide financial statements. Other leased property not having elements of ownership are classified as operating leases. Both capital and operating lease payments are recorded as expenditures when payable. Total expenditures on such leases for the Fiscal Years ended June 30, 2015 and 2014 were approximately \$942.0 million and \$822.0 million, respectively.

As of June 30, 2015, the City (excluding discretely presented component units) had future minimum payments under capital and operating leases with a remaining term in excess of one year as follows:

	<u>Capital Leases</u>	<u>Operating Leases</u> (in thousands)	<u>Total</u>
Governmental activities:			
Fiscal Year ending June 30:			
2016	\$ 182,604	\$ 600,566	\$ 783,170
2017	179,127	568,367	747,494
2018	175,611	542,610	718,221
2019	167,507	502,741	670,248
2020	167,472	480,179	647,651
2021-2025	680,981	1,903,593	2,584,574
2026-2030	437,826	1,176,924	1,614,750
2031-2035	221,960	337,896	559,856
2036-2040	96,241	48,146	144,387
2041-2045	8,071	16,943	25,014
2046-2050	—	11,499	11,499
Future minimum payments	<u>2,317,400</u>	<u>\$6,189,464</u>	<u>\$8,506,864</u>
Less: Interest	<u>678,157</u>		
Present value of future minimum payments	<u>\$1,639,243</u>		

The present value of future minimum lease payments includes approximately \$1.114 billion for leases with Public Benefit Corporations (PBC) where State law generally provides that in the event the City fails to make any required lease payment, the amount of such payment will be deducted from State aid otherwise payable to the City and paid to PBCs.

The City also leases City-owned property to others, primarily for markets, ports, and terminals. Total rental revenue on these capital and operating leases for the Fiscal Years ended June 30, 2015 and 2014 was approximately \$284 million and \$311 million, respectively. As of June 30, 2015, the following future minimum rentals are provided for by the leases:

	Capital Leases	Operating Leases (in thousands)	Total
Governmental activities:			
Fiscal Year ending June 30:			
2016	\$ 1,177	\$ 191,764	\$ 192,941

Thereafter until 2106	—	2	2
Future minimum lease rentals	38,770	<u>\$5,838,459</u>	<u>\$5,877,229</u>
Less interest	24,780		
Present value of future minimum lease rentals	<u>\$13,990</u>		

4. Service Concession Arrangements

The City is the transferor in 66 Service Concession Arrangements contracted at the Parks Department. The agreements convey to the operators the right, either through licenses or permits, to construct capital assets and operate and maintain all service concessions. The City has the right to approve the type of services the operators may provide and the fees that may be charged by the operators to the public. As per the agreements, the operators provide high-quality amenities and facilities to park users, which generate General Fund revenues for the City and also create valuable business and employment opportunities for the public. The Parks Department operators help preserve some of the City's unique park facilities and provide public amenities while creating and developing new park destinations with fewer public funds.

The Service Concession Agreements do not contain any upfront payments from the operators nor are there any guarantees or commitments by the City. By concession type, the value of the Capital Assets associated with the above Service Concession Arrangements and the deferred inflows resulting from such arrangements are as follows at June 30:

Concession Type	2015			2014		
	Number of concessions	Deferred inflows	Capital Assets Value	Number of concessions	Deferred inflows	Capital Assets Value
		(in thousands)			(in thousands)

⁽¹⁾ The City issues its General Obligation for capital projects which include construction, acquisition, repair or life extending maintenance of the City's infrastructure.

⁽²⁾ Other bonds and notes payable includes TFA (excluded BARBs) and IDA. They are general obligations of the respective issuers.

⁽³⁾ Revenue bonds include ECF, FSC, HYIC, STAR, TFA (BARBs), NYCTLTs and TSASC.

The following table summarizes future debt service requirements as of June 30, 2015:

⁽¹⁾ Includes interest for general obligation bonds estimated at a 2% rate on tax-exempt adjustable rate bonds and at a 3% rate on taxable adjustable rate bonds.

The average (weighted) interest rates for outstanding City General Obligation Bonds as of June 30, 2015 and 2014, were 4.35% and 4.36%, respectively, and both ranged from 0% to 8.6%. The last maturity of the outstanding City debt is in the year 2147.

Since the City has variable rate debt outstanding, the terms by which interest rates change for variable rate debt are as follows: for Auction Rate Securities, an interest rate is established periodically by an auction agent at the lowest clearing rate based upon bids received from broker-dealers. Variable Rate Demand Bonds (VRDBs) are long-term bonds that have a daily or weekly “put” feature backed by a bank Letter of Credit or Stand By Bond Purchase Agreement. VRDBs are repriced daily or weekly and provide investors with the option to tender the bonds at each repricing. A broker, called a Remarketing Agent, is responsible for setting interest rates and reselling to new investors any securities that have been tendered. CPI Bonds pay the holder a floating interest rate tied to the consumer price index. The rate is a fixed spread plus a floating rate equal to the change in the Consumer Price Index-Urban (CPI-U) for a given period. LIBOR Bonds pay the holder a floating interest rate calculated as a percentage of the LIBOR. SIFMA Index Bonds pay the holder a floating index rate based on the Securities Industry and Financial Markets Association Municipal Swap Index plus spread.

In Fiscal Years 2015 and 2014, the City issued \$1.78 billion and \$2.61 billion, respectively, of General Obligation Bonds to advance refund General Obligation Bonds of \$1.96 billion and \$2.83 billion, respectively, aggregate principal amounts. The net proceeds from the sales of the refunding bonds, together with other funds of \$49.12 million and \$32.45 million, respectively, were irrevocably placed in escrow accounts and invested in United States Government securities. As a result of providing for the payment of the principal and interest to maturity, and any redemption premium, the advance refunded bonds are considered to be defeased and, accordingly, the liability is not reported in the government-wide financial statements. In Fiscal Year 2015, the refunding transactions will decrease the City’s aggregate debt service payments by \$278.36 million and provide an economic gain of \$241.97 million. In Fiscal Year 2014, the refunding transactions decreased the City’s aggregate debt service payments by \$246.30 million and provided an economic gain of \$216.89 million. At June 30, 2015 and 2014, \$20.23 billion and \$19.67 billion, respectively, of the City’s outstanding General Obligation Bonds were considered defeased.

The State Constitution requires the City to pledge its full faith and credit for the payment of the principal and interest on City term and serial bonds and guaranteed debt. The GO debt-incurring power of the City is limited by the Constitution to 10% of the average of five years’ full valuations of taxable real estate. Excluded from this debt limitation is certain indebtedness incurred for water supply, certain obligations for transit, sewage, and other specific obligations which exclusions are based on a relationship of

debt service to net revenue. In July 2009, the New York State Assembly passed legislation stipulating that certain TFA debt would be included in the calculation of debt-incurring margin within the debt limit of the City.

As of July 1, 2015 and 2014, the 10% general limitation was approximately \$85.18 billion and \$81.35 billion, respectively. Also, as of July 1, 2015, the City's remaining GO debt-incurring power totaled \$27.76 billion, after providing for capital commitments.

Pursuant to State law, the City's General Debt Service Fund is administered and maintained by the State Comptroller. Payments of real estate taxes and other revenues are deposited in advance of debt service payment dates into the Fund. Debt service on all City notes and bonds is paid from this Fund. In Fiscal Year 2015, discretionary transfers of \$1.98 billion were made from the General Fund to the General Debt Service Fund for Fiscal Year 2016 debt service. In Fiscal Year 2014, discretionary and other transfers of \$620.54 million were made from the General Fund to the General Debt Service Fund for Fiscal Year 2015 debt service. In addition, in Fiscal Year 2015, discretionary transfers of \$1.58 billion were made to component unit Debt Service Funds.

Hedging derivative instrument payments and hedged debt

The table that follows represents debt service payments on certain general obligation variable-rate bonds and net receipts/payments on associated hedging derivative instruments (see Note A.12), as of June 30, 2015. Although interest rates on variable rate debt and the current reference rates of hedging derivative instruments change over time, the calculations included in the table below are based on the assumption that the variable rate and the current reference rates of hedging derivative instruments on June 30, 2015 will remain the same for their term.

	Governmental Activities			
	General Obligation Bonds		Hedging Derivative Instruments, Net	Total
	Principal	Interest		
	(in thousands)			
Fiscal year ending June 30:				
2016	\$ 11,980	\$1,211	\$ 7,762	\$ 20,953
2017	14,125	828	7,546	22,498
2018	18,040	347	7,275	25,661
2019	—	75	7,122	7,197
2020	—	75	7,122	7,197
2021-2025	19,950	372	35,323	55,645
2026-2030	182,785	213	20,244	203,243
2031-2032	47,265	14	1,359	48,638
Total	\$294,145	\$3,135	\$93,753	\$391,033

Judgments and Claims

The City is a defendant in lawsuits pertaining to material matters, including claims asserted which are incidental to performing routine governmental and other functions. This litigation includes, but is not limited to: actions commenced and claims asserted against the City arising out of alleged constitutional violations; torts; breaches of contract; other violations of law; and condemnation proceedings.

As of June 30, 2015 and 2014, claims in excess of \$1.15 trillion and \$1.14 trillion, respectively, were outstanding against the City for which the City estimates its potential future liability to be \$6.78 billion and \$6.91 billion, respectively.

As explained in Note A.10, the estimate of the liability for all judgments and claims has been reported in the government-wide *Statement of Net Position* under noncurrent liabilities. The liability was estimated by using the probable exposure information provided by the New York City Law Department (Law Department), and supplemented by information provided by the Law Department with respect to certain large individual claims and proceedings. The recorded liability is the City's best estimate based on available information and application of the foregoing procedures.

Complaints on behalf of approximately 11,900 plaintiffs alleging respiratory or other injuries from alleged exposures to World Trade Center dust and debris at the World Trade Center site or the Fresh Kills landfill were commenced against the City and other entities involved in the post-September 11 rescue and recovery process. Plaintiffs include, among others, Department of Sanitation employees, firefighters, police officers, construction workers and building clean-up workers. The actions were consolidated in Federal District Court pursuant to the Air Transportation and System Stabilization Act, which grants exclusive Federal jurisdiction

for all claims related to or resulting from the September 11 attack. A not-for-profit “captive” insurance company, WTC Captive, was formed to cover claims against the City and its private contractors relating to debris removal work at the World Trade Center site and the Fresh Kills landfill. WTC Captive was funded by a grant from the Federal Emergency Management Agency in the amount of \$999.9 million. On June 10, 2010, WTC Captive announced that a settlement was reached with attorneys for the plaintiffs. On November 19, 2010, District Court Judge Hellerstein announced that more than the required 95% of plaintiffs agreed to the settlement, thus making it effective. Approximately \$642.5 million has been paid under the settlement, leaving residual funds of approximately \$326 million to insure and defend the City and its contractors against any new claims. Additionally, the City is threatened with third-party claims in several hundred building clean-up cases to which it is currently not a party. Since the applicable statute of limitations runs from the time a person learns of his or her injury or should reasonably be aware of the injury, additional plaintiffs may bring lawsuits in the future, which could result in substantial damages. No assurance can be given that the insurance will be sufficient to cover all liability that might arise from such claims.

In 1996, a class action was brought against the City and the State under Title VII of the Civil Rights Act of 1964 alleging that the use by the New York City Board of Education of two teacher certification examinations mandated by the State had a disparate impact on minority candidates. In 2006, the United States Court of Appeals for the Second Circuit dismissed the claims against the State. In December 2012, the District Court decided a controlling legal question against the City. On February 4, 2013, the Second Circuit affirmed the District Court’s decision. The District Court has appointed a Special Master to oversee claimants’ individualized hearings both as to damages and eligibility for Board of Education employment. The hearings relate to members of the class that took the Liberal Arts and Science Test (LAST) from 1996 to 2004. Currently, 3,916 such individuals have submitted claim forms and may be eligible for damages. On June 5, 2015, the Court ruled that a second version of LAST, LAST-2, that was administered from 2004 to 2014, violated Title VII, because it did not measure skills necessary to do the job. In addition, the Court’s neutral expert is of the opinion that the State’s new teacher certification test, the Academic Literacy Skills Test (ALST), administered since Spring 2014, was also not properly validated. The plaintiffs could accordingly seek to expand the damages class. If approved by the Court, the extent to which this would extend the class is not known at this time. The potential cost to the City is uncertain at this time but could be significant.

The Federal Department of Health and Human Services Office of Inspector General (HHS OIG) conducted a review of Medicaid Personal Care Services claims made by providers in the City from January 1, 2004 through December 31, 2006, and concluded that 18 out of 100 sampled claims by providers failed to comply with Federal and State requirements. The Medicaid Personal Care Services program in the City is administered by the City’s Human Resources Administration. In its audit report issued in June 2009, the HHS OIG, extrapolating from the case sample, estimated that the State improperly claimed \$275.3 million in Federal Medicaid reimbursement during the audit period and recommended to the Center for Medicare and Medicaid Services (CMS) that it seek to recoup that amount from the State. To the City’s knowledge, CMS has not taken any action to recover amounts from the State based on the findings in this audit, but no assurance can be given that it will not do so in the future. Section 22 of Part B of Chapter 109 of the Laws of 2010 amended an earlier unconsolidated State law to set forth a process under which the State Department of Health may recover from a social services district, including the City, the amount of a Federal Medicaid disallowance or recovery that the State Commissioner of Health “determines was caused by a district’s failure to properly administer, supervise or operate the Medicaid program.” Such a determination would require a finding that the local agency had “violated a statute, regulation or clearly articulated written policy and that such violation was a direct cause of the Federal disallowance or recovery.” It is not clear whether the recovery process set out in the amendment can be applied to a Federal disallowance against the State based upon a pre-existing audit; however, in the event that it does, and results in a final determination by the State Commissioner of Health against the City, such a determination could result in substantial liability for the City as a result of the audit.

A lawsuit has been brought against the City in the United States District Court for the Southern District of New York by School Safety Agents alleging violation of the Federal Equal Pay Act, Title VII of the Civil Rights Act of 1964 and provisions of State law. Plaintiffs claim that School Safety Agents (who are predominantly female) earn less pay than Special Officers (who are predominantly male) although both jobs require substantially equal skill, effort and responsibility. The case has been certified as a class action. Although the case was commenced by three named plaintiffs in 2010, 4,900 plaintiffs subsequently opted into the lawsuit. Plaintiffs seek injunctive relief and damages. A settlement was approved by the Court on March 26, 2015. The estimated settlement amount is \$32 to \$35 million plus reasonable attorney’s fees to be determined by the Court. The City accrued \$38 million in 2015 regarding this lawsuit.

On October 27, 2014 a lawsuit under the False Claims Act against the City and Computer Sciences Corporation, a contractor that participated in the submission of claims for Medicaid reimbursement, was unsealed in the United States District Court for the Southern District of New York. Plaintiffs, consisting of the Federal government and a relator, allege fraud in connection with the

use of diagnosis and other codes in seeking Medicaid reimbursement in connection with the Early Intervention Program. Plaintiffs seek treble damages and penalties. If plaintiffs were to ultimately prevail the City could be subject to substantial liability.

A personal injury lawsuit brought in 1998 alleges that a 12-year-old female suffered brain injuries as a result of the negligent actions of City emergency medical technicians. On May 28, 2014, a Bronx jury awarded plaintiffs a \$172 million judgment. On December 22, 2014, the parties to the lawsuit agreed to a settlement amount of \$25 million. The City accrued \$25 million in 2015 regarding this lawsuit.

In July 2014, disability rights advocates organizations and disabled individuals commenced a putative class action against the City in the United States District Court for the Southern District of New York. Plaintiffs allege, among other matters, that the City has not complied with certain requirements of the Americans with Disabilities Act with respect to the installation, configuration and maintenance of curb ramps on sidewalks and requirements for sidewalk walkways in general in Manhattan south of 14th Street. If plaintiffs were to prevail, the City could be subject to substantial compliance costs.

The United States Department of Justice is investigating potential False Claims Act violations in connection with Federal E-Rate program funding for the Department of Education (DOE). The program provides eligible schools and libraries funding for eligible telecommunications services. The Federal Communications Commission is also investigating E-Rate funding for DOE. If DOE or the City were to be a defendant in a False Claims Act lawsuit or other proceeding relating to the E-Rate program, they could be subject to substantial liability.

Con Edison has challenged the City's method of valuation for determining assessments of certain of its properties in two separate actions. Con Edison has challenged the City's tax assessments on its Manhattan East River plants for tax years 1994/1995 through 2014/2015 and the City's special franchise assessment on its electric grid located in the public right of way for tax years 2009/2010 through 2014/2015. The challenges could result in substantial real property tax refunds by the City in fiscal years 2016 and beyond.

In 2014, a class action seeking declaratory and injunctive relief was filed on the basis that the City's real property tax classification system as prescribed by State law violates the Fair Housing Act, denies plaintiffs equal protection and due process rights and results in disparate, adverse and discriminatory treatment of the City's African-American and Hispanic renters. The City believes this case has no merit.

Midtown TDR Ventures LLC and Midtown GCT Ventures LLC. vs. The City of New York, et al., commenced on September 28, 2015, alleging that a change in the City's zoning laws resulted in an unconstitutional taking of the value of transferrable development rights associated with Grand Central Terminal and seeking approximately \$1.2 billion in damages. The City believes it has strong defenses against the claims and it is not possible at this time to predict if there is any potential liability.

In addition to the above claims and proceedings, numerous real estate tax *certiorari* proceedings alleging overvaluation, inequality and illegality are pending against the City. Based on historical settlement activity, and including an estimated premium for inequality of assessment, the City estimates its potential future liability for outstanding *certiorari* proceedings to be \$938 million and \$886 million at June 30, 2015 and 2014, respectively, as reported in the government-wide financial statements.

Landfill Closure and Postclosure Care Costs

The City's only active landfill after October 9, 1993, was the Fresh Kills landfill which has been closed since 2002. Upon the landfill becoming inactive, the City is required by Federal and State law, and under Consent Order with the New York State Department of Environmental Conservation to complete the Final Closure Plan, and to provide postclosure care for a minimum period of 30 years following closure. The Final Closure Plan includes the construction of final cover, stormwater management, leachate mitigation and/or corrective measures, and landfill gas control systems. Postclosure care includes environmental monitoring, and the operation, maintenance, recordkeeping and reporting for the final closure systems.

The liability for these activities as of June 30, 2015, which equates to the total estimated current cost, is \$1.30 billion. There are no costs remaining to be recognized. Cost estimates are based on current data including contracts awarded by the City, contract bids, and engineering studies. These estimates are subject to adjustment for inflation and to account for any changes in landfill conditions, regulatory requirements, technologies, or cost estimates. For government-wide financial statements, the liability for closure and postclosure care is based on total estimated current cost. For fund financial statements, expenditures are recognized using the modified accrual basis of accounting when the related liability is incurred and the payment is due.

Resource Conservation and Recovery Act Subtitle D Part 258, which became effective April, 1997, requires financial assurance regarding closure and postclosure care. This assurance was most recently provided, on February 26, 2015, by the City's Chief Financial Officer placing in the Fresh Kills landfill operating record representations in satisfaction of the Local Government Financial Test. As of June 30, 2015, the financial assurance cost estimate for the Fresh Kills Landfill is \$1.07 billion.

The City has five inactive hazardous waste sites not covered by the EPA rule. The City has recorded the long-term liability for these postclosure care costs in the government-wide financial statements.

During Fiscal Year 2015, expenditures for landfill and inactive hazardous waste site closure and postclosure care costs totaled \$67.1 million.

The following represents the City's total landfill and hazardous waste sites liability which is recorded in the government-wide *Statement of Net Position*:

	<u>Amount</u> (in thousands)
Landfill	\$1,299,077
Hazardous waste sites	209,283
Total landfill and hazardous waste sites liability	<u>\$1,508,360</u>

Pollution Remediation Obligations

The pollution remediation obligations (PROs) at June 30, 2015 and June 30, 2014 summarized by obligating event and pollution type, respectively, are as follows:

<u>Obligating Event</u>	<u>Fiscal Year 2015</u>		<u>Fiscal Year 2014</u>	
	<u>Amount</u> (in thousands)	<u>Percentage</u>	<u>Amount</u> (in thousands)	<u>Percentage</u>
Imminent endangerment	\$ 111	—%	\$ 143	0.1%
Violation of pollution prevention-related permit or license ..	—	—	108	0.1
Named by regulator as a potentially responsible party	50,964	20.4	50,344	21.1
Voluntary commencement	199,156	79.6	187,012	78.7
Total	<u>\$250,231</u>	<u>100.0%</u>	<u>\$237,607</u>	<u>100.0%</u>

<u>Pollution Type</u>	<u>Amount</u> (in thousands)	<u>Percentage</u>	<u>Amount</u> (in thousands)	<u>Percentage</u>
Asbestos removal	\$135,900	54.3%	\$139,837	58.9%
Lead paint removal	8,501	3.4	12,145	5.0
Soil remediation	46,338	18.5	32,927	13.9
Water remediation	57,784	23.1	50,791	21.4
Other	1,708	0.7	1,907	0.8
Total	<u>\$250,231</u>	<u>100.0%</u>	<u>\$237,607</u>	<u>100.0%</u>

(1) There are no expected recoveries to reduce the liability.

The PRO liability is derived from registered multi-year contracts which offsets cumulative expenditures (liquidated/unliquidated) against original encumbered contractual amounts. The potential for changes to existing PRO estimates is recognized due to such factors as: additional remediation work arising during the remediation of an existing pollution project; remediation activities may find unanticipated site conditions resulting in necessary modifications to work plans; changes in methodology during the course of a project may cause cost estimates to change, e.g., the new ambient air quality standard for lead considered a drastic change will trigger the adoption of new/revised technologies for compliance purposes; and changes in the quantity which is paid based on actual field measured quantity for unit price items measured in cubic meters, linear meters, etc. Consequently, changes to original estimates are processed as change orders. Further, regarding pollution remediation liabilities that are not yet recognized because they are not reasonably estimable, the Law Department relates that we have approximately 22 cases involving hazardous substances, including spills from above and underground storage tanks, and other condemnation on, or caused by facilities on City-owned property. There are also two cases involving environmental review and land use, and two cases involving polychlorinated biphenyls caulk in the public schools. Due to the uncertainty of the legal proceedings we cannot estimate a future liability.

The City of New York, in compliance with New York State Department of Environmental Conservation Permit Number 2-6302-00007/00019 issued pursuant to 6 NYCRR Part 360, must provide financial assurance for the closure of the North Shore Marine Transfer Station. Such surety instrument must conform to the requirements of 6 NYCRR Part 260-1.12. The liability for closure as of June 30, 2015, which equates to the total current cost, is \$964 thousand. The cost estimate is based on current data and is representative of the cost that would be incurred by an independent party. The estimate is subject to adjustment for inflation and to account for changes in regulatory requirements or cost estimates. For government-wide financial statements, the liability for closure is based on total estimated current cost. For fund financial statements, expenditures are recognized using the modified accrual basis of accounting when the related liability is incurred and the payment is due.

On Monday, October 29, 2012, Superstorm Sandy hit the Mid-Atlantic East Coast. The storm caused widespread damage to the coastal and other low lying areas of the City and power failures in various parts of the City, including most of downtown Manhattan. Although it is not possible for the City to quantify the full, long-term impact of the storm on the City and its economy, the current estimate of costs to the City and HHC is approximately \$9.7 billion. Of such amount, approximately \$2.1 billion represents expense funding for emergency response, debris removal and emergency protective measures, and approximately \$7.6 billion represents capital funding of long-term permanent work to restore damaged infrastructure.

The Financial Plan assumes that the City's costs relating to emergency services and the repair of damaged infrastructure as a result of the storm will ultimately be paid from non-City sources, primarily the federal government. On January 29, 2013, President Obama signed legislation providing for approximately \$50.5 billion in storm-related aid for the region affected by the storm. The maximum reimbursement rate from the Federal Emergency Management Agency (FEMA) is 90% of total costs. Other funding sources may have larger local share percentages. The City expects to use \$755 million of Community Development Block Grant Recovery funding allocated by the U.S. Department of Housing and Urban Development to meet the local share requirements of the FEMA funding, as well as recovery work not funded by FEMA or other federal sources. This allocation would be available to fill gaps in such FEMA funding. No assurance can be given that the City will be reimbursed for all of its costs or that such reimbursements will be received within the time periods assumed in the Financial Plan. In addition, the City may incur costs relating to flood insurance that are not reflected in the Financial Plan, which could offset some reimbursements.

In June 2013, the City released a report that analyzed the City's climate risks and outlined certain recommendations to address those risks. The report included a first phase of recommendations with a total estimated cost of nearly \$20 billion. Such recommendations involve City and non-City assets and programs, and reflect both expense and capital funding from the City along with other sources. The report identified approximately \$10 billion to be provided through a combination of \$6.5 billion of City capital funding included in the Ten Year Capital Strategy for City infrastructure and coastal protection and federal relief already appropriated by Congress and allocated to the City. Additional costs would require increased federal or other funding and increased City capital or expense funding. The City issued an updated report in April 2015 as part of One New York: The Plan for a Strong and Just City.

On March 2, 2010, the United States Environmental Protection Agency (EPA) listed the Gowanus Canal (the Canal), a waterway located in the City, as a federal Superfund site under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). EPA considers the City a potentially responsible party (PRP) under CERCLA, based on contaminants from currently and formerly City-owned and operated properties, as well as from the City's combined sewer overflows (CSOs). On September 30, 2013, EPA issued the Record of Decision (ROD) for the Canal, setting forth requirements for dredging contaminated sediment in the Canal and covering it with a cap as well as source control requirements. The ROD requires that two CSO retention tanks be constructed as part of the source control component of the remedy. EPA estimates that the costs of the tanks will be approximately \$85 million and the overall cleanup costs (to be allocated among potentially responsible parties) will be \$506 million. The City anticipates that the actual cleanup costs could substantially exceed EPA's cost estimate. On May 28, 2014, EPA issued a unilateral administrative order requiring the City to design major components of the remedy for the Canal, including the CSO retention tanks, remediation of the First Street basin (a currently filled-in portion of the Canal), and stormwater controls. On June 23, 2014, the City notified EPA of its intent to commence design of the tanks but also outlined several major legal and practical problems with the unilateral administrative order. The City is proceeding with siting and design for the proposed tanks, in accordance with the order.

On September 27, 2010, EPA listed Newtown Creek, the waterway on the border between Brooklyn and Queens, New York, as a Superfund site. On April 6, 2010, EPA notified the City that EPA considers the City a PRP under CERCLA for hazardous substances in Newtown Creek. In its Newtown Creek PRP notice letter, EPA identified historical City activities that filled former wetlands and low lying areas in and around Newtown Creek and releases from formerly City-owned and operated facilities,

including municipal incinerators, as well as discharges from sewers and CSO outfalls, as potential sources of hazardous substances in Newtown Creek. In July, 2011, the City entered into an Administrative Settlement Agreement and Order on Consent (AOC) with EPA and five other PRPs to conduct an investigation of conditions in Newtown Creek and evaluate feasible remedies. The investigation and feasibility study is expected to take approximately seven years. Under the AOC, the City is required to establish and maintain financial security in the amount of \$25 million for the benefit of EPA in order to secure the full and final completion of the work required to be performed under the AOC by the City and the Newtown Creek Group, the group of five companies that are respondents to the AOC, in addition to the City. The City has made its demonstration of financial assurance pursuant to the Resource Conservation and Recovery Act, 40 C.F.R. §258.74(f). This assurance was most recently provided February 2015, to the EPA in satisfaction of the AOC. The City's share will be determined in a future allocation proceeding. The City's share will be determined in a future allocation proceeding. The settlement does not cover any remedy that may ultimately be chosen by EPA to address the contamination identified as a result of the investigation and evaluation.

On May 8, 2014, EPA listed the former Wolff-Alport Chemical Company site (Wolff-Alport Site) in Ridgewood, Queens, as a Superfund site. The designation is based on radioactive contamination resulting from the operations of the Wolff-Alport Chemical Company during the 1920s to 1950s which, among other things, disposed of radioactive thorium on-site and via the sewer system. In 2013, EPA, in cooperation with City and State agencies, completed a response action to implement certain interim remedial measures at the Wolff-Alport Site to address the site's short-term public health risks. The Superfund process will include an investigation of impacts to the sewer system from operations at the Wolff-Alport Site.

The National Park Service (NPS) is undertaking a CERCLA removal action at Great Kills Park on Staten Island to address radioactive contamination that has been detected at the site. Great Kills Park was owned by the City until roughly 1972, when it was transferred to NPS for inclusion in the Gateway National Recreation Area. While owned by the City, the site was used as a sanitary landfill, and the park was also expanded using urban fill. NPS believes that the radioactive contamination is the result of City activities and that the City is, therefore, liable for the investigation and remediation under CERCLA. The City is currently negotiating a settlement with NPS to address a remedial investigation and feasibility study. No other PRPs have been identified at this time.

Under CERCLA, a responsible party may be held responsible for monies expended for response actions at a Superfund site, including investigative, planning, removal, remedial and EPA enforcement actions. A responsible party may also be ordered by EPA to take response actions itself. Responsible parties include, among others, past or current owners or operators of a facility from which there is a release of a hazardous substance that causes the incurrence of response costs. The nature, extent, and cost of response actions at either the Canal, Newtown Creek, the Wolff-Alport Site, or Great Kills Park, the contribution, if any, of discharges from the City's sewer system or other municipal operations, and the extent of the City's liability, if any, for monies expended for such response actions, will likely not be determined for several years and could be material.

6. Interfund Receivables, Payables, and Transfers

At June 30, 2015 and 2014, City and discretely presented component units receivable and payable balances and interfund transfers were as follows:

Governmental activities:

Due from/to other funds:

Receivable by	Payable by	2015	2014

Total	<u>\$ (4,842,426)</u>	<u>\$3,518,579</u>	<u>\$1,477,135</u>	<u>\$ (1,794,599)</u>	<u>\$ 1,641,311</u>
					\$ —

⁽¹⁾ Transfers are used to: (i) move unrestricted General Fund revenues to finance various programs that the City must account for in other funds in accordance with budgetary authorizations, including amounts provided as aid or matching funds for grant programs, (ii) move restricted amounts borrowed by authorized fund or component unit to finance Capital Projects Fund expenditures, (iii) move unrestricted surplus revenue from the General Fund to finance Capital Projects Fund expenditures and prepaid debt service coming due in the next fiscal year, and (iv) move revenue from the fund with collection authorization to the Debt Service Fund as debt service principal and interest payments become due.

In the fiscal year ended 2015, the City made the following transfers: Transfers of unrestricted grants from the General Fund in the amount of \$1,677 million to TFA. These funds were used to fund debt service requirements for future tax secured debt (\$1.6 billion) and building aid revenue debt (\$76.8 million) during the fiscal year ending June 30, 2016.

In the fiscal year ended June 30, 2014, the City made the following one-time transfer: A transfer from the General Fund of an unrestricted grant of \$1,362 million on June 26, 2014 to TFA. These funds were used to fund debt service requirements for future tax secured debt during the fiscal year ending June 30, 2015.

7. Superstorm Sandy

Government Assistance

On October 29, 2012, Superstorm Sandy made landfall in the City. The storm surge and high winds caused significant damage in the City, as well as other states and cities along the U.S. eastern seaboard. The City incurred costs for emergency response and storm related damages to, and destruction of, City buildings and other assets. As of June 30, 2015, the estimated value of damages and recovery costs was approximately \$9.7 billion—this includes \$7.6 billion for capital construction and \$2.1 billion for cleanup, relief, and repairs.

In response to the damages caused by Superstorm Sandy, President Obama signed a major disaster declaration on October 30, 2012, authorizing the Federal Emergency Management Agency (FEMA) to provide Public Assistance grants (PA) to government entities for response and recovery efforts. The emergency declaration supports the reimbursement of eligible emergency work (categorized as Emergency Protective Measures and Debris Removal) and permanent work (categorized as restoration of Roads and Bridges, Water Control Facilities, Buildings and Equipment, Utilities, and Parks and Recreational facilities). On June 26, 2013, the President authorized reimbursement of eligible costs at a 90% rate.

In addition to the FEMA PA, the City has been awarded more than \$4.2 billion of Community Development Block Grant Disaster Recovery (CDBG-DR) funding through the U.S. Department of Housing and Urban Development. The major portion of these funds is being used in a variety of home restoration and replacement programs, small business assistance programs, and resiliency/hazard mitigation programs. The remainder is being used to pay certain Superstorm Sandy-related costs that are not reimbursable by FEMA as well as the 10% non-FEMA share of eligible costs, to the extent that those are eligible for CDBG-DR funding.

Approximately \$2 billion in emergency and recovery spending was obligated for reimbursement by FEMA during the City's Fiscal Year 2015, the remainder of eligible reimbursement will be obligated going forward. To the extent that eligible Superstorm Sandy related costs were incurred as of June 30, 2015, the FEMA reimbursement has been received or accrued as receivable in Fiscal Year 2015.

E. OTHER INFORMATION

1. Audit Responsibility

In Fiscal Years 2015 and 2014, respectively, the separately administered organizations included in the financial statements of the City audited by auditors other than Deloitte & Touche LLP are TSASC, Inc., New York City School Construction Authority, New York City Health and Hospitals Corporation, New York City Housing Development Corporation, New York City Industrial Development Agency, New York City Economic Development Corporation, Business Relocation Assistance Corporation, Brooklyn Navy Yard Development Corporation, Deferred Compensation Plan, WTC Captive Insurance Company, Inc., New York City Educational Construction Fund, Sales Tax Asset Receivable Corporation, Fiscal Year 2005 Securitization Corporation, NYCTL Trusts, New York City Housing Authority, Hudson Yards Infrastructure Corporation, Hudson Yards Development Corporation, Brooklyn Bridge Park Corporation, The Trust for Governors Island, Build NYC, New York City Land Development Corporation, and the New York City Neighborhood Capital Corporation.

	Government-wide				Fund-based			
	Governmental Activities		Component Units		Nonmajor Governmental Funds		Fiduciary Funds	
	2015	2014	2015	2014	2015	2014	2015	2014
Total assets	3%	3%	50%	50%	37%	42%	7%	6%
Revenues, other financing sources and net position held in trust	4%	4%	76%	77%	71%	62%	8%	8%

2. Subsequent Events

The following events occurred subsequent to June 30, 2015:

Long-Term Financing

<i>City Swap Portfolio:</i>	On August 4, 2015, the City terminated a swap with Bank of New York Mellon. The total notional amount terminated was \$364,100,000 and the City received a payment of \$2,410,000 from the Bank of New York Mellon as a result of the termination.
<i>NYCTLT 2015-A:</i>	On August 5, 2015, NYCTLT 2015-A issued Tax Lien Collateralized Bonds, Series 2015-A of \$71,790,000 to fund the purchase of certain liens from the City.
<i>City Debt:</i>	On August 13, 2015, the City issued \$750,475,000 of Fiscal 2016 Series AB General Obligation bonds for refunding purposes.
<i>TFA Debt:</i>	On September 29, 2015, the New York City Transitional Finance Authority issued \$1,150,000,000 of Fiscal 2016 Series A Future Tax Secured bonds for capital purposes.
<i>ECF:</i>	On October 1, 2015, ECF redeemed series 2005A Revenue Bond with an outstanding amount of \$23,455,000.

3. Other Employee Benefit Trust Funds

Deferred Compensation Plans For Employees of The City of New York and Related Agencies and Instrumentalities (DCP) and the New York City Employee Individual Retirement Account (NYCE IRA)

DCP offers employees of The City of New York and Related Agencies and Instrumentalities two defined contribution plans in accordance with Internal Revenue Code Sections 457 and 401(k). DCP permits employees to defer a portion of their salary on either a pre-tax (traditional) or after-tax (Roth) basis until future years. Funds may not be withdrawn until termination, retirement, death, Board-approved unforeseen emergency or hardship (as defined by the Internal Revenue Code) or, if still working for the City, upon attainment of age 70 ½ in the 457 Plan or upon age 59 ½ for the 401(k). A 401(a) defined contribution plan is available to certain employees of the Lieutenant's Benevolent Association and the Captains Endowment Association of The City of New York Police Department.

The NYCE IRA is a deemed Individual Retirement Account (IRA) in accordance with Internal Revenue Code Section 408(q) and is available as both a traditional and Roth IRA to those employees eligible to participate in the 457 Plan and 401(k) Plan and their spouses along with former employees and their spouses. Funds may be withdrawn from the NYCE IRA at any time, subject to an early withdrawal penalty.

Amounts maintained under a deferred compensation plan and an IRA by a state or local government are held in trusts (or in a custodial accounts) for the exclusive benefit of participants and their beneficiaries. The DCP plans and IRA are presented together as an Other Employee Benefit Trust Fund in the City's financial statements.

Participants in DCP or NYCE IRA can choose among seven investment options, or one of twelve pre-arranged portfolios consisting of varying percentages of those investment options. Participants can also invest a portion of their assets in a self-directed brokerage option.

The New York City Other Postemployment Benefits Plan (OPEB Plan)

The OPEB Plan is a fiduciary component unit of the City and is composed of: (1) the New York City Retiree Health Benefits Trust (RHBT) which is used to receive, hold, and disburse assets accumulated to pay for some of the OPEB provided by the City to its retired employees, and (2) OPEB paid for directly by the City out of its general resources rather than through RHBT. RHBT was established for the exclusive benefit of the City's retired employees and their eligible spouses and dependents, to fund some of the OPEB provided in accordance with the City's various collective bargaining agreements and the City's Administrative Code. Amounts contributed to RHBT by the City are held in an irrevocable trust and may not be used for any other purpose than to fund the costs of health and welfare benefits of its eligible participants. Consequently, the OPEB Plan is presented as an Other Employee Benefit Trust Fund in the City's financial statements. The separate annual financial statements of the OPEB Plan are available at: Office of the Comptroller, Bureau of Accountancy—Room 200 South, 1 Centre Street, New York, New York 10007, or at www.comptroller.nyc.gov.

Summary of Significant Accounting Policies:

Basis of Accounting. The measurement focus of the OPEB Plan is on the flow of economic resources. This focus emphasizes the determination of changes in the OPEB Plan's net position. With this measurement focus, all assets and liabilities associated with the operation of this fiduciary fund are included on the *Statement of Fiduciary Net Position*. This fund uses the accrual basis of accounting whereby contributions from the employer are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Method Used to Value Investments. Investments are reported on the *Statement of Fiduciary Net Position* at fair value based on quoted market prices.

The Schedule of Funding Progress of OPEB valuations appears in the RSI Section, immediately following the notes to financial statements.

4. Other Postemployment Benefits

Program Description. The New York City Health Benefits Program (Program) is a single-employer defined benefit healthcare plan funded by PLAN, an Other Employee Benefit Trust Fund of the City, which provides Other Postemployment Benefits (OPEB) to eligible retirees and beneficiaries. OPEB includes: health insurance, Medicare Part B Premium reimbursements and welfare fund contributions. PLAN issues a publicly available financial report that includes financial statements and required supplementary information for funding PLAN's OPEB and the report is available at: Office of the Comptroller, Bureau of Accountancy—Room 200 South, 1 Centre Street, New York, New York 10007.

Funding Policy. The Administrative Code of The City of New York (ACNY) defines OPEB to include Health Insurance and Medicare Part B Premium reimbursements; Welfare Fund Benefits stem from the City's various collective bargaining agreements. The City is not required by law or contractual agreement to provide funding for the Program other than the pay-as-you-go (PAYG) amounts necessary to provide current benefits to retirees and eligible beneficiaries/dependents. For the fiscal year ended June 30, 2015, the City paid \$3.1 billion on behalf of the Program. Based on current practice (the Substantive Plan which is derived from ACNY, the City pays the full cost of basic coverage for non-Medicare-eligible/Medicare-eligible retiree participants. The costs of these benchmark plans are reflected in the actuarial valuations by using age and gender adjusted premium amounts. Program retiree participants who opt for other basic or enhanced coverage must contribute 100% of the incremental costs above the premiums for the benchmark plans. The City also reimburses covered employees and eligible spouses 100% of the Medicare Part B Premium rate applicable to a given year and there is no retiree contribution to the Welfare Funds. The City pays per capita contributions to the Welfare Funds, the amounts of which are based on negotiated contract provisions.

Annual OPEB Cost and Net OPEB Obligation. The City's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount that was actuarially determined by using the Entry Age Actuarial Cost Method (one of the actuarial cost methods in accordance with the parameters of GASB Statement No. 45).

The method is unchanged from the actuarial cost method used in the prior OPEB actuarial valuation.

Under this method, as used in the June 30, 2014 OPEB actuarial valuation, the Actuarial Present Value (APV) of Benefits (APVB) of each individual included in the actuarial valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit age(s). The employer portion of this APVB allocated to a valuation year is the Employer Normal Cost. The portion of this APVB not provided for at a valuation date by the APV of Future Employer Normal Costs is the Actuarial Accrued Liability (AAL).

The excess, if any, of the AAL over the Actuarial Asset Value (AAV) is the Unfunded Actuarial Accrued Liability (UAAL).

Under this method, actuarial gains (losses), as they occur, reduce (increase) the UAAL and are explicitly identified and amortized.

Increases (decreases) in obligations due to benefit changes, actuarial assumption changes and/or actuarial method changes are also explicitly identified and amortized.

The following table shows the elements of the City's annual OPEB cost for the year, the amount actually paid on behalf of the Program, and changes in the City's net OPEB obligation to the Program for the year ended June 30, 2015:

	<u>Amount</u> (in thousands)
Annual required contribution	\$ 88,620,926
Interest on net OPEB obligation	3,579,405
Adjustment to annual required contribution ..	<u>(93,064,528)</u>
Annual OPEB expense	(864,197)
Payments made	<u>3,136,373</u>
Increase in net OPEB obligation	(4,000,570)
Net OPEB obligation-beginning of year	<u>89,485,122</u>
Net OPEB obligation-end of year	<u>\$ 85,484,552</u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the Program, and the net OPEB obligation for the fiscal years ended June 30, 2015, 2014, 2013, 2012, 2011, and 2010 were as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u> (\$ in thousands)	<u>Percentage of Annual OPEB Cost Paid</u>	<u>Net OPEB Obligation</u>
6/30/15	\$ (864,197)	**	\$85,484,552
6/30/14	78,551	3,965.3%	89,485,122
6/30/13	5,542,845	21.6	92,521,346
6/30/12	5,707,001	25.2	88,174,139
6/30/11	10,494,993	15.0	83,906,953
6/30/10	11,021,425	14.3	74,984,832

** Not Determined due to Annual OPEB Cost (AOC) being less than zero. This results from the impact of one-year amortization of experience gains and one-year amortization of actuarial assumption changes established as of June 30, 2014.

Funded Status and Funding Progress. As of June 30, 2014, the most recent actuarial valuation date, the funded status was 3.4%. The actuarial accrued liability for benefits was \$70.4 billion, and the actuarial value of assets was \$2.4 billion, resulting in an unfunded actuarial accrued liability (UAAL) of \$68.0 billion. The covered payroll (annual payroll of active employees covered) was \$20.7 billion, and the ratio of the UAAL to the covered payroll was 328.3%. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The determined actuarial valuations of OPEB incorporated the use of demographic and salary increase assumptions among others as reflected below. Amounts determined regarding the funded status and the annual required contributions of the City are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, shown in the RSI section immediately following the notes to financial statements, disclosures required by GASB Statement No. 43 for OPEB Plan reporting, presents GASB Statement No. 45 results of OPEB valuations as of June 30, 2014, 2013, 2012, 2011, 2010, 2009, 2008, and 2007 and the schedule provides an eight year information trend about whether the actuarial values of PLAN assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. The actuarial assumptions used in the June 30, 2014 and 2013 OPEB actuarial valuations are classified as those used in the New York City Retirement Systems (NYCRS) valuations and those specific to the OPEB valuations. NYCRS consist of: (i) New York City Employees' Retirement System (NYCERS); (ii) Teachers' Retirement System of The City of New York Qualified Pension Plan (TRS); (iii) New York City Board of Education Retirement System Qualified Pension Plan (BERS); (iv) New York City Police Pension Fund (POLICE); and (v) New York Fire Department Pension Fund (FIRE). The OPEB actuarial valuations incorporate only the use of certain NYCRS demographic and salary increase assumptions. The NYCRS demographic and salary scale assumptions are unchanged from the prior OPEB actuarial valuation. For purposes of determining pension obligations, the demographic and salary scale assumptions requiring NYCRS Board approval (available on the website of the Office of the Actuary at www.nyc.gov/actuary) were adopted by each respective Board of Trustees during fiscal year 2012 (the Silver Books). Chapter 3 of the Laws of 2013 enacted those actuarial assumptions and methods that require New York State Legislation.

The OPEB-specific actuarial assumptions used in the June 30, 2014 OPEB actuarial valuation of the Plan are as follows:

Valuation Date	June 30, 2014.
Discount Rate	4.0% per annum. ⁽¹⁾
Actuarial Cost Method	Entry Age calculated on an individual basis with the Actuarial Value of Projected Benefits allocated on a level basis over earnings from hire through age of exit.
Per-Capita Claims Costs	HIP HMO and GHI/EBCBS benefit costs reflect age adjusted premiums. GHI/EBCBS non-Medicare premiums adjusted for Health Savings Agreement changes. Age adjustments based on assumed age distribution of covered population used for non-Medicare retirees and HIP HMO Medicare retirees.
	Age adjustment based on actual age distribution of the GHI/EBCBS Medicare covered population.
	Insured premiums without age adjustment for other coverage. Premiums assumed to include administrative costs.

⁽¹⁾ 2.5% CPI, 1.5% real rate of return on short-term investments.

Employer premium contribution schedules for the month of July 2014 and January 2015 were reported by OLR. In most cases, the premium contributions remained the same throughout the year. HIP HMO Medicare rates varied by date and by specific Plan option. These variations are the result of differing Medicare Advantage reimbursements. The various monthly rates were blended by proportion of enrollment. For other rates, where the January 2015 premium rate was different than the July 2014 premium rate, the valuation assumed that the January 2015 premium rate was more representative of the long-range cost of the arrangement.

Initial monthly premium rates used in valuations are shown in the following tables:

Plan	Monthly Rates	
	FY'15 ⁽¹⁾	FY'14 ⁽²⁾
HIP HMO		
Non-Medicare Single	\$ 586.10	\$ 579.04
Non-Medicare Family	1,435.95	1,418.66
Medicare	157.55	149.42
GHI/EBCBS		
Non-Medicare Single	507.79 ⁽³⁾	459.63
Non-Medicare Family	1,319.83 ⁽³⁾	1,194.24
Medicare	160.86	159.69
Others		
Non-Medicare Single	586.10	579.04
Non-Medicare Family	1,435.95	1,418.66
Medicare	160.86	159.69

⁽¹⁾ Used in June 30, 2014 OPEB actuarial valuation.

⁽²⁾ Used in June 30, 2013 OPEB actuarial valuation.

⁽³⁾ For June 30, 2014 valuation, GHI/EBCBS Pre-Medicare premiums decreased 2.05% to reflect 2014 Health Savings Agreement change to Care Management program and speciality drug (PICA) changes.

Welfare Funds For the June 30, 2014 valuation, the Welfare Fund contribution reported for Fiscal Year 2015, (including any reported retroactive amounts) was used as the per capita cost for valuation purposes. The amount used included the \$25 increase effective July 1, 2014 under the 2014 MLC-NYC Health Savings Agreement, as well as further \$25 annual increases effective July 1, 2015, July 1, 2016 and July 1, 2017. It is assumed that all Welfare Funds will ultimately be subject to that agreement, whether or not the union running the particular Welfare Fund has currently signed.

For the June 30, 2013 valuation, the Welfare Fund contributions reflected a three-year trended average of reported annual contribution amounts for current retirees. A trended average was used instead of a single reported Welfare Fund amount to smooth out negotiated variations. The Welfare Fund rates reported for the previous two valuations were trended to current levels based on a historic increase rate of 1.57% for Fiscal Year 2014 (used in calculating the impact of the negotiated Welfare Fund change), 1.64% for Fiscal Year 2013, and 2.33% for Fiscal Year 2012, approximating overall recent growth of Welfare Fund contributions.

For the June 30, 2013 OPEB actuarial valuation, certain lump-sum amounts had been included in calculating the three-year trended average. Furthermore, retroactive adjustments to Welfare Fund contribution rates were used in the trended average as of the dates they were effective (i.e., using the retroactive date).

Reported annual contribution amounts for the last three years are shown in Appendix B, Tables 2a to 2e of the Tenth Annual Actuarial Valuation of Other Postemployment Benefits Provided under the New York City Health Benefits Program (Tenth Annual OPEB Report) dated September 17, 2015. The amounts shown for Fiscal Year 2015 as of June 30, 2014, increased by \$25 as of July 1, 2014, are used for current retirees.

Welfare Fund rates based on actual reported Union Welfare Fund code for current retirees. Where Union Welfare Fund code was missing, the most recently reported union code was reflected.

Weighted average annual contribution rates used for future retirees are shown in the following table. These averages were developed based on Welfare Fund enrollment of recent retirees (during the five years prior to the valuation).

	Annual Rate	
	FY'15	FY'14
NYCERS	\$1,693	\$1,700
TRS	1,746	1,754
BERS	1,677	1,683
POLICE	1,614	1,620
FIRE	1,707	1,712

Contributions were assumed to increase by Medicare Plans trend rates. For the June 30, 2014 OPEB actuarial valuation, the assumed increases were replaced by the negotiated \$25 increase for the next 3 fiscal years.

For Welfare Fund contribution amounts reflected in the June 30, 2013 OPEB actuarial valuation for current retirees, see the Ninth Annual OPEB Report.

Medicare Part B Premiums	<u>Calendar Year</u>	<u>Monthly Premium</u>
	2012	\$ 99.90
	2013	104.90
	2014	104.90
	2015	104.90*

* Reflected only in June 30, 2014 OPEB actuarial valuation.

2015 Medicare Part B Premium assumed to increase by Medicare Part B trend rates.

Medicare Part B Premium reimbursement amounts have been updated to reflect actual premium rates announced for Calendar Years through 2015. The actual 2016 Medicare Part B Premium was not announced at the time these calculations were prepared and, thus, was not reflected in the valuation. Social Security cost-of-living adjustment for calendar year 2016 benefits was not announced as of the time these calculations were prepared. Thus, Social Security benefits were assumed to increase such that Medicare Part B Premiums were not frozen at 2015 levels based on Social Security benefit amounts.

For the June 30, 2013 OPEB actuarial valuation (i.e., Fiscal Year 2014), the annual Premium used (i.e., \$1,258.80) equaled 6 months of the Calendar Year 2013 premium plus 6 months of the Calendar Year 2014 premium.

For the June 30, 2014 OPEB actuarial valuation (i.e., Fiscal Year 2015), the annual Premium used (i.e., \$1,258.80) equals 6 months of the Calendar Year 2014 premium (i.e., \$104.90) plus 6 months of the Calendar Year 2015 Premium (i.e., \$104.90).

Future Calendar Year Medicare Part B Premium rates are projected from the Calendar Year 2015 rate of \$104.90 using the assumed Medicare Part B Premium trend.

Overall Medicare Part B Premium amounts are assumed to increase by the following percentages to reflect the income-related increases in Medicare Part B Premiums for high income individuals. The percentages assumed for the June 30, 2014 OPEB actuarial valuation have been increased to reflect revisions to the income-related Part B Premium provisions as adopted in the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA). Percentages assumed based on CMS income distribution published statistics and provisions of Social Security Act related to Medicare Part B Premium amounts, both before and after MACRA changes. Percentage amount compared to actual IRMAA payments reported by OLR through calendar year 2012.

<u>Fiscal Year</u>	<u>Income-related Medicare Part B Increase</u>	
	<u>June 30, 2014 Valuation</u>	<u>June 30, 2013 Valuation</u>
2014	NA	3.7%
2015	3.8%	3.8
2016	3.9	3.9
2017	4.0	4.0
2018	4.5	4.1
2019	5.0	4.2
2020	5.2	4.3
2021	5.3	4.4
2022	5.4	4.5
2023	5.5	4.6
2024	5.6	4.7
2025	5.8	4.8
2026	5.9	4.9
2027 and later	6.0	5.0

Medicare Part B Premium

Reimbursement Assumption For the June 30, 2014 OPEB actuarial valuation, 90% of Medicare participants are assumed to claim reimbursement (unchanged from last year). Percentage based on claim counts reported by OLR for calendar years 2007 through 2013.

Health Care Cost Trend Rate

("HCCTR") Covered medical expenses are assumed to increase by the following percentages (unchanged from the last valuation). For purposes of measuring entry age calculations, actual historic plan increases are reflected to the extent known, with further historic trend rates based on the trend assumed for Fiscal Year 2015 (initial trend).

HCCTR Assumptions			
Year Ending ⁽¹⁾	Pre-Medicare Plans	Medicare Plans	Medicare Part B Premiums
2015 ⁽²⁾	9.0%	5.0%	6.0%
2016 ⁽³⁾	8.5	5.0	5.5
2017	8.0	5.0	5.0
2018	7.5	5.0	5.0
2019	7.0	5.0	5.0
2020	6.5	5.0	5.0
2021	6.0	5.0	5.0
2022	5.5	5.0	5.0
2023 and Later	5.0	5.0	5.0

⁽¹⁾ Fiscal Year for Pre-Medicare Plans and Medicare Plans and Calendar Year for Medicare Part B Premiums.

⁽²⁾ For the June 30, 2014 OPEB actuarial valuation, rates shown for 2015 were not reflected since actual values for the Fiscal Year 2015 per capita costs, Fiscal Year 2015 Welfare Fund contributions and Calendar Year 2015 Medicare Part B Premium amounts were used.

⁽³⁾ For the June 30, 2014 OPEB actuarial valuation, HIP and HMO Pre-Medicare trend assumed to be 2.89% based on 2014 Health Care Savings Agreement initiatives.

Age- and Gender-Related Morbidity

The premiums are age adjusted for HIP HMO and GHI/EBCBS participants. Beginning with June 30, 2012 OPEB actuarial valuation, the premiums are also adjusted for gender.

Beginning with the June 30, 2012 OPEB actuarial valuation, the assumed relative costs of coverage are consistent with information presented in *Health Care Costs—From Birth to Death*, prepared by Dale H. Yamamoto⁽²⁾ ("Yamamoto Study").

For non-Medicare costs, relative factors were based on graduated 2010 PPO/POS data as presented in Chart 28 of the Yamamoto Study. The resultant relative factors, normalized to the male age 65 rate, used for non-Medicare costs (unchanged from the previous OPEB actuarial valuation) are as follows:

<u>Age</u>	<u>Male</u>	<u>Female</u>	<u>Age</u>	<u>Male</u>	<u>Female</u>
20	0.170	0.225	43	0.325	0.480
21	0.157	0.227	44	0.340	0.487
22	0.147	0.236	45	0.355	0.495
23	0.143	0.252	46	0.372	0.505
24	0.143	0.274	47	0.391	0.519
25	0.146	0.301	48	0.412	0.536
26	0.151	0.329	49	0.437	0.556
27	0.157	0.357	50	0.463	0.576
28	0.165	0.384	51	0.491	0.597

Children costs were assumed to represent a relative factor of .229.

⁽²⁾ http://www.healthcostinstitute.org/files/Age-Curve-Study_0.pdf. Retrieved July 15, 2013. The Study was sponsored by the Society of Actuaries and is part of the Health Care Cost Institute's Independent Report Series.

For Medicare costs, relative factors based on the Yamamoto Study for net Medicare costs for 2010 for inpatient, outpatient and professional costs were blended. Prescription drug costs were not reflected as NYCHBP excludes most drugs from coverage. Professional costs were weighted at 64%, based on the GHI portion of the combined GHI/EBCBS premiums reported historically. Inpatient costs were weighted as twice as prevalent as outpatient costs based on the relative allocation suggested in the Yamamoto Study. Costs prior to age 65 were approximated using the non-Medicare data, but assuming that individuals under age 65 on Medicare had an additional disability-related morbidity factor. The resultant Medicare relative factors are as follows:

<u>Age</u>	<u>Males</u>	<u>Females</u>	<u>Age</u>	<u>Males</u>	<u>Females</u>
20	0.323	0.422	60	1.493	1.470
21	0.297	0.426	61	1.567	1.526

59	1.423	1.419	99+	1.281	0.978

For the June 30, 2013 and June 30, 2014 OPEB actuarial valuations, an actual age and gender distribution based on reported census information was used for Medicare-eligible participants. For the June 30, 2013 and June 30, 2014 OPEB actuarial valuations, the Medicare participants in the HIP Medicare Advantage arrangement were assumed to have the same age and gender distribution as the data underlying the Yamamoto Study.

For the June 30, 2013 and June 30, 2014 OPEB actuarial valuations, the age and gender of non-Medicare eligible participants were based on the following assumed distribution table, assuming a total of 2,354 single contracts and 2,492 family contracts.

Age Range	Members Used	
	Male	Female
00-00	64	64
01-01	67	67
02-04	210	210
05-09	373	373
10-14	403	403
15-19	388	371
20-24	310	323
25-29	338	357
30-34	431	447
35-39	481	499
40-44	495	530
45-49	446	486
50-54	392	422
55-59	271	272
60-64	173	166
65+	89	76

For the June 30, 2014 OPEB actuarial valuation, the age adjustment for the non-Medicare GHI/EBCBS premium reflects a 5% reduction in the GHI portion of the monthly premium (with the GHI portion representing \$247.74 out of \$507.79 single and \$657.40 out of \$1,319.83 Family) and a 3% reduction in the EBCBS portion of the premium (with the EBCBS portion representing the remainder of the \$507.79 and \$1,319.83 premiums) for the estimated margin anticipated to be returned.

No adjustment was assumed for margin for the June 30, 2013 valuation.

The morbidity factors are used to age-adjust the reported premiums for the HIP and GHI/EBCBS arrangements. The stated premiums provided to OA by OLR reflect average cost of retirees and actives of the Program, not all of whom are included in this valuation report. The assumed underlying cost of the benefit provided to retirees is developed by taking the stated premiums, removing any known margin to get to underlying expected cost of benefits provided (including administrative costs), adjusting for any plan changes, and then finally adjusting for the age and gender of the particular retiree. The age and gender is compared to a distribution for the age and gender of the overall population reflected in developing the stated premium. The distribution can reflect the actual age and gender of the covered population, or can be an estimate if the actual data is not available.

Medicare Advantage Adjustment Factors . . . The age-adjusted premiums for HIP HMO Medicare-eligible retirees were multiplied by the following factors to reflect actual Calendar Year 2015 premiums and future anticipated changes in Medicare Advantage reimbursement rates. As of June 30, 2009, the factors had been updated to reflect that Medicare Advantage reimbursement rates are expected to be significantly reduced over the next several years. The reductions in the reimbursement rates were part of the NHCR legislation and are likely to be most significant in areas where medical costs are greater, such as New York City. In

developing the adjustment factors for the June 30, 2014 and the June 30, 2013 OPEB actuarial valuations, it was assumed that the cost of HIP coverage would not be allowed to exceed the cost of GHI/EBCBS coverage for Medicare retirees. Since for the June 30, 2014 valuation, the reported calendar year 2015 HIP Medicare Advantage premium is within 1/2% of the Fiscal Year 2015 GHI/EBCBS Medicare rate, the assumption that HIP would not be allowed to exceed the GHI/EBCBS rate has resulted in a factor of 1.0 for all future years. The adjustment factors used as of June 30, 2013 are shown for comparative purposes.

<u>Fiscal Year</u>	<u>Factor*</u>	
	<u>6/30/14 Valuation</u>	<u>6/30/13 Valuation</u>
2014	1.00%	1.00%
2015	1.00	1.03
2016	1.00	1.04
Thereafter	1.00	1.04

* Includes anticipated impact of National Health Care Reform

Medicare Medicare is assumed to be the primary payer over age 65 and for retirees currently on Medicare. For future disability retirements, Medicare is assumed to start 2.5 years after retirement for the following portion of retirees:

	<u>Valuation as of June 30</u>	
	<u>2014</u>	<u>2013</u>
NYCERS	35%	35%
TRS	45	45
BERS	45	45
POLICE	15	15
FIRE	20	20

Participation Active participation assumptions based on current retiree elections. Actual elections for current retirees. Portions of current retirees not eligible for Medicare are assumed to change elections upon attaining age 65 based on patterns of elections of Medicare-eligible retirees. Detailed assumptions appear in the following table:

<u>PLAN PARTICIPATION ASSUMPTIONS</u>					
<u>Benefits</u>	<u>June 30, 2014 and June 30, 2013 Valuations</u>				
	<u>NYCERS</u>	<u>TRS</u>	<u>BERS</u>	<u>POLICE</u>	<u>FIRE</u>
<u>Pre-Medicare</u>					
-GHI/EBCBS	65%	83%	73%	76%	71%
-HIP HMO	22	6	16	13	16
-Other HMO	8	4	3	9	12
-Waiver	5	7	8	2	1
<u>Medicare</u>					
-GHI	72	87	78	82	77
-HIP HMO	21	9	16	12	16
-Other HMO	4	2	2	4	6
-Waiver	3	2	4	2	1
<u>Post-Medicare Migration</u>					
-Other HMO to GHI	50	0	33	50	50
-HIP HMO to GHI	0	0	0	0	0
-Pre-Med. Waiver					
** To GHI @ 65	13	35	50	0	0
** To HIP @ 65	13	35	0	0	0

Waivers are assumed to include participants who do not qualify for coverage because they were working less than 20 hours a week at termination.

Dependent Coverage Dependent coverage is assumed to terminate when a retiree dies, except in the following situations.

- I. Lifetime coverage is provided to the surviving spouse or domestic partner and to children (coverage to age 26 based on legislative mandates under National Health Care Reform) of uniformed members of the Police or Fire Departments who die in the Line of Duty.
- II. Effective November 13, 2001, other surviving spouses of retired uniformed members of the Police and Fire Departments may elect to continue coverage for life by paying 102% of stated premium.
- III. Effective August 31, 2010, surviving spouses of retired uniformed members of the Departments of Correction and Sanitation may elect to continue coverage for life by paying 102% of stated premium.

For survivors of POLICE and FIRE who die other than in the Line of Duty (assumed to be all who terminate with Accidental Death Benefits), and for all survivors of uniformed members of the Departments of Correction and Sanitation, the valuation assumes that 30% of spouses eligible for survivor continuation will elect the benefit, with costs equal to 30% greater than the age-adjusted premiums for surviving spouses for HIP HMO and GHI/EBCBS participants.

Beginning with the June 30, 2010 OPEB actuarial valuation, the valuation includes an estimate of the value of benefits provided to existing survivors of POLICE and FIRE retirees who died other than in the Line of Duty, who qualified for lifetime continuation coverage prior to the valuation date, based on the assumptions outlined above. Beginning with the June 30, 2012 OPEB actuarial valuation, the valuation includes an estimate of the value of benefits provided to existing survivors of retired uniformed members of the Departments of Correction and Sanitation who qualified for lifetime continuation coverage prior to the valuation date, based on the assumptions outlined above.

The valuation includes the entire cost of additional surviving spouse benefits for basic coverage and Medicare Part B Premium reimbursement for Line of Duty survivors, although the OA understands that some of this amount may be reimbursed through Welfare Funds.

Dependents Dependent assumptions based on distribution of coverage of recent retirees are shown in the following table. Actual spouse data for current retirees. Child dependents of current retirees are assumed to receive coverage until age 26.

Beginning with the June 30, 2012 valuation, based on experience under the Plan, for NYCERS, TRS and BERS employees, male retirees were assumed to be four (4) years older than their wives, and female retirees were assumed to be two (2) years younger than their husbands; for POLICE and FIRE employees, husbands are assumed to be two (2) years older than their wives. Children are assumed to be covered for eight (8) years after retirement. For employees eligible to retire based only on service, children are assumed to be covered for an additional five (5) years.

Group	Dependent Coverage Assumptions				
	June 30, 2014 and June 30, 2013 Valuations				
	NYCERS	TRS	BERS	POLICE	FIRE
<u>Male</u>					
–Single Coverage	30%	45%	35%	15%	10%
–Spouse	40	35	55	15	20
–Child/No Spouse	5	5	2	5	5
–Spouse and Child	25	15	8	65	65
Total	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>
<u>Female</u>					
–Single Coverage	70%	60%	60%	45%	10%
–Spouse	20	32	35	10	20
–Child/No Spouse	5	3	2	25	5
–Spouse and Child	5	5	3	20	65
Total	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>

Note: For accidental death, 80% of POLICE and FIRE members are assumed to have family coverage.

Demographic Assumptions The same assumptions that were used to value the pension benefits of the NYCERS for determining employer contributions for fiscal years beginning 2012 adopted by the Boards of Trustees (see the Silver Books).

For assumptions used in the June 30, 2013 OPEB actuarial valuation, see the Ninth Annual OPEB Report.

COBRA Benefits Although COBRA beneficiaries pay 102% of “premiums,” typical claim costs for COBRA participants run about 50% greater than other participants.

There is no cost to the City for COBRA beneficiaries who enroll in community-rated HMO’s, including HIP, since these individuals pay their full community rate. However, the City’s costs under the experience-rated GHI/EBCBS coverage are affected by the claims for COBRA-covered individuals.

In order to reflect the cost of COBRA coverage, the cost of excess claims for GHI covered individuals and families is estimated assuming 15% of employees not eligible for other benefits included in the valuation elect COBRA coverage for 15 months. These assumptions are based on experience of other large employers. This percentage is applied to the overall enrollment in the active plan and reflects a load for individuals not yet members of the retirement systems who are still eligible for COBRA benefits. This results in an assumption in the June 30, 2014 OPEB actuarial valuation of a lump-sum COBRA cost of \$875 for terminations during Fiscal Year 2015 (\$800 lump-sum cost during Fiscal Year 2014 was assumed in the June 30, 2013 OPEB actuarial valuation). The \$875 (\$800) lump-sum amount is increased by the Pre-Medicare HCCTR for future years but is not adjusted for age-related morbidity.

Cadillac Tax Effective June 30, 2012, the OPEB actuarial valuation includes an explicit calculation of the high-cost plan excise tax (“Cadillac Tax”) that will be imposed beginning in 2018 under NHCR.

The tax is 40% of the excess of (a) over (b) where (a) is the cost of medical coverage, and (b) is the statutory limits (\$10,200 for single coverage and \$27,500 for family coverage), adjusted for the following:

- The limit will first be increased by the excess of accumulated trend for the period from 2010 through 2018 over 55% (reflecting the adjustment for excess trend on the standard Federal Blue Cross/Blue Shield option). The calculation reflects actual trend on the standard Federal Blue Cross/Blue Shield option for 2010 through 2015. Trend was estimated using the Pre-Medicare trend for the period from 2015 through 2018 and actual Federal Blue Cross/Blue Shield trend for the period 2010-2015.
- For Pre-Medicare retirees above the age of 55, the limit will be further increased by \$1,650 for single coverage; \$3,450 for family coverage.
- For 2019, the 2018 limit was increased by CPI + 1% (e.g. 3.5%). For each year after 2019, the limit is further increased by CPI (2.5%).

The impact of the Cadillac Tax for the NYCHBP benefits is calculated based on the following assumptions about the cost of medical coverage:

- Benefit costs were based on Pre-Medicare and Medicare plan premiums as stated, without adjustment for age.
- For Medicare participants, the cost of reimbursing the Medicare Part B Premium was reflected based on average cost assumed in the valuation, including IRMAA.
- The cost for each benefit option (GHI, HIP, or other HMO, combined with Medicare Part B Premium reimbursement, if applicable) was separately compared to the applicable limit.
- The additional Cadillac Tax due to the riders or optional benefit arrangements is assumed to be reflected in the contribution required for the rider or optional benefit.
- The additional Cadillac Tax due to amounts provided by Welfare Fund benefits is assumed to be absorbed by the Welfare Fund or by lower net Welfare Fund contribution amounts.
- There is no assumption of additional amounts required from the various benefit administrators due to the fact that the Cadillac Tax is not deductible to tax-paying entities. Instead, it is assumed that by 2018, financial arrangements are structured such that the tax exempt status of the City results in no need to gross up the cost of the Cadillac Tax for additional taxes.
- The additional amount for Pre-Medicare retirees above age 55 is available to Medicare retirees or retirees who are younger than age 55 for plans sponsored by an employer where the majority of employees are engaged in high-risk professions including law enforcement officers and fire fighters. It has been assumed that the majority of the employees of the City are not engaged in such professions and have not extended the adjustment to these additional ages.

In cases where the City provides only a portion of the OPEB benefits which give rise to the Cadillac Tax, the calculated Cadillac Tax is allocated to the appropriate paying entity in proportion to the OPEB liabilities for relevant OPEB benefits.

Active/Inactives Liabilities	Beginning with the June 30, 2010 OPEB actuarial valuation, it was assumed that the liability for the Active/Inactive members should be 40% of the measured liability of the Active/Inactive population. This is roughly equivalent to assuming that 60% of the Active/Inactive members will terminate membership prior to vesting and not receive OPEB. Beginning with the June 30, 2012 OPEB actuarial valuation, the Entry Age Actuarial Accrued Liability is assumed to include the 40% of the measured present value of projected benefits.
Stabilization Fund	A .6% load is applied on all City GASB45 obligations (.7% last year). The same loads apply to the GASB43 obligations in the current and preceding valuation. The load is not applicable to Component Units.
Educational Construction Fund	The actuarial assumptions used for determining GASB45 obligations for ECF are shown in Appendix E of the Tenth Annual Actuarial Valuation of Other Postemployment Benefits Provided under the New York City Health Benefits Program (Report) dated September 17, 2015. The Report is available at the Office of the Comptroller, Bureau of Accountancy—Room 200 South, 1 Centre Street, New York, New York 10007 and on the website of the New York City Office of the Actuary (http://www.nyc.gov/html/actuary).
CUNY TIAA	The actuarial assumptions used for determining obligations for CUNY TIAA are shown in Appendix F of the Tenth Annual Actuarial Valuation of Other Postemployment Benefits Provided under the New York City Health Benefits Program (Report) dated September 17, 2015. The Report is available at the Office of the Comptroller, Bureau of Accountancy—Room 200 South, 1 Centre Street, New York, New York 10007 and on the website of the New York City Office of the Actuary (http://www.nyc.gov/html/actuary).

5. Pensions

Plan Descriptions

The City sponsors or participates in five pension trusts providing benefits to its employees, the majority of whom are members of one of these pension trusts (collectively referred to as NYCERS). Each of the trusts administers a qualified pension plan (QPP) and one or more variable supplements funds (VSFs) or tax-deferred annuity programs (TDA Programs) that supplement the pension benefits provided by the QPP. The trusts administered by NYCERS function in accordance with existing State statutes and City laws, which are the basis by which benefit terms and employer and member contribution requirements are established. The QPPs combine features of a defined benefit pension plan with those of a defined contribution pension plan; however, they are considered defined benefit plans for financial reporting purposes. The VSFs are considered defined benefit pension plans and the TDA Programs are considered defined contribution plans for financial reporting purposes. A brief description of each of the NYCERS and the individual plans they administer follows:

1. New York City Employees' Retirement System (NYCERS) administers the NYCERS QPP and five VSFs. The NYCERS QPP is a cost-sharing multiple-employer pension plan that provides pension benefits for employees of the City not covered by one of the other NYCERS, and employees of certain component units of the City and certain other governmental units.

NYCERS also administers the following VSFs, which operate pursuant to the provisions of Title 13, Chapter 1 of the Administrative Code of The City of New York (ACNY):

- Transit Police Officers' Variable Supplements Fund (TPOVSF), which provides supplemental benefits to NYCERS QPP members who retire for service on or after July 1, 1987 with 20 or more years of service as Transit Police Officers.
- Transit Police Superior Officers' Variable Supplements Fund (TPSOVSF), which provides supplemental benefits to NYCERS QPP members who retire for service on or after July 1, 1987 as Transit Police Superior Officers with 20 or more years of service.

- Housing Police Officers' Variable Supplements Fund (HPOVSF), which provides supplemental benefits to NYCERS QPP members who retire for service on or after July 1, 1987 with 20 or more years of service as Housing Police Officers.
- Housing Police Superior Officers' Variable Supplements Fund (HPSOVSF), which provides supplemental benefits to NYCERS QPP members who retire for service on or after July 1, 1987 as Housing Police Superior Officers with 20 or more years of service.
- Correction Officers' Variable Supplements Fund (COVSF), which provides supplemental benefits to NYCERS QPP members who retire for service on or after July 1, 1999 (with 20 or 25 years of service, depending upon the plan) as members of the Uniformed Correction Force.

TPOVSF, TPSOVSF, HPOVSF, and HPSOVSF are closed to new entrants.

2. Teachers' Retirement System of The City of New York (TRS) administers the TRS QPP and the TRS TDA Program. The TRS QPP is a cost-sharing, multiple-employer pension plan for pedagogical employees in the public schools of the City and certain Charter Schools and certain other specified school and CUNY employees. The TRS TDA Program was established and is administered pursuant to Internal Revenue Code Section 403(b) and Chapter 4 of Title 13 of ACNY. The TRS TDA Program provides a means of deferring income tax payments on members' voluntary pre-tax contributions and earnings thereon until the periods after retirement or upon withdrawal of contributions. Members of the TRS QPP have the option to participate in the TRS TDA Program.
3. New York City Board of Education Retirement System (BERS) administers the BERS QPP and the BERS TDA Program. The BERS QPP is a cost-sharing, multiple-employer pension plan for non-pedagogical employees of the Department of Education and certain Charter Schools and certain employees of the School Construction Authority. The BERS TDA Program was established and is administered pursuant to Internal Revenue Code Section 403(b), the New York State Education Law and the BERS Rules and Regulations. The BERS TDA Program provides a means of deferring income tax payments on members' voluntary pre-tax contributions and earnings thereon until the periods after retirement or upon withdrawal of contributions. Members of the BERS QPP have the option to participate in the BERS TDA Program.
4. New York City Police Pension Fund (POLICE) administers the POLICE QPP, along with the Police Officers' Variable Supplements Fund (POVSF) and Police Superior Officers' Variable Supplements Fund (PSOVSF). The POLICE QPP is a single-employer pension plan for all full-time uniformed employees of the New York City Police Department.

POVSF and PSOVSF operate pursuant to the provisions of Title 13, Chapter 2 of the ACNY. POVSF provides supplemental benefits to POLICE QPP members who retire for service on or after October 1, 1968 with 20 or more years of service as police officers. PSOVSF provides supplemental benefits to POLICE QPP members who retire for service on or after October 1, 1968 as police superior officers with 20 or more years of service.

5. New York Fire Department Pension Fund (FIRE) administers the FIRE QPP, along with the Firefighters' Variable Supplements Fund (FFVSF) and the Fire Officers' Variable Supplements Fund (FOVSF). The FIRE QPP is a single-employer pension plan for full-time uniformed employees of the New York City Fire Department.

FFVSF and FOVSF operate pursuant to the provisions of Title 13, Chapter 3 of the ACNY. FFVSF provides supplemental benefits to FIRE QPP members who retire for service on or after October 1, 1968 with 20 or more years of service as firefighters or wipers. FOVSF provides supplemental benefits to FIRE QPP members who retire for service on or after October 1, 1968 as fire officers, and all pilots and marine uniformed engineers, with 20 or more years of service.

Except for NYCERS and BERS, permanent, full-time employees are generally required to become members of a NYCERS QPP upon employment. Permanent full-time employees who are eligible to participate in the NYCERS QPP and BERS QPP are generally required to become members within six months of their permanent employment status but may elect to become members earlier. Other employees who are eligible to participate in the NYCERS QPP and BERS QPP may become members at their option.

As of June 30, 2013 and June 30, 2012, the dates of the most recent actuarial valuations, system-wide membership data for the QPPs are as follows:

	<u>NYCERS</u>	<u>TRS</u>	<u>BERS</u>	<u>POLICE</u>	<u>FIRE</u>	<u>Total</u>
QPP Membership at June 30, 2013						
Retirees and Beneficiaries Receiving Benefits	139,399	78,177	15,455	46,950	16,807	296,788
Terminated Vested Members Not Yet						
Receiving Benefits	10,086	10,867	182	715	33	21,883

*Summary of Plan Benefits**QPPs*

The NYCERS QPPs provide pension benefits to retired employees generally based on salary, length of service, and pension tier. For certain members of the NYCERS QPPs, voluntary member contributions also impact pension benefits provided. The NYCERS also provide automatic Cost-of-Living Adjustments (COLA) and other supplemental pension benefits to certain retirees and beneficiaries. In the event of disability during employment, participants may receive retirement allowances based on satisfaction of certain service requirements and other provisions. The NYCERS QPPs also provide death benefits. Subject to certain conditions, members become fully vested as to benefits upon the completion of 5 or 10 years of service depending on tier. Upon termination of employment before retirement, certain members are entitled to refunds of their own contributions, including accumulated interest, less any outstanding loan balances.

The State Constitution provides that pension rights of public employees are contractual and shall not be diminished or impaired. In 1973, 1976, 1983 and 2012, significant amendments made to the State Retirement and Social Security Law (RSSL) modified certain benefits for employees joining the QPPs on or after the effective date of such amendments, creating membership tiers. Currently, there are several tiers referred to as Tier I, Tier II, Tier III, Tier IV and Tier VI. Members are assigned a tier based on membership date. The specific membership dates for each tier may vary depending on the respective QPP. The Tier II Plan ended as of June 30, 2009. This affects new hires into the uniformed forces of the New York City Police Department and the New York City Fire Department (new members of the POLICE QPP and FIRE QPP) and Detective Investigators who become new members of the NYCERS QPP from July 1, 2009 to March 31, 2012. Chapter 18 of the Laws of 2012 (Chapter 18/12) amended the retirement benefits of public employees who establish membership in one of the NYCERS on or after April 1, 2012. Chapter 18/12 is commonly referred to as Tier VI.

VSFs

The VSFs provide a guaranteed schedule of supplemental benefits for respective eligible members. Currently, these annual supplemental benefits generally are a maximum amount of \$12,000. For COVSF prior to Calendar Year 2019, total supplemental benefits paid, although determined in the same manner as for other VSFs, are only paid if the assets of COVSF are sufficient to pay the full amount due to all eligible retirees. Scheduled benefits to COVSF participants were paid for Calendar Years 2000 to 2005 and for Calendar Year 2014. Due to insufficient assets, no benefits were paid to COVSF participants from Calendar Year 2006 to Calendar Year 2013. For Calendar Years 2019 and later, COVSF provides for a schedule of defined supplemental benefits that are guaranteed. COVSF benefits are expected to be paid in Calendar Year 2015.

In accordance with ACNY, VSFs are not pension funds or retirement systems. Instead, they provide scheduled supplemental payments, in accordance with applicable statutory provisions. While a portion of these payments are guaranteed by the City, the Legislature has reserved to itself and The State of New York, the right and power to amend, modify, or repeal VSFs and the payments they provide. However, any assets transferred to the VSFs are held in trust solely for the benefit of its members.

TDA Programs

Benefits provided under the TRS and BERS TDA Programs are derived from members' accumulated contributions. No benefits are provided by employer contributions. A participant may withdraw all or part of the balance of his or her account at the time of retirement or termination of employment. Beginning January 1, 1989, the tax laws restricted withdrawals of tax-deferred annuity contributions and accumulated earnings thereon for reasons other than retirement or termination. Contributions made after December 31, 1988, and investment earnings credited after December 31, 1988, may only be withdrawn upon attainment of age 59-1/2 or for reasons of hardship (as defined by Internal Revenue Service regulations). Hardship withdrawals are limited to contributions only.

An active member may withdraw all or part of the contributions made before January 1, 1989, and the earnings credited to the account before January 1, 1989. The member making the withdrawals may not contribute to the TDA Program for the remainder of the current year.

If a member dies while an active employee, the full value of his or her account at the date of death is paid to the member's beneficiary or estate.

When a member resigns before attaining vested rights under the respective QPP, he or she may withdraw the value of his or her TDA Program account or leave the account in the TDA Program for a period of up to five years after the date of resignation. If a member resigns after attaining vested rights under the respective QPP, he or she may leave his or her account in the TDA Program, accruing earnings until reaching an age requiring minimum distribution as required by IRS regulations. Once a withdrawal is made from the respective QPP, an automatic termination and refund of the value of the account in the TDA Program will be made to the member. In lieu of making withdrawals from his or her TDA Program account upon retirement, a member may choose to take the balance in the form of an annuity that is calculated based on the statutory rate of interest (discussed below) and statutory mortality assumptions.

The TDA Programs have several investment options broadly categorized as fixed return funds and variable return funds. Under the fixed return funds, deposits from members' TDA Program accounts are used by the respective QPP to purchase investments, and such TDA Program accounts are credited with a statutory rate of interest, currently 7% for UFT members and 8.25% for all other members. The QPP is initially responsible for funding any deficiency between the statutory rates and actual rate of return of the QPP. If earnings on the respective QPP are less than the amount credited to the TDA Program members' accounts, then additional payments by the City to the respective QPP may be required. If the earnings are higher, then lower payments by the City to the QPP may be required.

All investment securities held in the fixed return funds are owned and reported by the QPP. A receivable due from the QPP equal in amount to the aggregate original principal amounts contributed by TDA Program members to the fixed return funds, plus accrued interest at the statutory rate, is owned by the TDA Program. The balance of TDA Program fixed return funds held by the TRS QPP as of June 30, 2015 and 2014 were \$18.7 billion and \$17.2 billion, respectively, and interest paid on TDA Program fixed return funds by the TRS QPP for the years then ended were \$1.2 billion and \$1.1 billion, respectively. The balance of TDA Program fixed return funds held by the BERS QPP as of June 30, 2015 and 2014 are \$1,153 million and \$999 million, respectively, and interest paid on TDA Program fixed return funds by the BERS QPP for the years then ended were \$45.0 million and \$206.6 million, respectively. Under the variable return funds, members' TDA Program accounts are adjusted for actual returns on the underlying investments of the specific fund selected. Members may switch all or a part of their TDA contributions between the fixed and variable return funds on a quarterly basis.

Contributions and Funding Policy

QPPs

The City's funding policy is to contribute statutorily-required contributions (Statutory Contributions). Statutory Contributions for the NYCRS, determined by the Actuary in accordance with State statutes and City laws, are generally funded by the employers within the appropriate Fiscal Year. The Statutory Contributions are determined under the One-Year Lag Methodology (OYLM). Under OYLM, the actuarial valuation date is used for calculating the Employer Contributions for the second following Fiscal Year. For example, the June 30, 2013 actuarial valuation was used for determining the Fiscal Year 2015 Statutory Contributions. Statutory Contributions are determined annually to be an amount that, together with member contributions and investment income, provides for QPP assets to be sufficient to pay benefits when due. The aggregate Statutory Contributions due to each QPP from participating employers for Fiscal Years 2015 and 2014 and the amount of the City's Statutory and Actual contribution to each QPP for such fiscal years are as follows (in millions):

<u>QPP</u>	<u>Fiscal Year 2015 Aggregate Statutory Contribution</u>	<u>Fiscal Year 2015 City Statutory/Actual Contribution</u>	<u>Fiscal Year 2014 Aggregate Statutory Contribution</u>	<u>Fiscal Year 2014 City Statutory/Actual Contribution</u>
	(in millions)			
NYCERS	\$3,160	\$1,758	\$3,114	\$1,730
TRS	3,270	3,181	2,999	2,917
BERS	258	258	215	215
POLICE	2,310	2,310	2,321	2,321
FIRE	989	989	970	970

Member contributions are established by law and vary by QPP. In general, Tier I and Tier II member contribution rates are dependent upon the employee's age at membership and retirement plan election. In general, Tier III and Tier IV members make basic contributions of 3.0% of salary regardless of age at membership. Effective October 1, 2000, in accordance with Chapter 126 of the Laws of 2000, these members, except for certain Transit Authority employees, are not required to make basic contributions after the 10th anniversary of their membership date or completion of ten years of credited service, whichever is earlier. Effective December 2000, certain Transit Authority Tier III and Tier IV members make basic member contributions of 2.0% of salary in accordance with Chapter 10 of the Laws of 2000. Certain members of the NYCERS QPP, TRS QPP and BERS QPP also make additional member contributions. Tier VI members contribute between 3.0% and 6.0% of salary, depending on salary level.

VSFs

ACNY provides that the POLICE QPP and FIRE QPP transfer to their respective VSFs amounts equal to certain excess earnings on QPP equity investments, generally limited to the unfunded accumulated benefit obligation for each VSF. ACNY also provides that the NYCERS QPP transfer to COVSF a fraction of certain excess earnings on NYCERS QPP equity investments, such fraction reflecting the ratio of Uniformed Correction member salaries to the salaries of all active members of the NYCERS QPP. In each case, the earnings to be transferred (or the appropriate fraction thereof in the case of COVSF) are the amount by which earnings on equity investments exceed what the earnings would have been had such funds been invested at a yield comparable to that available from fixed income securities, less any cumulative past deficiencies (Excess Earnings).

In addition to the transfer of Excess Earnings, under Chapter 3 of the Laws of 2013, should the assets of the POVVSF or the PSOVVSF be insufficient to pay annual benefits, the POLICE QPP is required to transfer amounts sufficient to make such benefit payments. Additionally, under Chapter 583 of the Laws of 1989, should the assets of the FFVSF or the FOVSF be insufficient to pay annual benefits, the City is required to transfer amounts sufficient to make such benefit payments. Further, under Chapter 255 of the Laws of 2000, the NYCERS QPP is required to make transfers to TPOVSF, TPSOVVSF, HPOVSF and HPSOVVSF sufficient to meet their annual benefit payments.

For Fiscal Year 2015, Excess Earnings on equity investments, inclusive of prior year's cumulative deficiencies, exceeded zero, and therefore, transfers of assets from the QPPs to their respective VSFs were required. As of the date of this report, the amount of such transfer due for Fiscal Year 2015 from the NYCERS QPP to COVSF is estimated to be \$30 million. The amounts of such transfers due for Fiscal Year 2015 from the POLICE QPP to POVVSF and PSOVVSF are estimated to be \$330 million and \$260 million, respectively. The amounts of such transfers due for Fiscal Year 2015 from the FIRE QPP to FFVSF and FOVSF are estimated to be \$30 million and \$10 million, respectively. Additionally, in Fiscal Year 2015, the NYCERS QPP made required transfers of \$4.1 million, \$3.1 million, \$2.1 million, and \$2.7 million to TPOVSF, TPSOVVSF, HPOVSF, and HPSOVVSF, respectively, to fund annual benefits.

For Fiscal Year 2014, Excess Earnings on equity investments, inclusive of prior year's cumulative deficiencies, exceeded zero, and therefore, transfers of assets from the QPPs to their respective VSFs were required. The amount of such transfer due for Fiscal Year 2014 from the NYCERS QPP to COVSF was estimated to be \$190 million. The amounts of such transfers due for Fiscal Year 2014 from the POLICE QPP to POVVSF and PSOVVSF were estimated to be \$1.29 billion and \$1.02 billion, respectively. The amounts of such transfers due for Fiscal Year 2014 from the FIRE QPP to FFVSF and FOVSF were estimated to be \$110 million and \$10 million, respectively. Additionally, in Fiscal Year 2014, the NYCERS QPP made required transfers of \$4.1 million, \$3.1 million, \$2.2 million and \$2.8 million to TPOVSF, TPSOVVSF, HPOVSF, and HPSOVVSF, respectively, to fund annual benefits. Also, because PSOVVSF assets were insufficient to pay benefits, the POLICE QPP made required transfers to PSOVVSF of approximately \$231 million in Fiscal Year 2014.

TDA Programs

Contributions to the TDA Programs are made by the members only and are voluntary. Active members of the respective QPP are required to submit a salary reduction agreement and an enrollment request to make contributions. A participant may elect to exclude an amount (within the maximum allowed by the Internal Revenue Service) of his or her compensation from current taxable income by contributing it to the TDA Programs. This maximum is determined annually by the IRS for each calendar year. Additionally, members can elect either a fixed or variable investment program for investment of their contributions.

No employer contributions are made to the TDA Programs. However, the TDA Programs offer a fixed return investment option as discussed above which could increase or decrease the City's contribution to the respective QPPs.

Net Pension Liability

The City's net pension liabilities for each of the QPPs reported at June 30, 2015 and 2014 were measured as of those fiscal year-end dates. The total pension liabilities used to calculate those net pension liabilities were determined by actuarial valuations as of June 30, 2013 and June 30, 2012, respectively, based on the OLYM described above, and rolled forward to the respective fiscal year-end measurement dates. Information about the fiduciary net position of each QPP and additions to and deductions from each QPP's fiduciary net position has been determined on the same basis as they are reported by the respective QPP. For this purpose, benefits and refunds are recognized when due and payable in accordance with the terms of the respective qualified pension plan and investments are reported at fair value.

Actuarial Assumptions

The total pension liabilities in the June 30, 2013 and June 30, 2012 actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurement:

	June 30, 2013	June 30, 2012
<i>Investment Rate of Return</i>	<i>7.0% per annum, net of investment expenses (Actual Return for Variable Funds).</i>	<i>7.0% per annum, net of investment expenses (Actual Return for Variable Funds).</i>
<i>Post-Retirement Mortality</i>	<i>Tables adopted by the respective Boards of Trustees during Fiscal Year 2012.</i>	<i>Tables adopted by the respective Boards of Trustees during Fiscal Year 2012.</i>
<i>Active Service: Withdrawal, Death, Disability, Retirement</i>	<i>Tables adopted by the respective Boards of Trustees during Fiscal Year 2012.</i>	<i>Tables adopted by the respective Boards of Trustees during Fiscal Year 2012.</i>
<i>Salary Increases¹</i>	<i>In general, Merit and Promotion increases, plus assumed General Wage Increases of 3.0% per year.</i>	<i>In general, Merit and Promotion increases, plus assumed General Wage Increases of 3.0% per year.</i>
<i>Cost-of-Living Adjustments¹</i>	<i>1.5% per annum for Tiers I, II, IV, and certain Tier III and Tier VI retirees. 2.5% per annum for certain Tier III and Tier VI retirees.</i>	<i>1.5% per annum for Tiers I,II,IV and certain Tier III and Tier VI retirees. 2.5% per annum for certain Tier III and Tier VI retirees.</i>

⁽¹⁾ Developed assuming a long-term Consumer Price Inflation assumption of 2.5% per year.

Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of the five actuarially-funded QPPs are conducted by an independent actuarial firm every two years. The most recent actuarial study analyzed experience for the four-year and ten-year periods ended June 30, 2013. In a report dated October 23, 2015, the independent actuarial auditor confirmed that the Actuary's calculations of employer contributions for Fiscal Year 2014 were reasonable and appropriate and recommended the consideration of changes to the mortality, overtime, and investment return assumptions.

In accordance with the ACNY and with appropriate practice, the Boards of Trustees of the five actuarially-funded QPPs are to periodically review and adopt certain actuarial assumptions as proposed by the Actuary for use in the determination of Employer Contributions, which are also generally used to determine the total pension liability, as applicable. Based, in part, upon a review of the then two most recently completed experience studies, the Actuary issued reports for the QPPs proposing changes in actuarial assumptions and methods for Fiscal Years beginning on and after July 1, 2011 (February 2012 Reports). Where required, the Boards of Trustees of the NYCRS adopted those changes to actuarial assumptions that require Board approval. The State Legislature enacted Chapter 3/13 to provide for those changes to the actuarial assumptions and methods that require legislation, including the Actuarial Interest Rate (AIR) assumption of 7.0% per annum, net of investment expenses.

Management of each of the pension funds has determined its long-term expected rate of return to be 7.0% per annum. This is based upon weighted expected real rates of return (RROR) ranging from 5.34% to 5.58% and a long-term Consumer Price Inflation assumption of 2.5% offset by investment related expenses. The target asset allocation of each of the funds and the expected RROR for each of the asset classes are summarized in the following tables:

NYCERS		
<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected RROR</u>

Discount Rate

The discount rate used to measure the total pension liability of each QPP as of June 30, 2015 and 2014 was 7.0%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the rates applicable to the current tier for each member and that employer contributions will be made based on rates determined by the Actuary. Based on those assumptions, each QPP's fiduciary net position was projected to be available to make all projected future benefit payments of current active and non-active QPP members. Therefore, the long-term expected rate of return on QPP investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability—POLICE and FIRE QPPs

Changes in the City's net pension liability for POLICE and FIRE for the Fiscal Years ended June 30, 2015 and 2014 are as follows:

	POLICE			FIRE		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(in millions)					
Balances at 6/30/2013	\$44,550	\$29,452	\$15,098	\$17,524	\$ 9,822	\$ 7,702
Changes for Fiscal Year 2014:

The following table presents the City's net pension liability for POLICE and FIRE calculated using the discount rate of 7.0%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

	Fiscal Year 2015			Fiscal Year 2014		
	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)
	(in millions)					
POLICE	\$17,703	\$12,513	\$8,202	\$16,893	\$11,831	\$7,577
FIRE	8,890	6,923	5,225	8,449	6,522	4,885

City Proportion of Net Pension Liability—NYCERS, TRS and BERS (Excluding TDAs)

The following table presents the City's proportionate share of the net pension liability of the NYCERS, TRS and BERS QPPs at June 30, 2015 and 2014, and the proportion percentage of the aggregate net pension liability of each QPP allocated to the City:

	June 30, 2015			June 30, 2014		
	NYCERS	TRS	BERS	NYCERS	TRS	BERS
	(in millions, except for %)					
City's proportion of the net pension liability	55.55%	97.27%	99.99%	55.54%	97.28%	99.99%
City's proportionate share of the net pension liability	\$11,244	\$20,219	\$1,100	\$10,008	\$17,331	\$907

The City's proportion of the respective QPP's net pension liability was based on actual required contributions of each of the participating employers.

The following table presents the City's proportionate share of net pension liability for the NYCERS, TRS, and BERS QPPs calculated using the discount rate of 7.0%, as well as what the City's proportionate share of the respective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

QPPs	Fiscal Year 2015			Fiscal Year 2014		
	1% Decrease	Current	1% Increase	1% Decrease	Current	1% Increase
	(6.0%)	Discount Rate (7.0%)	(8.0%)	(6.0%)	Discount Rate (7.0%)	(8.0%)
	(in millions)

* For City Fiscal Years 2012, 2011, 2010, 2009, 2008, 2007 and 2006 reported contributions and covered payroll amounts are those of each retirement system as a whole (i.e., the sums for all participating employers.) City-only covered payroll is not readily available for years prior to 2013; and due to methodological changes during the periods 2005 through 2012, the City-only employer contributions are not comparable over the ten year period.

Notes to Schedule C:

The above actuarially determined and contractually required contributions were developed using a One-Year Lag Methodology, under which the actuarial valuation determines the employer contribution for the second following fiscal year (e.g. Fiscal Year 2015 contributions were determined using an actuarial valuation as of June 30, 2013). The methods and assumptions used to determine the actuarially determined and contractually required contributions are as follows:

Fiscal Year	2015	2014	2013	2012	2011

REQUIRED SUPPLEMENTARY INFORMATION (Unaudited), Continued

Notes to Schedule C:

Fiscal Year	2010	2009	2008	2007	2006
Salary Increases	In general, Merit and Promotion Increases plus assumed General Wage Increases of 3.0% per year: ⁴	In general, Merit and Promotion Increases plus assumed General Wage Increases of 3.0% per year: ⁴	In general, Merit and Promotion Increases plus assumed General Wage Increases of 3.0% per year: ⁴	In general, Merit and Promotion Increases plus assumed General Wage Increases of 3.0% per year: ⁴	In general, Merit and Promotion Increases plus assumed General Wage Increases of 3.0% per year: ⁴
Cost-of-Living Adjustments ²	1.3% per annum ⁴	1.3% per annum ⁴	1.3% per annum ⁴	1.3% per annum ⁴	1.3% per annum ⁴

¹ Under the Frozen Initial Liability Actuarial Cost Method, the excess of the Actuarial Present Value (APV) of projected benefits of the membership as of the valuation date, over the sum of the Actuarial Value of Assets plus the UAAL, if any, and the APV of future employee contributions is allocated on a level basis over the future earnings of members who are on the payroll of the valuation date. The Initial Liability was reestablished by the Entry Age Actuarial Cost Method as of June 20, 1999 but with the UAAL not less than \$0. Actuarial gains and losses are reflected in the employer normal contribution rate.

² In conjunction with Chapter 85 of the Laws of 2000 (Chapter 85/100), there is an amortization method. However, the initial pre-2010 UAAL of NYCERS, TRS, BERS, and POLICE equal \$0 and no amortization periods are required.

³ Laws of established UAAL for Early Retirement Inventive Programs to be amortized on a level dollar basis over periods of 5 years.

⁴ Developed assuming a long-term Consumer Price Inflation assumption of 2.5% per year.

⁵ Beginning with the June 30, 2010 (Lag) actuarial valuation under the 2012 A&M, the Entry Age Actuarial Cost Method (EAACM) of funding is utilized by the Actuary to calculate the contributions required of the Employer. Under this method, the Actuarial Present Value (APV) of Benefits (APVB) of each individual included in the actuarial valuation is allocated on a level basis over the earnings (or service) of the individual between entry age and assumed exit ages. The employer portion of this APV allocated to a valuation year is the Normal Cost. The portion of this APV not provided for at a valuation date by the APV of Future Normal Costs or future member contributions is the Actuarial Accrued Liability (AAL). The excess, if any, of the AAL over the Actuarial Asset Value (AAV) is the Unfunded Actuarial Accrued Liability (UAAL). Under this method, actuarial gains (losses), as they occur, reduce (increase) the UAAL and are explicitly identified and amortized. Increases (decreases) in obligations due to benefit changes, actuarial assumption changes and/or actuarial method changes are also explicitly identified and amortized.

⁶ Market Value Restart as of June 30, 2011. Actuarial Asset Value (AAV) as of June 30, 2010 defined to recognize Fiscal Year 2011 investment performance. The June 30, 2010 AAV is derived as equal to the June 30, 2011 Market Value of Assets, discounted by the Actuarial Interest Rate assumption (adjusted for cash flow) to June 30, 2010.

D. Schedule of Funding Progress for the New York City Other Postemployment Benefits Plan

The schedule of funding progress presents GASB No. 45 results of OPEB valuations as of Fiscal Years ended June 30, 2015, 2014, 2013, 2012, 2011, 2010, 2009, 2008, and 2007. The schedule provides a nine year information trend about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Valuation Date	(1) Actuarial Value of Assets	(2) Actuarial Accrued Liability (AAL)	(3) Unfunded AAL (UAAL)	(4) Funded Ratio	(5) Covered Payroll	(6) UAAL as a Percentage of Covered Payroll

The City of New York

Comprehensive Annual Financial Report of the Comptroller

STATISTICAL SECTION

Part III

This part of the Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. The following are the categories of the various schedules that are included in this Section:

Financial Trends Information

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity Information

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity Information

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

⁽¹⁾ Property tax rate based on every \$100 of assessed valuation.

Notes:

The definitions of the four classes are as follows:

- Class One — One, two, and three family homes; single family homes on cooperatively owned land.
Condominiums with no more than three dwelling units, provided such property was previously classified as Class One or no more than three stories in height and built as condominiums.
Mixed-use property with three units or less, provided 50 percent or more of the space is used for residential purposes.
Vacant land, primarily residentially zoned, except in Manhattan below 110th Street.
- Class Two — All other residential property not in Class One, except hotels and motels.
Mixed-use property with four or more units, provided 50 percent or more of the space is used for residential purposes.
- Class Three — Utility real property owned by utility corporations, except land and buildings.
- Class Four — All other real property.

Property in New York City is reassessed every year. The City assesses property at approximately 40 percent of Market Value for commercial and industrial property and 20 percent of Market Value for residential property.

(1) Represents the weighted average of the four classes of real property.

(2) Property tax rate based on every \$100 assessed valuation.

(3) In fiscal year 2014 The Annual Report, the New York City Property Tax Fiscal Year 2014, reported various classifications of Condos as class four real property for the first time.

Note: Property in New York City is reassessed once a year. The City assesses property at approximately 40 percent of Market Value for commercial and industrial property and 20 percent of Market Value for residential property.

⁽¹⁾ Represents the weighted average of the four classes of real property.⁽²⁾ Property tax rate based on every \$100 assessed valuation.

Collections, Cancellations, Abatements and Other Discounts as a Percent of Tax Levy—Ten Year Trend

Fiscal Year	Tax Levy (in millions) ⁽²⁾	Percent of Levy through June 30, 2015			Uncollected Balance June 30, 2015
		Collections	Cancellations	Abatements and Discounts ⁽¹⁾	
2006	\$13,668.1	93.6%	4.4%	4.2%	0.2%
2007	14,291.2	93.8	4.7	4.5	0.2
2008	14,356.2	93.7	4.5	4.1	0.3
2009	15,327.5	96.6	4.7	4.5	0.5
2010	17,588.1	92.6	4.3	4.1	0.9
2011	18,323.7	92.0	3.8	4.1	2.1
2012	19,284.5	91.9	3.6	3.9	1.7
2013	20,133.1	91.8	3.4	4.2	1.5
2014	21,285.2	91.6	3.1	3.8	1.4
2015	22,591.5	92.1	3.5	3.3	1.5

⁽¹⁾ Abatements and Discounts include SCRIE Abatements (Senior citizen rent increase exemption), J-51 Abatements, Section 626 Abatements and other minor discounts offered by the City to property owners.

⁽²⁾ The Tax Levy amounts are the amount from the City Council Resolution. In 2003 an 18% surcharge was imposed and is included in each year following.

NOTES: Total uncollected balance at June 30, 2015 less allowance for uncollectible amounts equals net realizable amount (real estate taxes receivable).

Levy may total over 100 percent due to imposed charges that include ICIP deferred charges (Industrial and Commercial Incentive Program), rebilling charges and other additional charges imposed by The Department of Finance (DOF). This information is included in the FAIRTAX LEVY report.

(a) The summonses issued by various City agencies for parking violations are adjudicated and collected by the Parking Violations Bureau (PVB) of the City's Department of Finance.

(b) Proposed "write-offs" are in accordance with a write-off policy implemented by PVB for summonses determined to be legally uncollectible/unprocessable or for which all prescribed collection efforts are unsuccessful.

(c) The Allowance for Uncollectible Amounts is calculated as follows: summonses which are over three years old are fully (100%) reserved and 35% of summonses less than three years old are reserved.

NOTE: Data does not include interest reflected on the books of PVB.

Notes:

⁽¹⁾ Includes adjustments for Business Improvement Districts, Original Issue Discount, Capital Appreciation Bonds Discounts and cash on hand for defeasance.

⁽²⁾ TFA Debt Outstanding above 13.5 billion (Excludes TFA Building Aid Revenue bonds).

The Constitution of the State of New York limits the general debt-incurring power of The City of New York to ten percent of the five-year average of full valuations of taxable real estate.

Obligations for water supply and certain obligations for rapid transit and sewage are excluded pursuant to the State Constitution and in accordance with provisions of the State Local Finance Law. Resources of the General Debt Service Fund applicable to non-excluded debt and debt service appropriations for the redemption of such debt are deducted from the non-excluded funded debt to arrive at the funded debt within the debt limit.

To provide for the City's capital program, State legislation was enacted which created the Transitional Finance Authority (TFA). TFA debt above 13.5 billion is subject to the general debt limit of the City.

(1) Tobacco settlement revenues (TSR).

(2) A portion of the TSR's received in a fiscal year are reserved for the subsequent fiscal year's December debt service payment.

(3) The annual payment of principal is determined by the available amount of TSASC's TSR and interest earnings, after payment of interest and operating expenses.

(4) On February 8, 2006 TSASC restructured its debt. The new indenture pledged 37.4% of TSR collection towards debt service and operating expenses and from the date of the restructuring forward only that pledged portion of TSR is included in this coverage calculation.

HYIC issued its first bonds on December 21, 2006

- (1) District Improvement Bonuses (DIB)
 (2) Property Tax Equivalency Payments (TEP)
 (3) Interest Support Payments (ISP)
 (4) Payments in Lieu of the Mortgage Recording Tax (PILOMRT)
 (5) Payments in Lieu of Real Estate Taxes (PILOT)
 (6) Grant from City

(7) ISPs are to be made by the City under the terms of Support and Development Agreement, which obligates the City to pay HYIC, subject to annual appropriation, an ISP amount equal to the difference between the amount of funds available to HYIC to pay interest on its current outstanding bonds and the amount of interest due on such bonds.

(8) Debt service payments are funded from excess prior years' revenues and from current year revenues.

(9) In December 2011, HYIC was obligated to make an arbitrage rebate payment to United States Treasury for \$8.8M

^(a) Unemployed persons are all civilians who had no employment during the survey week, were available for work, except for temporary illness, and had made efforts to find employment some time during the prior four weeks. This includes persons who were waiting to be recalled to a job from which they were laid off or were waiting to report to a new job within 30 days.

Note: Employment and unemployment information is not seasonally adjusted.

(1) Beginning in 2010 the data reported changed from *Tort Cases Commenced* to *Cases commenced citywide*.

(2) Based on the average daily census for June taken by DHS

(3) DHS converted to a new data system CARES, in fiscal 2012 resulting in a variance of entrant data for December 2011 and January 2012 which affects fiscal 2012 totals.

(4) Includes noise complaints.

(5) According to MMR tons recycled per day will be available in FY'15 report.

(6) Pothole orders may include multiple potholes.

(7) The New Housing Marketplace Plan was discontinued during fiscal year 2014 and replaced with Housing New York Plan

(8) The Housing New York Plan commenced during fiscal year 2014. Prior to fiscal year 2014 the statistics only indicated The New Housing Marketplace Plan that was discontinued during fiscal year 2014

(9) Beginning fiscal year 2013 DOHMH discontinued reporting *Aids New Adult cases Diagnosed (CY)* and replaced it with a new more useful indicator *New HIV diagnoses (CY) preliminary*

N/A: Not Applicable.

Source: Unless otherwise indicated, all data is from the Mayor's Management Report (MMR) and from various City agencies.

(1) FY 2010 includes various other facilities with active enrollment relating to primary, intermediate and high school. This includes minischools, transportables and leased space. Also, multiple district schools may be operated in a single school building.

(2) The FY 2007 decrease in transfer stations and increase in piers and bulkheads were due to reclassifications of facilities that year.

Note: Capital assets do not include certain City-owned assets that are leased to other entities (including the New York City Transit Authority, Health and Hospitals Corporation and the Water Board). Replacement cost and replacement cost depreciation are based upon replacement cost indices and do not represent actual replacement cost appraisals.

⁽¹⁾ Replacement Cost is estimated based on Consumer Price Index (CPI)
