M/WBE Noncompetitive Small Purchase Method
Procedural Compliance Report: First Quarter, Calendar 2024
(January 1, 2024 to March 31, 2024)

Background

In November 2019, the City’s Procurement Policy Board (PPB) unanimously voted to amend PPB Rule 3-08 to allow for direct purchases of goods, services and construction from City–certified Minority and Women-Owned Business Enterprises (M/WBEs) up to \$500,000, consistent with newly enacted state legislation. This rule change took effect on January 1, 2020. As a result of this update, the City of New York launched the updated M/WBE Noncompetitive Small Purchase Method in January 2020. A PPB rule change effective June 3, 2023, raised the method’s threshold to \$1 million. Effective December 19, 2023, the method’s threshold was raised to \$1.5 million.

To ensure compliance with the requisites to use the M/WBE Noncompetitive Small Purchase Method, Mayoral Agencies are required to perform a quarterly review of at least 10% of its purchases made using this Method. To demonstrate our commitment to this important program, the Comptroller’s Office will review all purchases made each quarter, beginning on January 1, 2020, when the rule took effect. This report covers the first quarter of 2024, from January 1, 2024, through March 31, 2024.

A description of this procedural review and the resulting findings are outlined below.

Approach and Methodology

Compliance with the procedural requirements for each contract awarded using the M/WBE Noncompetitive Small Purchase method was assessed based on the twenty-two (22) items listed in the Procedural Compliance Checklist on the following page. This report will measure compliance based on that checklist. Details of procedural compliance for this reporting period are described in Table 1.
