JOB VACANCY NOTICE

Title:	**.NET Developer**
Salary:	**$80,000 - $100,000**
Bureau/Division:	**Bureau of Information Systems and Technology**
Period:	**March 28, 2018 - Until Filled**

JOB DESCRIPTION

The Bureau of Information systems provides a full range of technology support services for key business functions and charter mandated responsibilities of the Comptroller's Office. These services include: technology strategic planning, web site development, graphic design, disaster recovery, systems development, network administration, audio/visual services, business process re-engineering, change management, program management, security administration, help desk, computer operations, telecommunications, and document management.

Under the direction of the Executive Director of Application Development, the responsibilities for the position of the .NET Developer include, but are not limited to the following:

- Design, develop, test, support and deploy custom web applications in a .NET environment;

- Design and develop testing and maintenance procedures and activities;

- Create software documentation and update existing documentation;

- Support and maintain existing BIST applications by identifying and resolving issues in a timely manner;

- Ensure compliance with the documented software processes and procedures throughout the life cycle of software products;

- Assist and support other team members on multiple projects;

- Research and evaluate software related technologies and products; and,

- Perform other duties as requested by the reporting manager.

MINIMUM QUALIFICATION REQUIREMENTS

1. BA/BS from an accredited college in computer science, information systems or a closely related field, and four (4) or more years of progressively responsible full-time experience as a .NET developer, preferably in a technology support organization, working with financial and accounting systems, operations research, computer systems, or in a related area; or,

2. Education and/or experience equivalent to "1" above.

PREFERRED SKILLS IN ADDITION TO MINIMUM QUALIFICATIONS

- 3+ years of development experience with C#, .NET 4.0/4.5+, MVC4+, Entity Framework, preferably in the Financial Services/Asset Management, Pension/Mutual Funds industry on Middle and back Office systems;

- Knowledge of all aspects of system development life cycle (SDLC); experience in writing T-SQL queries, views, stored procedures, and functions in MS SQL and creating reports via SQL Server Reporting Services (SSRS);

- Hands-on experience and knowledge of HTML5, CSS, JavaScript, JQuery, and Bootstrap;

- Familiarity with Web services, XML, XSL, XSLT is preferred;

- Excellent communication skills; ability to work independently in a fast-paced environment.

TO APPLY, GO TO: Employment Opportunities at www.comptroller.nyc.gov

Certain residency requirements may apply. We appreciate every applicant's interest; however, only those under consideration will be contacted.

Note: Vacancy notices listed as "Until Filled" will be posted for at least five work days.
